PRESENTING
the 61st Volume of

THE [1937
- PITOME
- Published in the city of Bethlehem
Pennsylvania by the Senior class
of Lehigh University May, 1937

TO you, Dr. Beardslee, we, the class of 1937, who have had the privilege of being in contact with your clear-thinking, analytical mind and your big-hearted personality, dedicate this final record of our individual and collective accomplishments as an expression of our warm appreciation of your helpfulness in solving personal problems and of your services as a counselor and friend.

REV. CLAUDE GILLETTE BEARDSLEE, Ph.D.

Foreword

IN Epitomizing the events of the past four years, we have attempted to catch the definite personality of our class. In this vein we have caricatured several of our best known friends in both the faculty and the student bodies. We have tried to show the serious attitude we had when we were bearing down on the books; we have also put in a dash of the informal, a record of dances, parties, games, and the like. These attempts have been divided into the following sections: Administration, College of Arts and Science, College of Business Administration, College of Engineering, the Classes, Organizations, and Athletics.

Our Campus

Scenes We Will Always Remember

Where the Lehigh's rocky rapids
Rush from out the West,
'Mid a grove of spreading chestnuts,
Walls in ivy drest.

On the breast of old South Mountain,

Reared against the sky,

Stands our noble Alma Mater,

Stands our dear Lehigh.

Like a watchman on the mountain,
Stands she grandly hold,
Earth and Heaven's secrets seeking,
Hoarding them like gold.

All she wrests from nature's storehouse
Naught escapes her eye
Gives she gladly to her dear sons,
While we bless Lehigh.

We will ever live to love her,
Live to praise her name;
Live to make our lives add lustre
To her glorious fame.

Let the glad news wake the echoes,
Joyfully we cry,
"Hail to thee, our Alma Mater!
Hail! All Hail! Lehigh!"

ACKNOWLEDGMENTS

The board of the 1937 EPILOGUE wishes to express its thanks to the following men for their assistance in the production of this volume:

MR. DAVID MCCAA of the McCaa Photographic Studio.

MR. W. L. SCHILLING of the Schilling Press, Inc.

MR. GORDON BRIGHTMAN and MR. LAURENCE RAMBEAU of the Jahn & Ollier Engraving Company.

MR. R. F. HERRICK, faculty adviser of the EPILOGUE, for permission to use certain cuts throughout the volume.

MR. L. C. WARD for the caricatures used in this volume.

In addition to the help afforded by these men in the production of this volume, the staff feels most grateful to those men who so kindly sat for and allowed the publication of their caricatures, and to Assistant Dean Curtis and Colonel Kellogg for their detailed work in writing the faculty section and the article on the athletic department respectively.

Of Interest About the College of Arts and Science

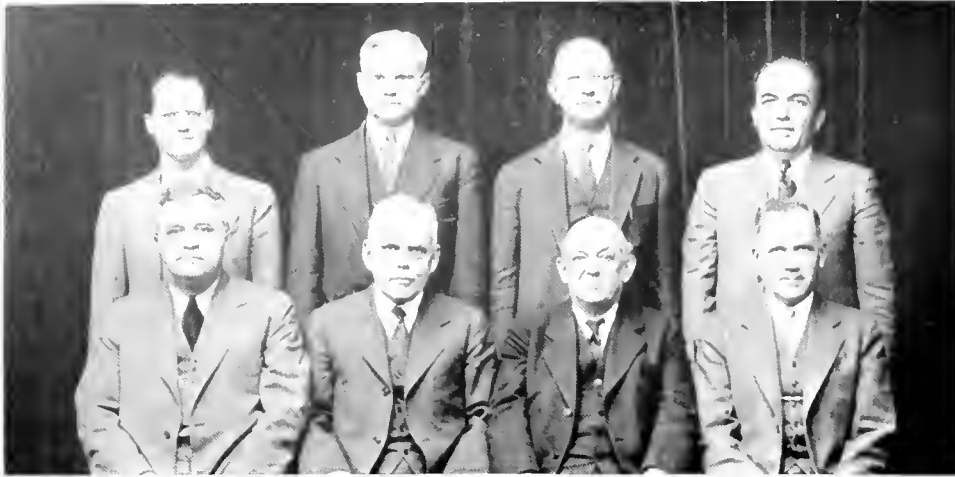

The dean of the College of Arts and Science is Philip Mason Palmer. He was graduated by Bowdoin in 1900 and received a second A. B. from Harvard in 1902, and has been teaching German at Lehigh ever since, except when he has had leaves of absence to study at the Universities of Heidelberg and Zurich. On the seniority list of faculty members his name is second. He became director of the College of Arts and Science in 1921 and his title was changed to Dean in 1936. He received the degree, Doctor, *Honoris Causa*, from the University of Padua in 1922. He has been a prominent citizen of Bethlehem and has served on the School Board and on the Board of Directors of the Public Library. Jointly with Robert Patison More, associate professor of German, he is author of "Sources of the Faust Tradition" published in 1936.

The department of biology is represented in "Who's Who" by Professor Robert William Hall and Stanley Thomas. Professor Hall has been head of the department since 1902. Before coming to Lehigh he served on the faculties of Harvard and Yale. Professor Thomas is a Lafayette graduate of the class of 1912. He is author of "Bacteriology" and of a laboratory manual to accompany this text. He is joint author with Dr. R. C. Bull, Lehigh University physician, of "Freshman Hygiene," and is a very well known contributor to various bacteriological publications.

All Lehigh students make acquaintance with the English department, presided over by Robert Metcalf Smith who is described by the Lehigh Review as a "Colossus of Culture." Including summer sessions, he has served on the faculties of a dozen different colleges. He is editor and compiler of many anthologies in literature, drama, and biography. His special interest is Shakespeare; he is an officer of various Shakespeare associations and has written numerous papers on his favorite author.

Benjamin LeRoy Miller has served Lehigh since 1907. At various times he has been connected with the U. S. Geological Survey and has written numerous reports setting forth the results of surveys he has made. He has written articles for the Geological Journal, particularly on limestones, cement, graphite, and other non-metallic products. Jointly with others he has written "Geology and Geography of the Bahama Islands," "Geology and Mining Districts in South America and Central America," and "Mineral Deposits in South America." He heads the geology department.

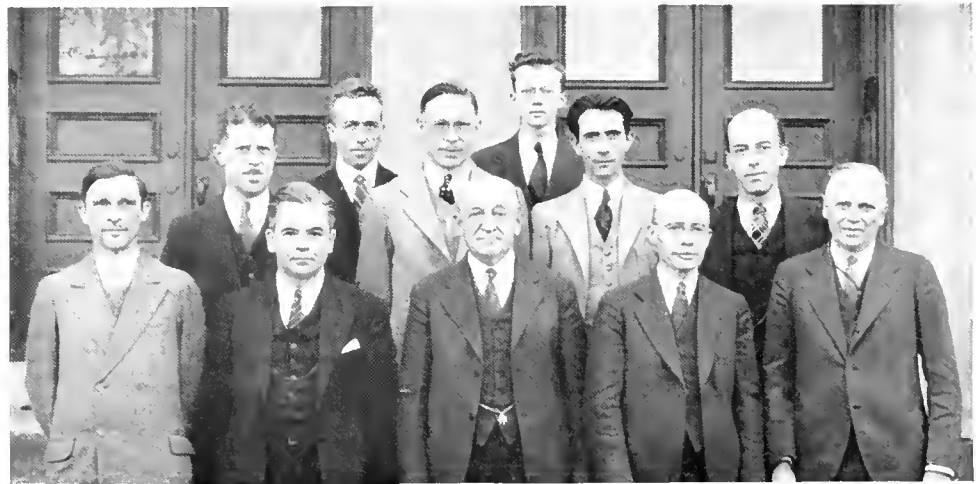

Included among the leading faculty members of this college are Professors Lawrence Henry Gipson and Sidney MacGillvary Brown, both historians. The former came to Lehigh in 1924 when the department of economics and history was divided, and is the first head of the history department. He is an authority on American colonial history and has been ranked with Bancroft. Professor Brown was an "ace" of the British Royal Air Force during the World War and received the distinguished flying cross. He is author of "Medieval Eu-

rope" which has gone through two editions and is an authority in the field of medieval history. They say he reads Latin just for fun. He and Dean Curtis are the only "surviving" colleagues of "Baldy" Stuart's department.

In the department of mathematics Professors Tomlinson Fort and Joseph Benson Reynolds are best known off the campus. Dr. Fort has served as president of the American Mathematical Society, has written numerous technical papers on mathematics, and is author of "Infinite Theories" and "A Vacation in Africa." Before coming to Lehigh he had served as head of the department of mathematics at the University of Alabama and at Hunter college. His colleague Professor Reynolds is an expert in theoretical mechanics. He was graduated B. A. from Lehigh in 1907 and has been on the faculty ever since. Dr. Reynolds is author of books on analytic mechanics, elementary mechanics, analytic geometry and the elements of calculus.

Two of Lehigh's philosophers are "Who's Who-ers." They are Claude Gillette Beardslee and Percy Hughes. Professor Hughes has been omnivorous in his interests. Since coming to Lehigh in 1907 he has taught courses in psychology, education, and philosophy and served as director of extension work for a period of years. He founded the Blake society and has taken an active part in the promotion of cultural activities on the campus. He is author of "The Concept Action in History and in Natural Science" and of an "Introduction to Psychology." Professor Beardslee, head of the department of moral and religious philosophy, has been a Congregational Minister, a superintendent of employment, and was a private and an officer in artillery in the World War. He is also chaplain of the university. All students come in contact with him either through the chapel exercises or the courses in ethics. He is Secretary of the Lehigh Union and has been a leader in student affairs.

Professor Charles Shattuck Fox, head of Romance Languages, retired on November 9, 1936. He had served Lehigh since 1905 and had taught not only the courses in modern languages but also, for a time, courses in german and in economic geography.

Other members of the faculty who will be remembered by undergraduates are Mr. Trembley and his snakes; Professor Harold Prescott Thomas, head of the department of Education, director of the summer session, and adviser to the Bethlehem School Board; Professor Edgar Riley in direct charge of freshman english; Professor Dale Gramley, teacher of journalism and mentor of the Brown and White; Professor Howland, teacher of freehand drawing, architecture, and art; Professor Fretz, "Is that all right," Professor Whitecomb who spouts physiography to Business Administration students, Horace Wright, Professor of latin and leader in the Archeological society, and Dr. Shelds, leader of the Lehigh Band and professor of appreciation of music.

Of Interest About the College of Business Administration

The curriculum in Business Administration was established at Lehigh University in September, 1909, with John Lamme Stuart, the only member of the department of economics and history, as director. The College of Business Administration was separated from the School of General Literature in 1918.

Neil Carothers, dean of the College, came to Lehigh in December, 1923, as director of the curriculum of Business Administration and head of the department of economics and history. His title was changed to Dean, in 1936, when each of the three colleges was organized with a separate faculty headed by a dean. Dean Carothers is a man of national reputation, through his syndicated newspaper articles, speeches, and radio talks on economic subjects. During the political campaign in 1936 he served as economic adviser to the Republican vice-presidential nominee, Franklin Knox. Dr. Carothers, jointly with Professor Bradford, organized the Economist's National Committee on Monetary Policy to combat the movement for inflation during the depression. He has served on the faculty of the University of Arkansas and of Princeton University. He was Rhodes Scholar from Arkansas in 1904-1907 and is now a member of the Pennsylvania Rhodes Scholarship Election committee. During the World War he served in the aviation section of the signal corps, with the general staff, and during the immediate post-war years was Economic expert in the Department of State. Immediately before coming to Lehigh he was a member of the staff of a large New York bank. Besides his contributions to periodical literature, he is author of "Fractional Money" and, jointly with others, "Economic Agencies of the World War." He teaches the courses in elementary economics, social institutions, and business law.

In 1936 the College of Business Administration was divided into three separate departments known henceforth as the departments of accounting, economics and sociology, and fi-

tion*

Dr. H. A. Haring; Dr. C. E. Allen; Dr. R. W. Mayer; Dr. D. L. Kemmerer; E. C. Bratt
Dr. F. A. Bradford; Dr. H. M. Diamond; Dr. N. C. Carothers; R. B. Cowin; Dr. W. L. Bishop

nance. Full professors already in the department were appointed heads of the new departments. Professor Herbert Maynard Diamond heads the department of Economics and Sociology. Professor Diamond is a specialist on labor problems. He has served on the faculties of Goucher college, University of Maryland, and New York University; he has been superintendent of the United States Employment Service in the Department of Labor in New Haven. His outstanding book is "Religion and the Commonwealth," but he has also written various monographs in the field of child labor. A volume entitled "Credit and Collections" was edited and revised by him. Such periodicals as Survey, American Journal of Sociology, Labor Legislation Review, American Federationist, and the American Economic Review have published his articles. Students listen to him in labor problems, advanced economics, sociology, and economic geography. His intimates call him "Herb."

Associated with Professor Diamond in the department of economics, besides Dean Carothers, is Dr. Albert Haring, associate professor of economics, and Dr. Donald Lorenzo Kemmerer, instructor in economics. Professor Haring teaches the freshman course in industrial evolution and the senior courses in marketing, and advertising and selling. His services have been frequently in demand by various advertising agencies and commercial organizations in connection with market surveys. He is engaged at present in "breaking down" certain marketing statistics for the U. S. Department of Commerce for publication in a series of monographs. Dr. Kemmerer has charge of the "quiz sections" in economics. He is a son of Edwin Walter Kemmerer, the internationally famous monetary expert.

Roy Burford Cowin is head of the department of accounting and associated with him in teaching the accounting courses is Dr. Carl Elmer Allen, assistant professor of accounting. Assigned to the work of this department are the courses in economic statistics, and business cycles and forecasting taught by Dr. Elmer Clark Bratt, assistant professor of economics. Professor Cowin has been teaching accounting to Lehigh students since 1924. He is a member of the American Accounting Association. Dr. Bratt is the author of a new text in business cycles and forecasting which has had a flattering number of adoptions in college classes since its publication early this year. He has served as statistician for the Bethlehem Steel Corporation and is author of the index number used by The New York Times.

The department of finance is headed by Dr. Frederic Alden Bradford. Dr. Bradford is author of a textbook on Money and another on Banking. He is a member of the editorial staff of The American Economic Review and a frequent contributor thereto. He served with the Economic Research Division of the Republican National Committee in the political campaign in 1936. He teaches the courses in money and banking, and banking policy. Associated with him is Dr. Ward Leslie Bishop, associate professor of economics, who teaches the courses in corporation finance, investments, public finance, and public utilities. Dr. Robert Wallace Mayer, instructor in economics, is in charge of the "quiz sections" of the courses in finance.

Of Interest About the College of Engineering

The College of Engineering offers nine different curricula in engineering taught in seven engineering departments. These are Chemical Engineering and Chemistry, Civil Engineering and Sanitary Engineering, Electrical Engineering, Engineering Physics, Industrial Engineering, Metallurgical Engineering and Mining Engineering. Lehigh professors have demonstrated leadership in each of these fields and it is impossible to enumerate the achievements of all. Let's start with the Dean.

Bradley Stoughton came to Lehigh in 1923 as professor and head of the department of metallurgy and director of the curriculum in Metallurgical Engineering. In 1936, he became the first Dean of the College of Engineering. Before coming to Lehigh he had a long and successful career in the metallurgical industry, having been employed by the Illinois Steel Company, by the American Steel and Wire Company, and, as manager, by the Bessemer steel department of Benjamin Acha and Company in Newark. From 1902 to 1923 he was in business as a consulting engineer. During a part of this time he served as adjunct professor and acting head of the department of metallurgy in the School of Mines of Columbia University. He has been a member of the National Research Council, head of the Metallurgical division and Vice-Chairman of the Engineering Division, and has served on the Welding Committee of the Emergency Fleet Corporation. Among the prominent organizations of which he has been an outstanding member are the American Institute of Mining and Mechanical Engineers, the American Electro-Chemical Society, the American Iron and Steel Institute, the English Iron and Steel Institute, the American Society of Steel Treating, the American Society for Testing Materials, the American Foundrymen's Association; he has served as president and chairman of various divisions of these organizations. He is the inventor of a converter for making steel castings and a process for oil melting in cupolas. "The Metallurgy of Iron and Steel" and, jointly with Professor Allison Butts, another member of the Metallurgical department, "Engineering Metallurgy" are from his pen. He made the field study and wrote the technical report used by President Harding in his successful campaign to secure the eight-hour day in the steel industry in 1922. The Grasselli Medal was awarded to him by the Society of Chemical Industry in 1929.

Another member of the metallurgical department has achieved a reputation beyond the Lehigh Campus, namely, Dr. Gilbert Everett Doan who was graduated as a Chemical Engineer by Lehigh University in 1919. Before coming to Lehigh as Associate Professor of Metallurgy in 1926, Dr. Doan served as Metallographist at the U. S. Naval Experiment Station at Annapolis and as Director of Research of the Una Welding Company in Cleveland. He has been employed as a consultant by the General Electric Company, the Air Reduction Company, and the Roller-Smith Company of Bethlehem. In 1930 he was the director of the Engineering Foundation Welding Research. He is an inventor of arc welding processes and circuit breakers and was commended by President Hoover for work in discovery of radiographic testings by Gamma rays from radium in 1929. He is author of "The Principles of Physical Metallurgy" and joint author of "The Principles of Metallurgy." He has contributed scientific papers to the engineering journals.

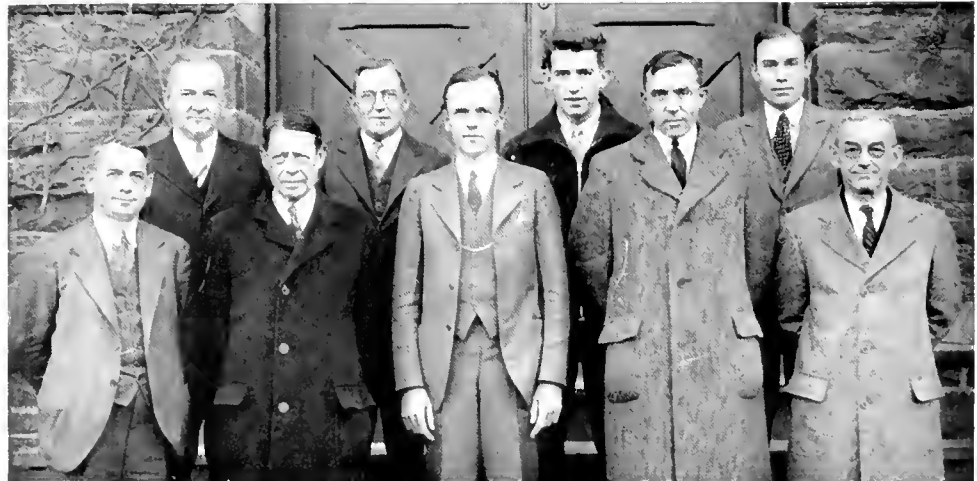

The department of chemical engineering is one of the largest and strongest at Lehigh university. The reigning monarch here is Harry M. Ullmann. He's a product of Johns Hopkins (A. B. '39 and Ph. D. '92) and has been at Lehigh since 1894. He has written books on

coal and coke and oil. From students' points of view he has the widest connections with industry of any man on the faculty: he can wangle jobs when nobody else can.

Of the many able men in the department Vahan Simon Babasinian is perhaps best known for chemical scholarship. He works away in his organic lab and turns out learned papers which are published in the Journal of the American Chemical Society, Industrial and Engineering Chemistry, etc.

Space forbids more than mention of the five associate professors in chemistry. Harold A. Anderson is known for his X-ray work with metals; W. W. Ewing for his work in physical chemistry; Harvey A. Neville for his colloid chemistry; Edwin R. Theis in biochemistry and Charles W. Simmons for his courses in chemical engineering.

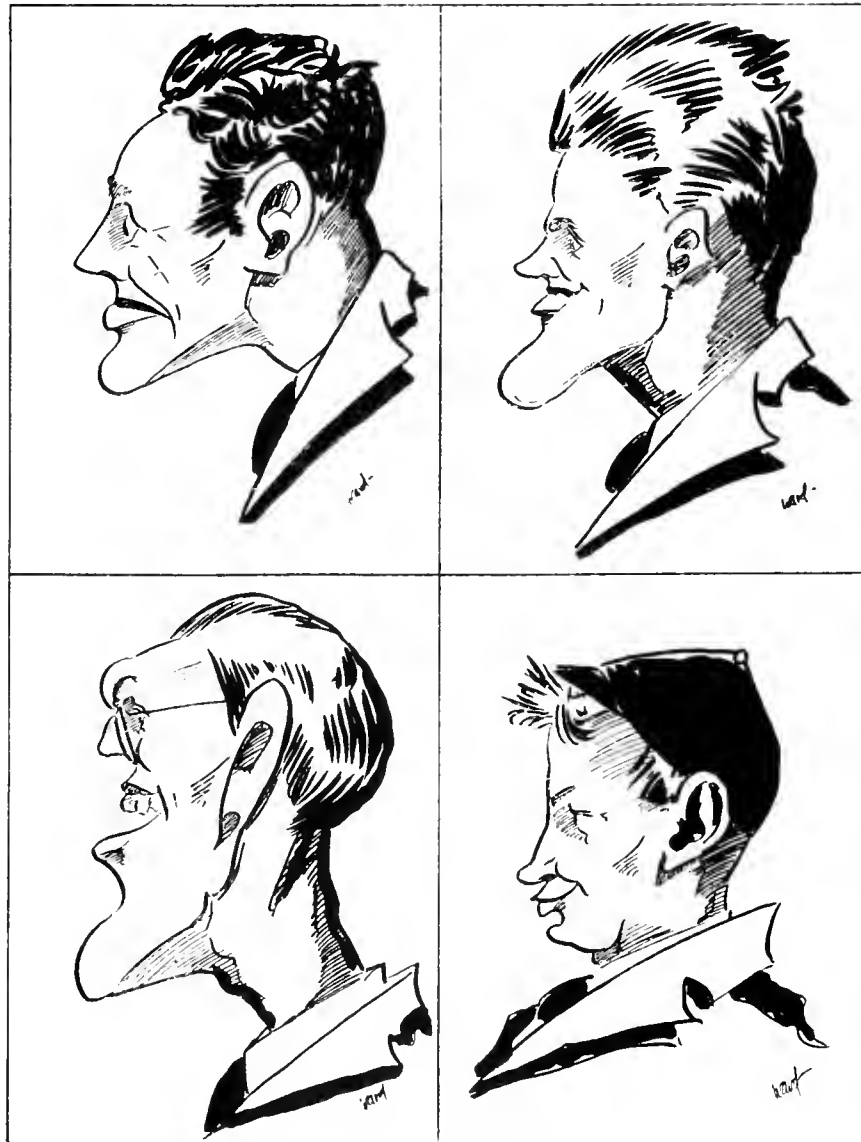

Hale Sutherland, professor of civil engineering and head of the department and of the curriculum, hails from Maine. He was graduated by Harvard in 1906 and by M. I. T. in 1911. His work has largely been on structures: he served as a structural draughtsman with the Corrugated Bar Company before he became a member of the M. I. T. faculty in 1913. He continued in that institution until 1930 when he joined the Lehigh faculty. During a year's leave of absence from M. I. T., he was professor of civil engineering at Robert College in Constantinople; he belonged to the "Engineers" in the U. S. Army during the World War and then spent twelve months in the A. E. F. in the service of supply. Though a Quaker, he is so anxious for peace that he is willing to fight for it. He is joint author, with others, of "Introduction to Reinforced Pump Speed Designs" and "Introduction to Structural Theory and Designs."

Dr. Stanley S. Seyfert and Dr. Jacob Lynford Beaver are the best known members of the department of electrical engineering. The former is head of the department and director of the curriculum: he is working on a new type of machine for converting either way A. C. and D. C.

All Engineering and Arts Students come in contact with the physics department of which Dr. Charles C. Bidwell is the head. He is also director of the curriculum in engineering physics. He is the author of a textbook "Principles of Physics", a fellow of the American Physical Society, a member of the Optical Society of America, of which he was Secretary from 1925-29, the American Association for the Advancement of Science, and the Society for the Promotion of Engineering Education. He was on the faculty at Cornell from 1910 to 1925 and prior to that was a high school science teacher and a chemist for the Oak Manufacturing Company of Long Island City. Among the members of his department, Professor Max Petersen is best known on the campus for his wide contacts particularly as executive secretary of the faculty committee on athletic eligibility and as chairman of the Freshman Engineering Registration Committee.

The curricula in mechanical engineering and industrial engineering are headed by Professor Fred Viall Larkin. F. V. L. was on the faculty from 1912 to 1915. He left to superintend the production of army and navy ordnance and returned in 1919 as head of the department and director of the curriculum. From 1906 to 1912 he had broad engineering experience with Telluride Power, Empire Engineering Corporation, and Terry and Trench.

At the bottom of the list, alphabetically only, is the curriculum in mining engineering. This is one of the earliest of the curricula to be established at Lehigh. The director of the curriculum is "Skipper" Howard Eckfeldt, who came to Lehigh in 1900 and is the ranking member of the university faculty in point of seniority in rank. Between graduation, with a B. S. in 1895 and an E. M. from Lehigh in 1896, and joining the university staff he spent four years with a Mexican Copper Mining Company. He has served as secretary of the faculty on many university committees. He is now chairman of the Committee on Professional Degrees.

V. J. Pazzetti, President

Senior Class

W. P. Fairbanks, Secretary-Treasurer

The future of '37- bleak, average, or brilliant? Most assuredly brilliant! To my eyes, all too young for prophesying, come pictures of all sorts—a million dollars, a thousand, a hundred, well O.K., \$20 a month from Social Security. I can see among us 100 clerks, 98 surveyors, 20 W.P.A. workers, 13 firemen, 3 Ph.D.s, 2 lion tamers, and one deep-sea diver. But keep in mind lads:

No matter what our curriculum,
We won't turn out to be a bum;
And when we carve our slice of
heaven,
We'll always remember '37!

With apologies,

PAT PAZZETTI.

Four years ago a lot of greenhorns whipped into Bethlehem looking forward to a college education. Then CMMC told us that only half of us would be leaving with diplomas when our four years had passed. Score another for the Dean! Since that September we have all been in Packard Auditorium at one time or another to try to fool the Dean, and on the other hand, I am sure we have all passed movie labs 1 through 3, and Maennerchor 1 through 3 also. Let's get going, gang, and all come back for the five-year reunion in Packards and with the family. I want to see Junior!

Yours for continued success,

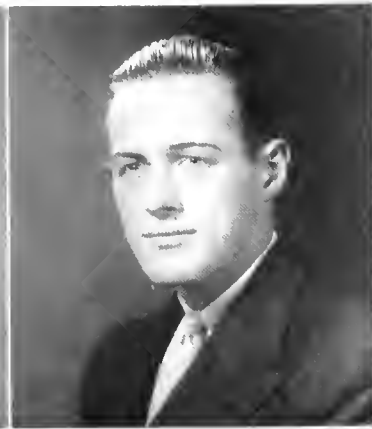

FLIP FAIRBANKS.

Presenting

The Seniors

CHARLES BARNETT ALLEN
Sigma Phi Epsilon

C. B. Charlie
Metallurgical Engineering
Glee Club (1, 2); Metallurgical Society

Philadelphia, Pennsylvania
Frankford High School

Hardworking, conscientious Charles Barnett Allen overcomes obstacles by dogged perseverance and a much lit pipe. Week-ends spent in extra-Bethleheinic bliss, weekdays in work and worry of getting an education, scholastic and cultural. From all battles emerges head unhowed, cheerful, with big smile or hearty laugh.

HARRY CLARKE ARCHER
Alpha Chi Rho

Arts
Caldwell, New Jersey
Caldwell High School

Swimming (1, 3); Fencing (1); Brown and White, Editor-in-Chief, News Manager, Sports Editor, Staff; Review, Editorial Council (3, 4); Burr, Staff (1); Epitome (2); Handbook (3); Arcadia (4); Pi Delta Epsilon, Treasurer (1); R. W. Hall Pre-Med Society (3, 4); Intercollegiate Newspaper Association, Vice-President (4)

Harry is being graduated under the stigma of "Arts majoring in Journalism." Some of his faults include "Reggie" stories in *The Review*, "Two for bridge!" and a court-martial in M. S. & T. camp. We wish him well in his journalistic and marital careers as he has both his job and his wife picked.

WILLIAM J. ASH, JR.
Sigma Phi Epsilon

Bill
Industrial Engineering

Ridgewood, New Jersey
East Orange High School

Track (1); Competition Track Manager (2); Basketball (1); Pi Tau Sigma (3, 4); Secretary (1); Arcadia (4); Industrial Engineering Society (1, 2, 4); A.S.M.E. (1)

Our Willie—fickle lover with manner divine. Possessed of beauty of a sort, youthful and peculiar—same type of brain. A passion flower, best in bloom in the midnight sun. Really a student—at the oddest times—but grades tell the story. Always interesting—one swell guy to know.

RUDOLPH RICHARD ASHMAN
Town Group

Rudy
Chem. Engineering

Bethlehem, Pennsylvania
Bethlehem High School

Wrestling (1, 2, 3, 4), Captain (1, 4); Secretary-Treasurer of Junior Class; Intercollegiate Wrestling Champion (2, 3, 4)

Around the campus, 5 ft. 6 in. of T. N. T.—knows everybody—everybody knows him. On the mat, 126 pounds of dynamite. Makes wrestling look easy. His yell of "Yea-a-a-eats" familiar to the whole school, co-chief and best salesman of the "Eats Route"—personality plus, handsome devil (according to Evelyn). Is due to be a big man wherever he goes.

ROBERT LOUIS BAILEY
Phi Sigma Kappa

Bob
Arts

Montclair, New Jersey
Montclair High School

Lacrosse (2); Brown and White (1, 2, 3, 4); Assistant Sports Editor (3); Fresh Football, Assistant Manager (1); Arcadia (1)

Don't be fooled by the pious look of this young man. Bob is one of the most complex of characters—a human enigma. You name it and he's probably done it. Slow to action, but once started, all Creation and Dean McConn can't stop him. Bob has made himself well known and well liked on the Hill. Lehigh will miss him.

RICHARD JUSTIN BAITER
Sigma Phi Epsilon

Dicky, Rich
Business Administration

Maplewood, New Jersey
Columbia High School

Wrestling Squad (1, 2, 3, 4); Track (1); Epitome, Photographic Editor (3), Senior Section Editor (1); Mustard and Cheese Competition (2); Band (1, 2)

"Little Caesar"—the man of moods. A living amalgamation of changeableness, energy, weariness, and wit. An astonishing amount of stuff in a big—little man. A firm believer in variety with respect to wine and women. Faithful until next mail. One of the boys—known and liked by all.

WILBERT BAKKER
Taylor Hall

Wuby
Electrical Engineering

Midland Park, New Jersey
Ridgewood High School

Freshman Honors; Sophomore Honors; Newtonian Society; Phi Eta Sigma; Pi Mu Epsilon; Eta Kappa Nu; Tau Beta Pi; Band (1, 2, 3, 4); Glee Club (1); A.L.E.P.

"Bake" came to Lehigh quiet and set in his ideas. He leaves still quiet and more firmly set in his beliefs. Those who know "Wuby" respect his open sincerity and thirst for knowledge. He made a success of everything he tried. Section E will sure miss his genial criticism.

HENRY ALVIN BALL
Theta Xi

Cue
Chemistry
Chemistry Society

Pittsburgh, Pennsylvania
Peabody High School

True friends are a rarity. Of Cue it may be said that he remains truly sincere at all times. Cue, throughout his college career, has successfully avoided nicotine and alcohol. But, every man must have some weakness. Polo, photography, and antique collecting should diversify his career in Chemistry.

GEORGE A. BARKER, JR.
Delta Tau Delta

Porgie
Chemistry

Allentown, Pennsylvania
Allentown High School

Track (1); Brown and White (1, 2, 3, 4); Freshman Handbook; Lehigh Union (1); Mustard and Cheese (2, 3, 4); Business Manager (1); Chemical Society

Porgie, although theoretically a "chem," has ramified his activities with not infrequent attention to his female following scattered throughout the valley. He encountered no worries with the books as he seemed to be endowed with learning. His philosophy hinges on the theme that all is not gleaned from books.

DONALD CURTIS BARNUM
Delta Upsilon

Don
Industrial Engineering

Upper Montclair, New Jersey
Montclair High School

Cheer Leader (3, 4); Head (1); Review (2, 3); Epitome, Junior Editor (3), Editor-in-Chief (4); Arcadia (4); Interfraternity Council (3, 4); Treasurer (1); Ball Committee (1); Booster Committee (1); President of Delta Upsilon; Band (1, 2, 3, 4); Cyanide Club; Pi Tau Sigma; Tau Beta Pi; O.D.K.

A college career marked by success, good marks, and many friends—a different honorary key for every day of the week—and lastly a rise in beer consumption from two to four glasses. Rumor has it that one's date isn't safe with Don around. Don has far to go, and his background plus "Penelope" will get him there.

HENRY SAMUEL BATTIN, 2nd
Alpha Tau Omega

Batty
Business Administration

Philadelphia, Pennsylvania
Fork Union Military Academy

Baseball (1); Soccer (2); Arcadia (4); Scabbard and Blade (2, 3); Chairman, Senior Ball Committee (4)

Presenting "Batty," whose unassuming manner and infectious smile have made him an outstanding member of his class. Would have us believe that these virtues have also won him many feminine admirers. Though we may doubt, we know that he has what it takes, and should go places.

CARL D. BECKER
Taylor Hall

Chem. Engineering
Chem. Engineering
Chemical Society

Shillington, Pennsylvania
Shillington High School

Coming from Berks County, Carl had the advantage of a complete Pennsylvania German vocabulary. Needless to say, he got along in Bethlehem. Fancy free is this Don Juan, and he never misses a chance to give the fair sex the "once over." Fords, dances, chemistry, and Shillington rate tops with him.

HENRY LANDIS BEIDLER
Town

Hank
Chem. Engineering

Quakertown, Pennsylvania
Quakertown High School

Rifle Team (2, 3, 4), Manager (3, 4); Glee Club (1, 2)

Hank started his search for knowledge with the class of 1936 but, due to an auto accident, makes 1937 his year. Not prone to severe overwork, but capable if the effort is deemed necessary. Hobbies are the rifle team, Bach Choir and complaining about the way the school is run.

JOHN MATTHEW BERL TICH
Town

Jake, Jack
Civil Engineering

New York, New York
Hamilton Institute for Boys

C. E. Society, Treasurer (3, 4)

Old Pappy Knickerbocker did right well when he sent Jake to Lehigh. A combination of wise guy and swell guy; an ability to take your money and make you like it; a taste for the amber brew; an ambition to be an engineer; a girl friend in Manhattan. That is Jake.

ROBERT WOODRUFF BOARMAN
Alpha Tau Omega

Benny
Mechanical Engineering

Springfield, Pennsylvania
Lansdowne High School

Freshman Numerals; Brown and White (1); Pi Tau Sigma, Corresponding Secretary (1); Tau Beta Pi; Mechanical Engineering Society; Student Member A.S.M.E.

Materials: Benny with a determination to be a good student. Purpose: To make a first class student, and all-round good fellow. Procedure: Four years of concentrated study with time for social activities. Result: Benny a Tau Beta Pi member, and a peach of a fellow.

ROBERT YEOMANS BODINE
Town

Bob
Civil Engineering

Bethlehem, Pennsylvania
Bethlehem High School

Student Chapter of the A.S.C.E.

Here's one local lad that made good in a big way at Lehigh. Bob has acquired a maximum of engineering knowledge with a minimum of work. A ready smile, a green coupe, polished dancing ability, and several young lady acquaintances have made four years of higher education a pleasure.

JOSEPH C. BOGERT
Allentown

Joe
Mining Engineering

Allentown, Pennsylvania
Allentown High School

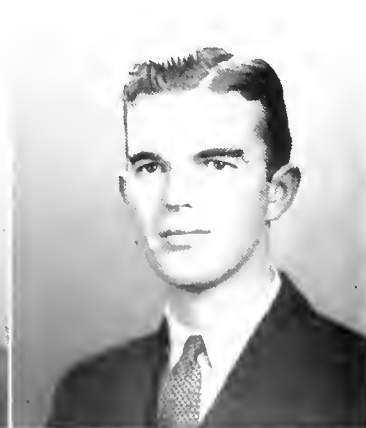

Nature produces few men who find themselves at home in any situation. But here is one of those select gentlemen. Typical of Joe are his smile, his sportsmanship, and his air-conditioned touring car in which he daily freezes three other students commuting from Allentown.

GEORGE LAVIN BOWDEN
Sigma Chi

Arts
Arcadia (4)

Philadelphia, Pennsylvania
Germantown High School

The famous fellow whose schedule permitted him to go to school from twelve to one, with an hour off for lunch. Never let school interfere with his twelve hours' sleep. Whether W. P. A. worker or a floorwalker, with his training he can't help but succeed.

STUART G. BRANYAN
Taylor Hall

Stu. Studie
Electrical Engineering
Basketball (1); Freshman Honors; E.E. Society (2, 3, 4)

Enola, Pennsylvania
Enola High School

"Stu" landed at Lehigh after a hazardous canoe journey from Enola, just west of Harrisburg. Refused a scholarship to prep school with "Shucks, Lehigh won't be that tough." Proved it by winning Freshman honors. The girl back home kept "Stu" impervious to the attraction of Bethlehem's fair sex.

THOMAS EDWARD BROOKOVER
Chi Phi

Brookers
Chem. Engineering

Downingtown, Pennsylvania
Downingtown High School

Soccer (1, 2); Review Board (2); Epitome (2); William H. Chandler Freshman Chemistry Prize; Newtonian Society; Secretary, Phi Eta Sigma; Pi Mu Epsilon; Tau Beta Pi; Chemical Society

Tom's sincerity and wittiness have won him many friends. His quiet nature is very deceiving. Four years have shown that he is a scholar. Is candid and speaks his own mind. Sound judgment and ability to get results will continue to win Tom positions of leadership.

EDWARD JOSEPH BROUCHAL
Town

Ed
Business Administration

Bethlehem, Pennsylvania
Liberty High School

Track (1, 2, 3); Cross-Country; Freshman Honors; Sophomore Honors; Alpha Kappa Psi Prize—Highest Ranking Business Junior; Alumni Prize—Highest Ranking Business Junior; Alpha Kappa Psi

Ed has had a scholastic record which is the envy of many of his fellows. He is industrious, studious, and able. He likes a good argument and is decidedly a "good fellow." Accounting is his "pet," so we expect him to make it his future work.

THEODORE RICHARD BROWN
Town

T. R., Ted
Electrical Engineering

Essex Fells, New Jersey
Montclair High School

Rifle (1, 2, 3, 4); Brown and White (1, 2, 3); Freshman and Sophomore Honors; Phi Eta Sigma, Newtonian Society, Pi Mu Epsilon, Gamma Club, Eta Kappa Nu, Tau Beta Pi; Chairman, A.I.E.E. Student Branch

T. R. wandered from the Jersey wilds, found a berth on the Lehigh rifle team. Early became an institution at the news desk in the Brown and White office. Usually seen indulging his favorite hobby, tangling wires and replacing fuses in E. E. lab.

ROBERT AUGUST BUERSCHAPER
Town

Bob
Engineering Physics

Bethlehem, Pennsylvania
Liberty High School

Freshman and Sophomore Honors; Wilbur Physics Prize; Phi Eta Sigma; Newtonian Society; Pi Mu Epsilon, Secretary; Band (1, 2, 3, 4), Sergeant (1); Physics Society

Bob came to Lehigh after a four-year course with the Steel Company. Struggled for four more years with Engineering Physics and a tough beard. A deep thinker and hard worker. Don't get him started on the Bes'lem of the good old days.

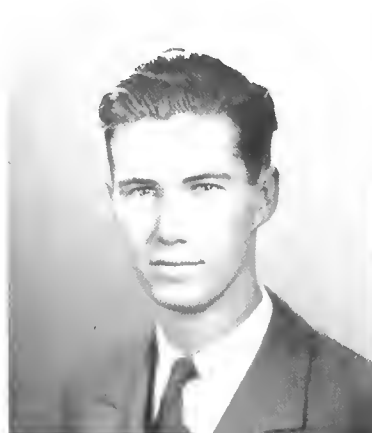

ALLAN BROOKS CARPENTER
Chi Psi

Abe, Corny
Industrial Engineering

Corning, New York
Deerfield Academy

Swimming (1, 2, 3, 4); Golf (3, 4); I.E. Society

Four years ago Lehigh gathered unto her bosom A. Brooks Carpenter. Since that time he has grown upon us, a liking for the finer things in life, beer et al., has grown upon him. May this liking of the finer things bring him success and friendship as it brought him here.

HAROLD DIEHL CHAPMAN
Theta Xi

Chip
Chem. Engineering

Montclair, New Jersey
Jefferson High School

Rifle Club (1, 2); Chemical Engineer Society (1, 2, 3, 4)

He's God's gift to the fairer sex, is what Chip thinks. No girl has been able to change his mind. Yet, beneath this outward care-free manner is a keen sense of responsibility, fairness, and good fellowship. May inevitable success never change these qualities.

CLINTON MONROE CHASE
Chi Phi

Monty
Arts

South Orange, New Jersey
Columbia High School

Civil Engineering Society (3, 4)

From the halls of Rensselaer, then Springfield, Monty transferred to Lehigh in quest of higher learning. Will always be remembered for his irrelevant remarks, his readiness to help friends, and his frequent calls on a certain Bethlehem girl. You will lead a happy life, Monty. Here's to you!

COLEMAN CITRET
Pi Lambda Phi

Cit
Arts

Newark, New Jersey
South Side High School

Swimming (1, 3, 4); Glee Club (1, 2, 3); Mustard and Cheese (2, 3, 4); Band (1, 2, 3); Symphony Orchestra (2, 3); Pre-Med Society (1)

Nothing ruffles Coleman. Not even his three point averages nor the fact that he has been accepted at Johns Hopkins Medical School. Four Lehigh years have changed him little socially and scholastically. Calm detachment has been a philosophy he has followed well.

GEORGE STEWART CLARK, JR.
Phi Sigma Kappa

Stew
Metallurgical Engineering

White Plains, New York
White Plains High School

Track (1, 2); Cross-Country (1, 2, 3); Secretary, Lehigh Young Men's Republican Club (1); Chemical Society (1, 2); Metallurgical Society (1)

Stewie wore a monocle when he was a freshman. Now he gets along with a mantle of Senior dignity—worn occasionally. He's the only known person to make all his classes, A movie, track practice, a lab, Joe's and three hours work in the library in one day.

JOHN B. M. CLEEVES
Delta Tau Delta

Johnnie
Business Administration
Manager, Cross-Country (3)

Keeseville, New York
George Washington High School

Four years at Lehigh have developed a meek and retiring Frosh into a man-about-town. Primarily attracted to the debits and credits of the Business College where he conquered "Old Man Average," Johnnie shows promise of carrying on the high standard he has set for himself.

DOAK O. CONN
Taylor Hall

Jnnior
Mining Engineering

Latrobe, Pennsylvania
Latrobe High School

Manager Frosh Football (1); Vice-President, Mining Society (4); Section Treasurer (3)

After four years at Lehigh "Fat-Boy" returns to the smoky little city. Four long years have visibly increased his girth and mind; have changed this timid lad to a match for all comers; but have left his weaknesses for food, Fraser labs, and the girl from home.

JAMES F. CONNORS, JR.
Sigma Nu

Ace
Arts

Bethlehem, Pennsylvania
Catholic High School

Basketball (1, 2, 3, 4); Baseball (1, 2, 3, 4)

"Ace" can be seen any afternoon at the gym. Has shown considerable ability on the basketball court. Every spring he spends his time throwing home run balls to the opposing nine. His pet grievance is "I'm not in shape." Has ambition to become a local lawyer of prominence.

GEORGE ROBERT CONOVER
Delta Tau Delta

Bud
Business Administration

Meadville, Pennsylvania
Meadville High School

Let us introduce to the world at large the only frown-proof man in the Class of '37. With his jovial personality, his host of true friends, and his wealth of ambition Bud cannot help but be successful from the start. A real asset to any class.

ARTHUR CONTI
Town

Art
Arts

Brooklyn, New York
New Utrecht High School

Baseball (1, 5); Basketball (1, 3); Pre-Med Society (1, 2)

Visualize a chap with a magnetic personality, add to this a nature that wouldn't refuse a favor and you have Art Conti. When one realizes the extent of his feminine contacts, social life and excursions to the movies, one wonders how tough history can be.

FREDERICK A. COOK
Price Hall

Cookie
Business

Dutch Neck, New Jersey
Princeton High School

Editor (2); Dormitory President (3); Arcadia (3)

Although never too ambitious in the fields of extracurricular activities or high scholastic attainment, Cookie still possesses the essentials of a true Lehigh man. A level head and a quiet gentlemanly bearing have won him many friends. Quiet, gentlemanly, respected, these qualities symbolize Cookie and success.

ROBERT LEE COONEY
Theta Xi

Killer
Arts

Bethlehem, Pennsylvania
Bethlehem High School

Football (4); Scabbard and Blade (3, 4); Chemistry Society (1, 2); Mining and Geological Society (3, 4)

Uniqueness describes this man of great expectation. From a hill-billy he evolved into a cosmopolitan creature, with ready wit and a profound interest in the fairer sex. A gift of creating a good impression and ability to maintain it mark him as a thorough gentleman.

EARL PURNELL COOPER
Town

Earl
Mechanical Engineering
Secretary, A.S.M.E. (3)

Coopersburg, Pennsylvania
Bethlehem High School

A quiet exterior, irrepressible laugh, and sparkling wit at life's darkest moments combine to make Earl a sought-after companion. Extra curricular heart activity is limited to someone, somewhere in Philadelphia. Only happiness and success for him if he fulfills half the promise of past performance.

ROBERT E. CRISPEN
Taylor Hall

Bob, Cris
Civil Engineering

Glenside, Pennsylvania
Abington High School

Boxing (3); Rifle Club (1, 2, 3, 4); President (1); Arendia; Scabbard and Blade; Vice-President Civil Society

Not a bad guy and kind of a nut. Dry wit, interest in home gals combining in failure to appreciate Bethlehem wild life. Thinks he's a welder. Whistles off tune. Cracks so many punk jokes the occasional good one is really appreciated. Studies when nothing else to do. "What, you're gonna study again? Do-on't do it."

E. VAN RENSSELAER CROMWELL
Kappa Sigma

Duke
Business Administration

White Plains, New York
Liberty High School

Band (1, 2, 3, 4); Manager Band (3, 4); Glee Club (1, 2, 3); Manager Varsity Baseball (4); Brown Key (3, 4)

Duke leaves Lehigh with a ready grin, a battered Ford, and a technique on the bass drum. A whiz in the classroom, he is always first out of a quiz. His main hobbies are telling jokes and trying to make the Ford run better. He should make a damn good C. P. A.

WILLIAM CAMPBELL CROSS, JR.
Phi Kappa Psi

Bill
Business Administration
Transfer from University of Wisconsin

Oconomowoc, Wisconsin
St. John's Military Academy

ARTHUR THOMAS CURREN
Town

Eustice Rollo
Mechanical Engineering

Staten Island, New York
Curtis High School

Football (1, 2); Wrestling (1); Pi Tau Sigma; Treasurer, Mechanical Engineering Society (1); Member, A.S.M.E.

An infectious laugh; an imp of humor; a logic which should provide Lehigh with another illustrious alumnus, all give Art good future prospects. We know that once he gets out of reach of professional talent; having no immediate victims to harass, he will prove our prophecy is only half right.

BENJAMIN K. DAUBENSPECK
Town

Ben
Chem. Engineering

Allentown, Pennsylvania
Allentown High School

Brown and White, News Editor (3); Makeup Editor (3); Freshman and Sophomore Honors; Phi Eta Sigma; Newtonian Society; Pi Mu Epsilon; Corresponding Secretary, Tau Beta Pi; Treasurer, Chemical Society

In conversation, as in all his other interests, Ben shows the mark of a smart man, listening attentively and then defeating his opponent with a few simple words. His ability to comprehend puzzling problems, yet to find time for everything, is sure to make him prominent.

ALEXANDER J. DEACON, JR.
Taylor Hall

Al, Deke
Metallurgical Engineering

Pittsburgh, Pennsylvania
Dormont High School

Scabbard and Blade; American Society for Metals

Works furiously, when in the mood. Believes that studies aren't everything and attributes his "don't push" attitude to his Alabama bringing up. He knows his Met, though, and can say "I know" to a long list of names.

DONALD WILCOX DEALE
Town

Don
Business Administration
Galt, (3, 4)

Greenport, New York
Greenport High School

Don spends most of his time struggling with accounting problems when he would much rather be playing golf. He plays a good game, asks girls to come to dances, but they never materialize, likes afternoon naps, Katherine Hepburn, and maybe a glass of beer once in a while.

HENRY HEWITT DENT
Allentown

Hal
Industrial Engineering

Allentown, Pennsylvania
Allentown High School

Pi Tau Sigma; Treasurer, Industrial Engineering Society

This will introduce our Mr. Dent. Following in the footsteps of his Tory grandfather he is conservative and sane in both manner and politics. As to his character, Sir, one might as lief speak disparagingly of the pound sterling. Altogether he will be worthy of any commission with which your firm may honor him.

JOHN DRURY, JR.
Kappa Sigma

Johnny
Arts

West Pittston, Pennsylvania
West Pittston High School

Football (1); Brown and White (1, 2), Board (2); Alumni Memorial Prize; William's Junior Composition Prize (Second); Robert W. Blake Society; Glee Club (1, 2)

John came to Lehigh with a cheerful mien, and a love for the opposite sex. If Johnny is as successful in his pursuit of happiness as he has been in his studies, he will be very contented. A wide circle of friends join in wishing him the best of luck.

ROBERT H. DUCHYNSKI
Taylor Hall

Duke, Bob
Electrical Engineering
E.E. Society; Student Member of A.I.E.E.

Reading, Pa.
Reading Senior High

Time, tide and Duchynski wait for no man. "Duke" is a real mystery man. The mystery is—Why does he go home every week-end? "Duke" is usually rather quiet, but spasmodically he bursts forth with a sense of humor that floors all of us.

KERMIT S. DUNLAP
Town

Kerm
Engineering Physics
Sophomore Honors; Physics Society

Altoona, Pennsylvania
Altoona High School

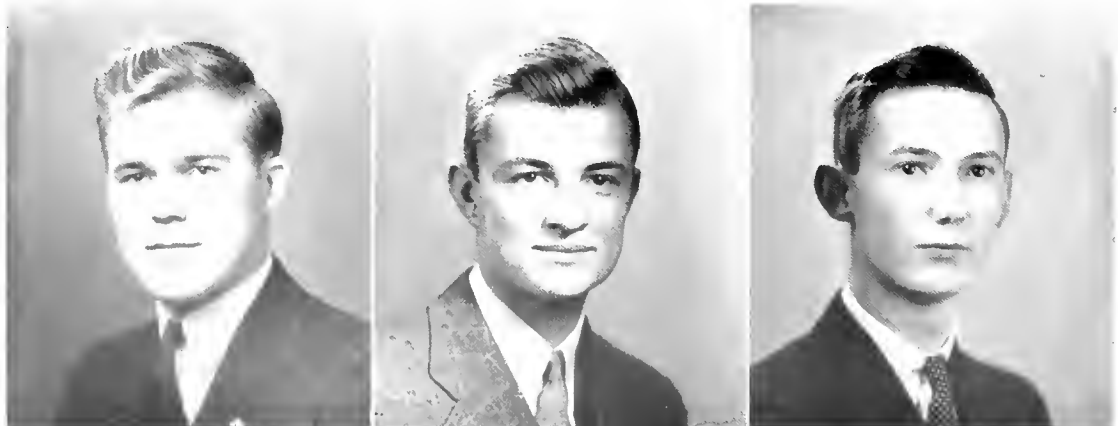

"Kerm" is a studious chap who has found studies to be no hardship. Although he has not attracted a widespread attention at Lehigh, his friendly and cheerful personality has made a lasting impression upon us. We all thought Kerm could remain fancy free, but a Philadelphian fooled us.

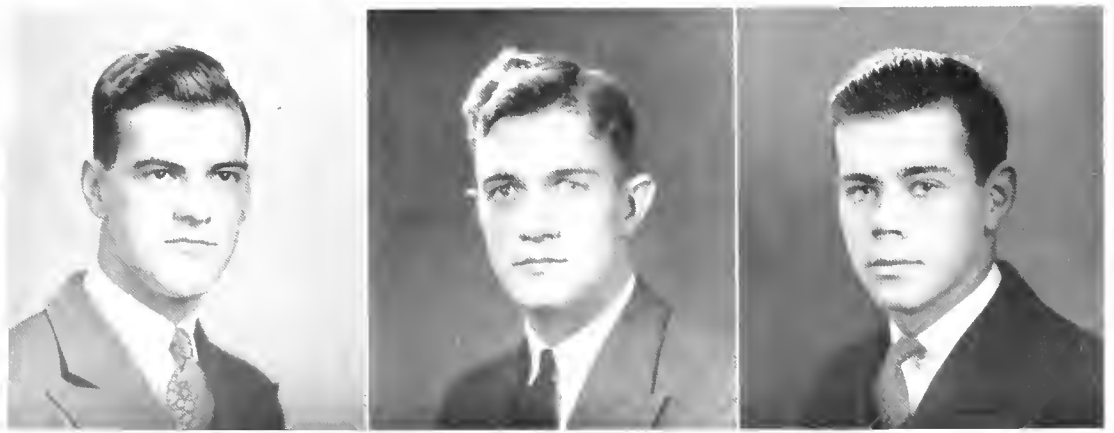

WILLIS HERBERT DUTTON, JR.
Town

Dun
Industrial Engineering
Industrial Engineering Society

Morristown, New Jersey

He is a conscientious worker, and is a friend to all who know him. His favorite sport is basketball. He likes the outdoors and enjoys spending week-ends hunting and fishing at the family camp in Pike County. He wants to be a Purchasing Agent or a Personnel Manager.

JOHN GERALD DWYER
Town

Johnny, J. G.
Chemistry

Bethlehem, Pennsylvania
Catholic High School

Intra-Mural Wrestling (2, 3); Arcadia (3); Chemical Society

This chemist started his career in the iron mountains and nitrate deserts of Chile. Wrestling and letter-writing are Johnny's favorite indoor sports. He is one of our more enthusiastic military boys. Johnny makes friends easily, and shares his optimism with everyone.

NED SEIDEL ELDER
Town

Ned
Business Administration

So., Williamsport, Pennsylvania

Lehigh Blotter, Assistant Manager (3); Manager (1); Scabbard and Blade, First Lieutenant (4); Alpha Kappa Psi

Six foot two and blond, Ned has a ready smile and laugh that have won him many friends. He'll argue with you on any subject and always wins—in his opinion, at least. He gets a big kick out of life, yet he works. An all-around good egg.

EDGAR ROGERS EVERITT
Town

Ed
Business Administration

Jamaica, New York
Jamaica High School

Swimming (1, 2); Freshman Honors; Newtonian Society

Ed could have been a surrealist artist with practice, but prefers a business career. Likes movies, beer, tennis, and women. Hasn't read *Gone With the Wind*, but is sure he likes it. Amazed the Business Department by getting the only "A" in an Investment Quiz. What more need be said?

WARREN PARK FAIRBANKS
Phi Gamma Delta

Flip
Industrial Engineering

South Ardmore, Pennsylvania
Haverford High School

Football (1, 2, 3); Basketball (1, 2, 3); Track (1); Review, Art Board (2, 3, 4), Art Editor (4); Lehigh Union (2, 3); President Sophomore Class; Secretary-Treasurer Senior Class; O.D.K., Vice-President; Pi Tau Sigma, President; Tau Beta Pi; Cyanide; Lehigh Collegians; President, Phi Gamma Delta

"Flip," characterized by his cigar, broad grin, ready sense of humor, and thinning hair has been one of the most popular figures on the campus. A prominent athlete until prevented from further participation by injuries, his activities have been many and varied. His future will be successful and happy.

GILMORE LLOYD FARR
Kappa Alpha

Gil, Chipmunk, Chip
Business Administration

Holyoke, Massachusetts
Governor Dummer Academy

Possession of an acquaintance with Great God Bacchus has helped Gil to endure with some success the burden of four years at Lehigh. A swing enthusiast and dance orchestra critic, sometimes a student, and always on the go, Chipmunk—so nicknamed for his squirrel-like spontaneity—will find a way.

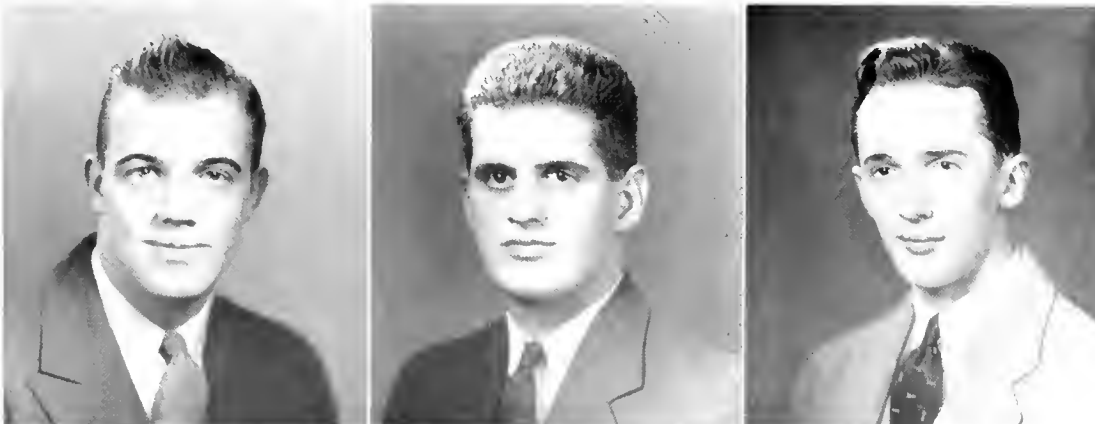

WILLIAM HERMAN FELDTHUS
Town

Bill
Business Administration

Hollis, New York
St. Paul's School

Assistant Manager Freshman Football; Spanish Club; Glee Club; Brown & White

He's tall, he's studious, he's quiet, and he has a sense of humor that is most intriguing. He has a swell baritone voice that few people suspect and we're expecting to hear him on a nation-wide hookup some time in the future. You probably know him—his name is Bill Feldthus.

JAY VINCENT FETTERMAN
Allentown

Jay
Chem. Engineering
Band (1, 2); Chemical Society

Allentown, Pennsylvania
Allentown High School

Jay should be able to get a job with the Palmolive Soap Company for he is a perfect example of "that schoolgirl complexion." However, should the soap company fail him, he is certain to succeed, for Jay is an alert fellow who is around whenever opportunity knocks. Best of luck, Jay!

CHRISTIAN WINSLOW FIRLING
Pi Kappa Alpha

Chris
Civil Engineering
Assistant Manager Basketball (1, 2); A.S.C.E. (2, 3, 4)

Ridgewood, New Jersey
Ridgewood High School

His hair is combed! This bridge building maniac only made one mistake in his college career—he went to surveying camp. He forgot to burn his bridges on the way back. He's still going to see—surveying camp. The lanky engineer is a conscientious student and he's going up.

MARTIN JOHN FISCHER
Theta Kappa Phi

Mart
Business Administration
Track (1, 2); E. W. Brown Astronomical Society

Montclair, New Jersey
Montclair High School

Mart can ever amaze us with his ability to study under adverse conditions. He can study with a radio blaring, and ten brothers indulging in a bull session around him, hence his high marks. His ambition to join the air corps, and we wish him "winging luck!"

CHARLES HARRY FORD
Delta Phi

Charlie
Electrical Engineering
Assistant Manager Basketball (1); Interfraternity Council; Arendia; Chairman of Student Activities Committee; E.E. Society

Forest Hills, New York
Peddie School

A rare and valuable mixture of the handsome, gay, and debonair, with excellent taste, good judgment and common sense. Why is he smiling like that? Say, my friend, if your chances of making out well in this cold, hard world were as good as Charlie's, you would be smiling, too.

HAROLD STANLEY FORD, JR.
Alpha Chi Rho

Stan
Arts
Track (1, 2); Swimming (1, 2); Golf (3); Brown & White (1, 2); Lehigh Review, Business Manager (3, 4); President, Freshman Union; Lehigh Union (1); Interfraternity Council; Cyanide; Pi Delta Epsilon, Vice-President; Robert W. Blake Society; O.D.K.; Glee Club (1)

Ridgewood, New Jersey
Ridgewood High School

Sincere, versatile, strong. For the past two years his steady business hand has guided the *Review* through its period of greatest expansion.

DONALD WEBER FOUSE
Sigma Chi

Don, Fouse
Industrial Engineering
Scabbard and Blade; Military Ball Chairman (3); I.E. Society

Harrisburg, Pennsylvania
Harrisburg Academy

Don came to college looking forward to a great adventure. He found in the past four years that there was an adventure; the grandeur, though, was missing. He had a task which was not anticipated. Now it is creditably finished. Life—that is the future. That is many times four.

HERBERT FRANK
Sigma Alpha Mu

Herb
Business Administration
Baseball (1, 2), Numerals; Basketball (1, 2, 3)

Albany, New York
Albany High School

Herb, a happy-go-lucky, devil-may-care, sort of a guy, was little changed in four years. Bridge, sports, some "belle dames" from Allentown, and outlining studies occupied most of his time. Herb has a natural ability to mix, and his congenial, likeable personality should do things for him.

ALAN MORTON FREEDMAN
Tau Delta Phi

Al Foggy
Mechanical Engineering

Pittsburgh, Pennsylvania
Rayen High School

Football (1); Wrestling Squad (1, 2); Mechanical Engineering Society

A Mechanical engineer par excellence, a bridge player par Culbertson, Al has blossomed from a fellow who resented new people to a cordially liked, all-around good fellow. It took him just three years to get completely loosened up, but now he can give and take along with the rest of them.

DAVID WILKIE GORDON
Delta Tau Delta

Wilkie
Business Administration

Elizabeth, New Jersey
Thomas Jefferson High School

Track Team (1, 2, 3, 4); Cross Country Team (1, 2); Wrestling Team (Junior Varsity 3); Cyanide; Alpha Phi Omega, Vice-President (3, 4); Interfraternity Council (3); Band (1, 2, 3, 4), Student Leader (1)

If achievements at Lehigh are any indicators of future success, Dave is sure to go places. We all know him as a conscientious worker and a true gentleman with an amiable personality. Dave will go on record as being the inspiration for a bigger and better Lehigh band.

JOHN VANRENSSELAER GREENE
Theta Delta Chi

Johnny
Business Administration
Football (1, 2); Wrestling (1)

Summit, New Jersey
Pingry School

Johnny arrived in Bethlehem fresh from Pingry. He decided, grid star that he was, to lend his services to the Lehigh football squad. Tiring of this, and being elected steward of his house, he began dickering with the local merchants. This went on through his Junior year when Johnny began tending to his duties by remote control from Allentown.

CLARENCE BURNLEY GRETZ
Kappa Sigma

Pete
Electrical Engineering
South Orange, New Jersey
McKinley H. S., Washington, D. C.

Newtonian Society; E.E. Society (1, 2, 4); A.I.E.E.; Band (1, 2)

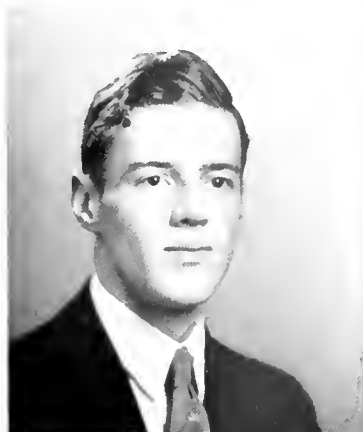

Pete likes it to be known that he was born south of the Mason-Dixon line. Not many "dam' Yankees" put anything over on him. Handsome Henry hasn't fallen in love, but the Kappa Sigs aren't to blame. His god is the kilowatt and he's darn religious.

JAMES EDWARD GRIMWOOD
Town

Jim
Chem. Engineering
Tennis (1); Chemical Society

Greenville, South Carolina
Allentown High School

Jim was originally class of '35," but due to illness finished with the class of '37." Though northern born, Jim now resides in southern climes and hopes to convert the natives to saner politics. Motto, work when necessary, but let the devil take care of the spare time.

19

ROBERT MARSH HALE

Lambda Chi Alpha

Selassie

Arts

Rockaway, New Jersey

Newark Academy

Wrestling (1, 2, 3, 4); Football (1, 2); Orchestra (2, 3); Robert W. Hall Society (1, 2)

There is a quiet, dark haired, muscular fellow who spends nearly every afternoon up in the wrestling room. "Selassie" developed into a good conscientious fraternity man. His slow wit delights everyone, and his partiality towards the woods and the Thames River regions is admirable. Another strong, silent man makes good.

NORMAN HENRY HALLIDAY, JR.

Kappa Alpha

Norm

Arts

Allentown, Pennsylvania

Allentown Preparatory School

Swimming (3, 4); Epitome, Business Manager (1); Advertising Manager (3); Sophomore Competition (2); Pi Delta Epsilon; Treasurer, Mining and Geological Society (1)

Norm has wended his rather quiet, though not subdued, way through Lehigh leaving in his wake a trail of worthwhile accomplishments. An Arts man from choice, not necessity, he has found time during his college career to dabble in athletics and publications, with no mean success. Geology will bring him fame.

YELLOTT F. HARDCASTLE, JR.

Sigma Phi

Fitz

Industrial Engineering

Haverford, Pennsylvania

Cranbrook School

Basket Ball (1); Golf (1, 4); Treasurer, Arcadia; Mustard and Cheese (2, 3, 4); Program Manager, Industrial Engineering Society

Fitz has spent four years seeking culture in several Engineering departments, and has ended by studying Naval architecture in Washington. He has distinguished himself at every house party. Although being a golfer of great ability and a beer drinker of none, he will probably chuck it all for Maryland and a sailboat.

MILES LAWSON HARRIS

Phi Gamma Delta

M. L.

Arts

Port Chester, New York

Brunswick School

Football (1, 2, 3); Geology & Mining Society (3, 4)

Miles is known for his nose, and stubborn will, but behind that nose is a heart of gold, a gentleman, and a questionable scholar. He leaves behind a host of friends and carries away many pleasant memories of times in the Christmas City. Good luck, Miles, and so long.

THOMAS G. HARRIS

Tommy

Chem. Engineering

Pen Argyl, Pennsylvania

Tommy, studious, friendly, trustworthy and yet happy-go-lucky. He is an excellent student and has friends by the dozen. Keep looking up, Tom, big things lie ahead — and watch his smoke, boys!

CHARLES WILLARD HART

Alpha Chi Rho

Charlie

Metallurgical Engineering

Frankfort, New York

Frankfort High

Football (1, 2); Wrestling (1); Baseball (1); Arcadia (3); A.S.M.E.

Well known all over the campus for his hearty smile and warm greeting, Charlie will always be remembered as one of the conscientious men of Lehigh. His accomplishments: studies, athletics, his fraternity, the Maennerchor, and the fair sex. We predict success for this versatile personality of Charlie's. Good luck, Charlie.

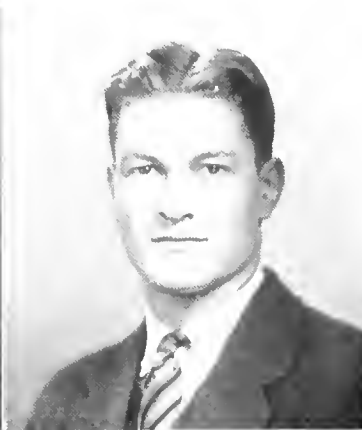

ROBERT BOGLE HAULENBEEK
Chi Psi

Epitome, Fraternity Editor (3), Senior Section Committee (1); Handbook Staff (3); Assistant Manager of Football (1, 2, 3), Freshman Manager (1); Interfraternity Council (3, 4); Arcadia (1); Head of Living Group (1); Brown Key Society (3); Pi Delta Epsilon (3, 4); Cyanide (3); Civil Engineering Society (4)

Bogle, a good-natured Jersey product, followed Haukenbeek tradition and came to Lehigh. Beer and learning seem to attract this clan. Bogle got some beer, some knowledge, and lots of friends in four years. May he get as much in the next forty.

Bogle, Bob
Civil Engineering

Somerville, New Jersey
Bound Brook High School

SAMUEL ALEX. HAVERSTICK
Taylor Hall

Brown and White (1, 2); Band (1, 2); Mustard and Cheese (3, 4); A.L.E.E. Society (1)

One of two "glaring examples" in the E. E. Dept. who have a strange adversity to vacuum tubes . . . is a connoisseur of maps and stiff collars who hails from God's country out in the Cumberland Valley and is proud of it . . . hobby—railroads.

Aleck, S. A.

Electrical Engineering

Carlisle, Pennsylvania
Carlisle High School

RALPH SCHILLING HELLER
Phi Gamma Delta

Football (2, 3, 4); Track (1, 2, 3, 4), Captain (4); President Spiked Shoe Society; Vice-President Chemical Society

There he goes, twisting, dodging, weaving. Now he is in the clear. Will he make it? This sounds like a description of Ralph running for a touchdown, but it is really a word picture of Ralph trying to make an eight o'clock. Ralph was outstanding in track, and outstanding in football.

Ralph

Chem. Engineering

Bethlehem, Pennsylvania
Bethlehem High School

JAMES HOWARD HENSINGER
Allentown

Jim
Chem. Engineering
Chemical Society (1, 2, 3, 4)

Allentown Pennsylvania
Allentown High

Hensinger, better known to his class mates as "Jimmy" is a product of Allentown High. Although commuting, Jim still found time to make numerous friends who will agree that he is well-liked and a good sport. His main interest seems to be oils, and we all wish him luck.

FREDERICK H. HEPP, JR.
Taylor Hall

Fred
Business Administration
Football (1); Head of Living Group; Arcadia

New York, N. Y.
Stuyvesant High School

The Bronx flash, Fred is the only undergraduate we know who owes his success to the better theory obtained at N. Y. U., and to the guidance of a certain Stamford secretary. An easy-going, well-mannered, pleasing fellow who will go far in winning a place for himself in the business world.

JOHN WHITE HERSTINE
Town

Fencing (1, 2); Rifle Team (1)

Bethlehem, Pennsylvania
Liberty High School

That happy smile, that ready tongue, that infectious humor which have entertained Lehigh these past four years will be absent when next September rolls around—at least Herstine hopes so. Rumor has it that Jack cherishes a secret ambition to comb beaches in Tahiti, or was it Hawaii?

THOMAS DEAN HESS
Delta Upsilon

Tom
Metallurgical Engineering

Mauch Clunk, Pennsylvania
Mauch Clunk High School

Freshman Manager Tennis (1); Brown Key; Epitome Competition (2); Band (1, 2)

A Casanova from America's Switzerland. Tom believed in mixing business and pleasure and he knew how to mix them. Just Ask Kinney or Metzger. Tom couldn't understand G. B.'s frequent correspondence because he attended some classes. Success will surely favor him. With a little pull, he will some day be a great steel magnet.

JOHN RYAN HICKS
Sigma Phi

Hicky, Dor
Business Administration
Band (1, 2, 3)

Mineola, New York
Mineola High

Out of the woods of Long Island in the fall of 1933 rushed our "Hicky." He has stopped long enough in his mad flight to enjoy life, acquire a Lehigh business education, blow a clarinet, and acquire a new outlook on society. We have sometimes wondered about his trips South.

WALTER WARREN HILL
Alpha Kappa Pi

Walt, Buck
Mechanical Engineering

Washington, D. C.
McKinley High School

Arcadia (3, 4); Chemical Society (1, 2); A.S.M.E. (2, 3, 4)

Walt came to us from Washington to be a "beaker boy," but the air in the Chem Building seemed to him unappealing. It was very simple he is now an M. E. and is considering air conditioning the nation's legislative halls. We know the air will be clear wherever Walt goes.

FRANK PRALL HOCHGESANG
Pi Kappa Alpha

Hochy
Chem. Engineering

Hackettstown, New Jersey
Hackettstown High School

Brown and White (1); Interfraternity Council (3); Arcadia (1); Band (1, 2, 3, 4); Chemical Society (1, 2, 3, 4)

"Hochy," a Gibraltar for engineers who find their freshman chemistry to be just a bad headache. When the band first spelled out Lehigh "Hochy" rose to fame as the dot on the I. A conscientious disposition and the ability to demand action in a pleasing manner will carry him to success.

JOHN SHIMER HOFFMAN
Price Hall

Jack
Electrical Engineering
Track (1, 2, 3, 4); E.E. Society; Radio Society

Easton, Pennsylvania
Easton High School

Jack hails from Easton, but he chose Lehigh because he figured a complete college education was desirable. Though he isn't a "brightie," his personal qualities indicate future success. Served as the Brewery's chauffeur and radio broadcaster, not to mention one of its prominent hell-raisers.

WAYNE C. HOFFMAN
Pi Kappa Alpha

Hoffy
Electrical Engineering
Band (1, 2); E.E. Society (2, 4)

Bernardsville, New Jersey
Bernards High School

The main purpose in our budding electrical engineer's life seems to be to eliminate fuses from further use. Occasionally Wayne comes through with a joke that leaves us gasping for a suitable retort. An extensive collection of menus, a Ford coupe, and frequent trips to Bernardsville comprised Wayne's college interests.

Scranton, Pennsylvania
Central High School

John ambled here from the coal mines of Scranton and has since busied himself maltreating guinea pigs in Williams Hall. John hopes to work up from pigs to people after going to Med school. His character is shown when he smokes his own cigarettes, and pushes when going through revolving doors.

Johnstown, Pennsylvania
Westmont High School

Hands like hams—that's the beginning of a good basketball player, but a fellow has to have the stuff, too. Frank was captain in his Senior year. He has made many friends and worked in the same way he played basketball. It won't be hard for him to continue in this manner.

Brookline, Pennsylvania
Haverford Township High School

Coming from the University of Pennsylvania, Carl spent his last two college years at Lehigh. His regular weekend trip to Philadelphia was probably induced by several girls, if his tales are true. His passengers will remember those hectic Monday morning rides to school in the car with the leaky top.

Philadelphia, Pennsylvania
Germantown Academy

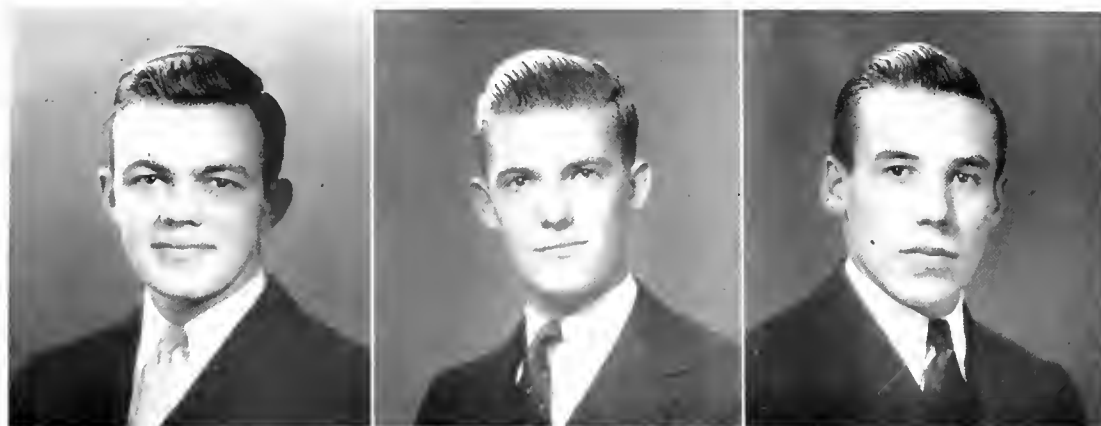

Herm doesn't really growl at you; his voice is naturally that way. With two lengthy foundations (twelves) to maintain his six odd feet, Herm has taken the I. E. Course in his stride. Despite Westside attractions, he's still striding and we know that Industry will be taken well in that stride.

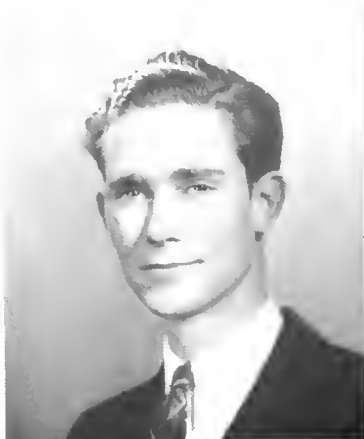

Germantown, Pennsylvania
Germantown High School

Mel is known to us all as a gentleman, scholar, and soldier. As to the first we have no doubt. As a scholar, look at the honors above. And as a soldier—oh well, maybe he's related to Stonewall. Need we worry about his future?

Chatham, New Jersey
Pennington Prep School

Nominations for '37's outstanding member must surely include Jake, a near-Olympian swimmer, campus leader, well liked (when occasion demands) student. His brothers call him their silent leader—until he gets started, and then we look for a "bolt from the blue"—one of Jake's à propos wisecracks.

WILLIAM H. JOHNSTON
Alpha Chi Rho

Will
Mechanical Engineering

North Wales, Pennsylvania
Bordentown Military Institute

Band (1, 2, 3, 4); President, Motorcycle Club (2); A.S.M.E.

An outdoor man is Bill—happiest with a gun over his shoulder, and a pair of moccasins on his feet. Bill can forecast weather with a slide rule, and tell you all about the budget. We don't expect an emulation of Astaire, but are hoping for a second Eugene Grace.

ROBERT JUER
Beta Theta Pi

Bob
Mechanical Engineering

Hopewell, Virginia
Hopewell High School

Interfraternity Council (3); Mechanical Engineering Society

Bob's fast talking at first really had us baffled, but we slowed him down to find an unusual sense of sarcastic wit. The engineering courses required too much of his time, to permit this sincere, hard-working gentleman to do much else but study. A better friend can not be found anywhere.

WILLIAM ROBINSON JULIUS, JR.
Phi Sigma Kappa

Willie, Deadwood
Business Administration

Brooklyn, New York
Brooklyn Technical High School

Soccer (1); Boxing (2, 3, 4); Business Staff of Burr (1); Business Staff of Freshman Handbook (2); Combined Musical Clubs (1, 2, 3, 4); Mustard and Cheese Productions (1, 2)

Bill, just a Brooklyn Boy four years ago, has blossomed and bloomed to hoot. When not breaking noses, including his own by boxing, he strums a guitar, slings hash, runs his own "Night Club," or does his bit for Lehigh "drammer," or—well, you name it and he's done it.

KENNETH KINGMAN KENNEDY
Town

Ken
Engineering Physics

Easton, Pennsylvania
Easton High School

Sophomore Honors; Vice-President, Physicist Society

Ken, whose home is in Easton, came to Lehigh anyhow. Although he did not make a name for himself on the gridiron, he exhibited at all the games a remarkably accurate aim in delivering peanuts, etc. via the air. As a Physicist he is a black sheep, being a congenial companion, and quite human.

WILLIAM BRUCE KIMBALL
Psi Upsilon

Killer, Briez
Business Administration

Philadelphia, Pennsylvania
William Penn Charter School

Brown and White (1, 2), Board (2); Assistant Manager, Freshman Baseball (1); Assistant Manager Swimming (3); Freshman Manager, Swimming (1); Brown Key Society

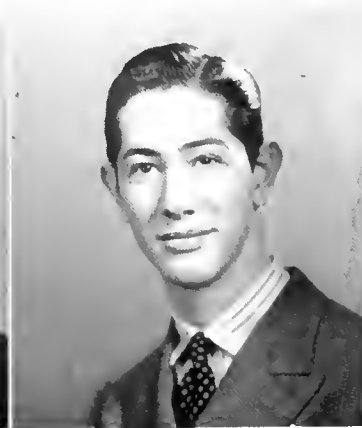

The Killer entered Lehigh determined to become a business man. Barring a taste for beer, and a Philadelphia accent, he has achieved his desire. Briez is said to be the only man at Lehigh who has attempted to tip a cab driver by giving him his friend's overcoat.

RICHARD J. KINS
Tau Delta Phi

Dick
Arts

Allentown, Pennsylvania
Allentown High School

You would never guess he's the youngest fellow in the class. Dick plays the world's worst game of bridge and yet, he always wins. He drives like a maniac and has never scratched a fender. He holds on to Lady Luck with one hand and a smart average with the other.

LITTLETON KIRKPATRICK, JR. **Kirk, Bud** **Wilmington, Delaware**
 Sigma Chi **Business Administration** **Tower Hill**
 Brown & White Staff (2, 3), Circulation Manager (3); Epitome Sports Editor (3), Senior Section Committee (1); Arcadia (4)

Kirk took college seriously the first semester of his freshman year. From that time on he battled less than 500 on eight o'clocks. He successfully used the cram system with the Kirkpatrick modification of studying Saturday night only to spend Sunday in the enjoyments of club life.

IRVING THOMPSON KLEIN **Ink** **Staten Island, New York**
 Pi Kappa Alpha **Business Administration** **Hartwick Academy**
 Football (1); Fencing (2, 3, 4), Manager (3, 4); Fencing Club

This product of the Business College is sure to be a Big business man. Four years of business courses and still can't balance his bank account. Ink should now be able to write a very complete book on "The Art of Living." More power to you, Ink, but no more avoidupois.

LLOYD KLINGAMAN **Lloyd** **Emaus, Pennsylvania**
 Delta Sigma Phi **Mechanical Engineering** **Emaus High School**
 Band (1, 2); Symphony Orchestra (1, 2); A.S.M.E.

Slowly and steadily Lloyd has progressed through four years at Lehigh. He blared out in the band for two years, and then went back to his quiet ways. His constant application to his work has netted him decent marks, and such constant application after graduation will certainly bring his desires.

HOWARD KOLLER **Howie** **Bethlehem, Pennsylvania**
 Town **Chem. Engineering** **Liberty High School**
 Lehigh Review, National Advertising Manager (1); Debating Society, Manager (1); Freshman and Sophomore Honors; D.O.T. (2, 3, 4), Vice-President (3, 4); Chemical Society, R. W. Hall Pre-Medical Society (1); Discussion Forum (1); Freshman oratorical contest

Entering Lehigh on a scholarship, Howie proceeded to make an imposing record in the Chem Department. Being Vice-President and Manager, he helped lead the Debating Society through successful seasons. He played an important role for the Lehigh Review. He may well look forward to the future with confidence.

HAROLD S. KRAUTER **Tiny, Little Willie** **Shillington, Pennsylvania**
 Pi Kappa Alpha **Chem. Engineering** **Shillington High School**
 Football (1, 2, 3, 4); Tau Beta Pi; Scabbard and Blade; Chemical Society

Congenial, Exuberant, Philosophic, Tiny's ambition is to sell the Brooklyn Bridge to the King of Siam. No one knows why this lad ever took Chemical Engineering. He has a nose for trouble and a tongue to get out of it. Hoch! Prosit! Gesundheit! Und auf Wiedersehen!

CARL WALTER KUHLE **Cal** **White Plains, New York**
 Kappa Alpha **Business Administration** **The Choate School**
 Track (1, 2, 4); Numerals (1); Soccer (1); Scabbard and Blade; Chemical Society (1, 2)

Carl's four years at Lehigh have shown a liking for fast driving, good beer, arguments, swing music, and various members of the opposite sex. Two years spent with his feet stuck in the Chem department resulted in the makings of a successful business man.

SIMON LAKE, III
Delta Tau Delta

Dick, Si
Arts

Milford, Connecticut
Milford High School

Basketball (1, 2, 3); Tennis (2, 3, 4); Brown & White

Disgruntled victims of his powerful tennis game have claimed he practiced unfair tactics with his chief weapon—an equally powerful nose. But he uses his proboscis only on the scent of geological specimens, of course, for as prospector after mines, or feminine hearts, Dick always strikes gold.

JOHN STUART LAMBERT
Delta Upsilon

Johnnie
Business Administration

Bethlehem, Pennsylvania
Bethlehem High School

Football (1); Track (2, 3, 4); Brown & White (4)

Brother John's four years—a certain Boulevard in Fountain Hill—a liking for Bethlehem brew—setting people through courses. All in all it was a successful four years. Johnnie was a great success at selling punch boards, but we foresee much greater things accomplished in the future.

GREGORY C. LEE
Taylor Hall

Chem. Engineering
Rifle Club (1, 2, 3, 4)

Paterson, New Jersey
East-side High School

A concise description of Greg is a small man with big aspirations. Readiness to help and the appreciation of human worth figure prominently in his dealings with other people. He finds pleasure and satisfaction in the simpler things of life but he also has a flare for excitement and adventure.

ROBERT EDWARD LEE
Kappa Sigma

Bob
Electrical Engineering

White Plains, New York
White Plains High School

Radio Club (1, 2); Electrical Engineering Society 1, 2, 3, 4

Although the "R. E." is a White Plains boy, he hails originally from the sunny hills of Ole' Virginny. His two chief hobbies are radio and rifle shooting—also likes the cinema now and then. He has definite ideas and knows what he wants.

NELSON JORDAN LEONARD
Delta Tau Delta

Nels, N. J.
Chem. Engineering

Mount Vernon, New York
Davis High School

Soccer (1, 2, 3, 4); Track Squad (2, 3); Assistant Manager, Freshman Baseball; President, Junior Class; Lehigh Union (3, 4); Arcadia (3); Wilbur Second Prize, Freshman Mathematics; Wilbur Scholarship; Chandler Chemistry Prizes (2, 3); Alumni Junior Prize, Engineering; Rhodes Scholarship for 1937; Newtonian Society; President, Phi Eta Sigma; Pi Mu Epsilon; Tau Beta Pi; Robert W. Blake Society; Vice-President, Cyanide; President, Omicron Delta Kappa; Glee Club (1, 2, 3, 4), Double Quartette (3, 4); Mustard and Cheese; Student Lecture Series Committee; Chemical Society, Secretary (3), President (4); Phi Beta Kappa

We can forgive Nels for being a super-student, a swell all-around guy, being popular with the fair sex. We can overlook his being a Rhodes Scholar; and we can even forgive him for his winning personality; but we can never forgive him for showing us up by his achievements.

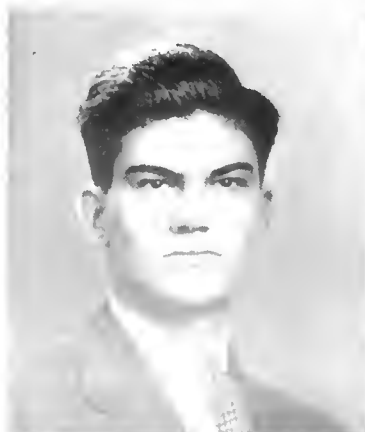

HAROLD SAMUEL LEVENSON
Allentown

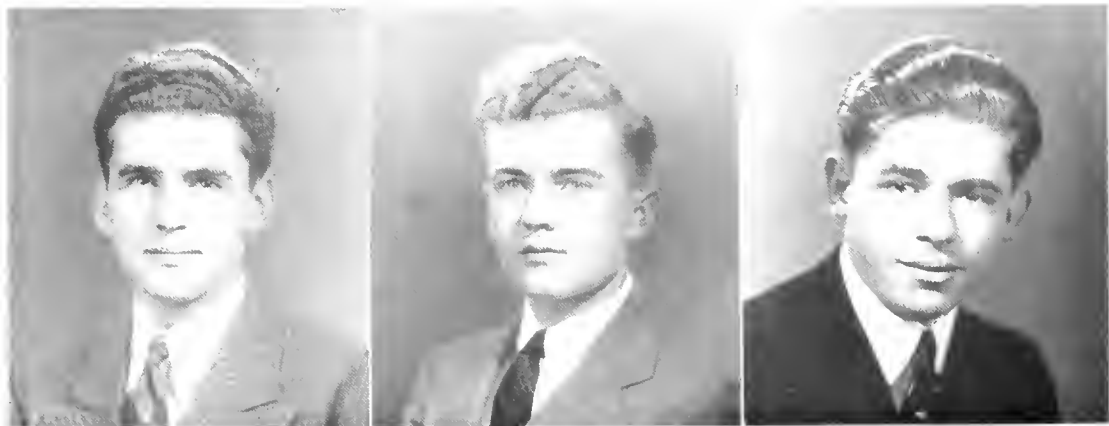

Harold
Chem. Engineering

Allentown, Pennsylvania
Allentown High School

Fencing (1, 2); Phi Eta Sigma; Newtonian Society; Chemical Society

Harold knows his chemistry and bacteriology, but that doesn't tell the whole story. He's a congenial man with a real sense of humor. Circumstances never defeat him. When they oppose him he assumes the aggressive and comes out on top.

JEROME LOUIS LEVY
Town

Jerry
Arts
Tennis (2, 3, 4)

Trenton, New Jersey
Trenton Central High School

Although Jerry was an Arts man, he was usually to be found around Hyphen Hall with the rest of the "Doctor's" boys. He was an arduous follower of all Lehigh sports and a crackerjack at tennis. Good naturedness was one of his main attributes.

CLAY E. LEWIS, III
Beta Theta Pi
Brown and White, Editorial Staff (1, 3, 4); Eta Kappa Nu, President; Tau Beta Pi; Ban (1, 2), Symphony Orchestra (1, 2); Secretary, E.E. Society

Unk
Electrical Engineering
West York High School

York, Pennsylvania

Here is a man whose industry and sincerity coupled with a good mind has brought to him a high degree of success in his college career. His popularity has never been large, but he will be remembered long after some of the "popularity boys" are gone memories.

SIDNEY J. LEWIS
Town
Fencing (2, 3, 4); Review, Editor-in-Chief (4); Editorial Staff (2, 3); Brown & White, Editorial Manager (3); Chairman, Lecture-Concert Committee; Wilbur and Williams, Sophomore Prizes in English; O. D. K.; Secretary, Pi Delta Epsilon

Sid
Arts
Quakertown, Pennsylvania
Quakertown High School

Sid, as a sophomore, dashed up from the U. of P. with a pointed sword and a more pointed pen in both hands. With the pen, he got himself some editorships, and with the sword, he's been prodding his poor staff to issue each *Review* on schedule! That's practically sacrilege.

JOHN Z. LINSENMEYER
Taylor Hall
Assistant Manager, Football (1, 2); Head of Living Group (1); Tau Beta Pi; Eta Kappa Nu, Treasurer; Treasurer, E.E. Society

Jack
Electrical Engineering
West Philadelphia High School

Philadelphia, Pennsylvania

This smooth article hails from the "City of Brotherly Love." Well, it's not New Jersey, anyhow. He came to Lehigh determined to be an E. E., and as such he leaves. He's a good friend, and good friends are always in demand.

RICHARD MARSTON LORD
Kappa Sigma
Assistant Baseball Manager (1, 2, 3); Manager of Fresh Baseball (4); Tau Beta Pi; Newtonian Society; President, Metallurgical Society; Riding Club

Dick
Metallurgical Engineering
Mount Vernon High School

Mount Vernon, New York

Dick came to college with an excellent rating from High School, and climaxed his successful career with Tau Beta membership. His baseball enthusiasm and the quiet dignity with which he conducts Met. meetings are criteria of his adaptability. His pleasing personality and characteristic smile assure him a host of friends.

MORRIS BYRON LORE
Delta Upsilon
Epitome Board, Organizations Editor (3), Senior Section Committee (4); Junior Manager, Basketball (3); Manager, Freshman Basketball (4); Arcadia (4); President, Delta Upsilon (4); Junior Prom Committee (3); Freshman Honors (2); Sophomore Honors (3); Secretary-Treasurer, Cyanide (3); President, Brown Key (3); Tau Beta Pi, Maennerchor Student Committee (3), Chairman (4); Phi Beta Kappa

Moe, Ronny
Chemistry
Atlantic City High School

Margate, New Jersey

"The Reign of Terror is on!" Seldom has the Chem. Department been more completely hoodwinked by any one man. Tau Beta and never even a silver nitrate stain on his hands (that yellow stain is from beer moistened pretzels consumed at the Maennerchor.) Best of luck to ya, Moe!

W. KENT MATHIAS

Phi Delta Theta

Golf (2, 3, 4), Captain (4); Band (1, 2); Interfraternity Council (3, 4); Pi Tau Sigma, Treasurer (4); A.S.M.E.; M.E. Society (2, 3)

Wimpy

Mechanical Engineering

Waynesboro, Pennsylvania

Waynesboro High School

Four years ago there arrived on our campus a slender young man from that horse and buggy settlement of Waynesboro, Pa. Today we have Wimpy, that student and golfer who still finds time to devote to the business of entertaining many young women of Bethlehem, Wilson, Hood, and Beaver.

CHARLES CAMPBELL MAWER

Sigma Nu

Charlie

Business Administration

Brooklyn, New York

Erasmus Hall High School

Charlie wasn't quite satisfied with Middlebury College, so, at the end of his Sophomore year he decided to give Lehigh a break. It has been rumored that a certain very beautiful and talented young lady from Lansdowne is betting her all on his future. Good luck, "Jazz."

ALVIN McCLELLAND, JR.

Sigma Alpha Epsilon

Mac

Arts

Elizabeth, New Jersey

Thomas Jefferson High School

Transfer from Washington and Lee University

WILLIAM McCOLLUM, JR.

Taylor Hall

Bill

Business Administration

Rahway, New Jersey

Rahway High School

Cross Country (4); Track (4); Brown and White (1, 2); Alpha Kappa Psi

Bill has frequently deserted the comradeship of Bethlehem's lighter spots in preference for points east (N. J. C.). When we are graced by Bill's company, he is usually harrying over Saucon Valley's dells and leas or striving to maintain the scholastic average of Alpha Kappa Psi.

CHARLES F. MCCOY, JR.

Lambda Chi Alpha

Charlie, Mac

Arts

Pennington, New Jersey

Pennington Preparatory School

Freshman Basketball; Associate Editor Review (4); Chairman Board of Publications (4); Arcadia (4); Interfraternity Council, Secretary (4); Freshman Honors; International Relations Club; Vice-President (3); Treasurer (4); Robert W. Blake Society; Pi Delta Epsilon; Cyanide; Mustard and Cheese, Vice-President

Activities—that's what Mac feeds on. Plays, clubs, committees, publications, and politics—he's interested in them all. A Mustard and Cheese show without McCoy is unheard of in these parts. This modern quick witted "Romeo" is always willing to work or play. Anything for a laugh—that's Mac.

ARTHUR P. G. MCGINNES, JR.

Taylor Hall

Art, Mac

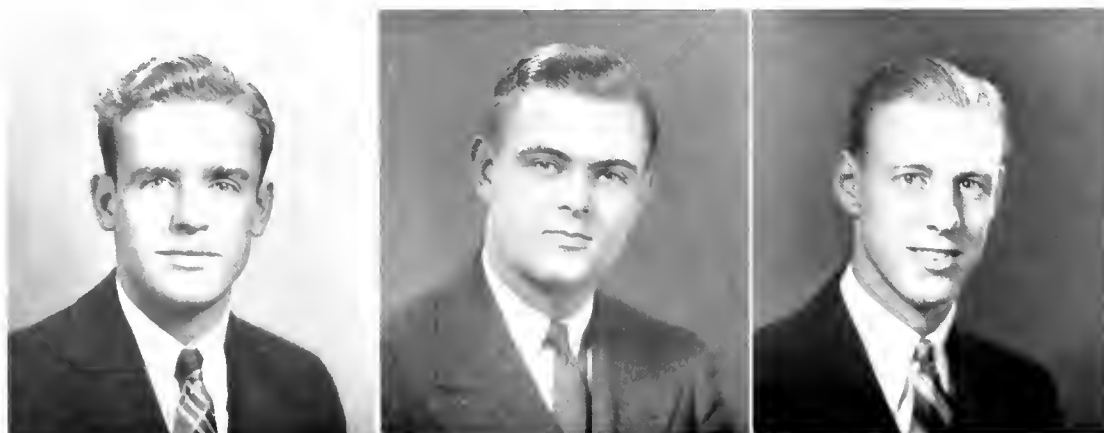

Industrial Engineering

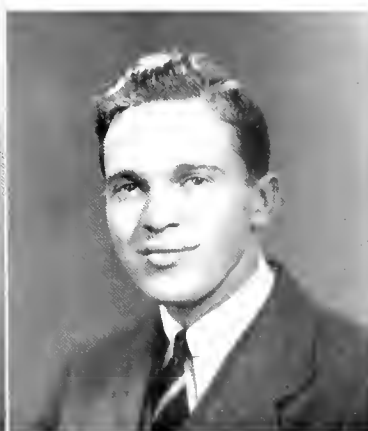

Wayne, Pennsylvania

Tredyffrin Easttown High School

Alpha Phi Omega (3, 4), Secretary (4); I.E. Society (2, 3, 4); Chairman, Dormitory Dance Committee (3)

A transfer from Washington and Lee in his sophomore year, "Art" brought to us all the geniality, courtesy and good fellowship synonymous with Southern hospitality. Always willing to lend a helping hand, "Mac" with his good natured witticisms and Southern drawl has been welcome to our ranks.

ALBERT STUART MCKAIG, JR.

Phi Delta Theta

Freshman Basketball; Freshman Baseball; Varsity Basketball (2, 3); Varsity Baseball (2, 3, 4); Treasurer, Phi Delta Theta; Scabbard and Blade Society; Chemical Society

Mac came to college with the intention of doing well in his studies, earning a varsity letter, and to make many friends, all of which he has done with no mean degree of success. The indication points to success, and we wish him all the luck in the world.

EDWIN GUNN MCNAIR, JR.

Delta Tau Delta

Ed, Mac

Business Administration

Mount Lebanon, Pittsburgh, Pa.

Mount Lebanon High School

Fencing (1, 2, 3), Rifle Team (1, 2); Brown and White (1, 2, 3, 4), Advertising Manager (2), Financial Manager (3), Business Manager (1); Handbook, Business Manager (1); Executive Committee, Board of Publications; Secretary, Alpha Kappa Psi; President, Pi Delta Epsilon; O.D.K. Cyanide; Mustard and Cheese, Secretary

Ed is one of those "strong, silent men" quiet, good-natured, frank, possessed of high moral standards. His industry and ambition have been noteworthy. Ed is known throughout Lehigh for his remarkable ability in newspaper work, and also for his ability in selecting beautiful house-party dates.

HARRY J. McNALLY

Sigma Chi

Red, Mac

Civil Engineering

Philadelphia, Pennsylvania

Frankford High School

Football (1, 2, 3, 4); Freshman Union, Vice-President; Interfraternity Council (3, 4); C.E. Society

Harry made the "mistake" of falling in love the fall of his freshman year. A college education to Harry was thus only something to brush aside before getting married. Incidentally, he participated on the football teams which beat Lafayette four consecutive times.

CHARLES FRANK MINNICH

Town

Baldy

Civil Engineering

West Lawn, Pennsylvania

Wilson High School

Frank came to Lehigh to add Engineering theory to construction knowledge. "It's taken a long time," he says, "but it is worth it." Famous for: wrestling; asking Profs innumerable questions; beer drinking; tall stories; old hats; laughing at all jokes. Don't call him "Baldy."

THOMAS FORD MONTGOMERY

Delta Sigma Phi

Monty

Chemistry

Waynesburg, Pennsylvania

Waynesburg High School

Waynesburg College—B.S., 1934

CHARLES ATWELL MOORE

Atty

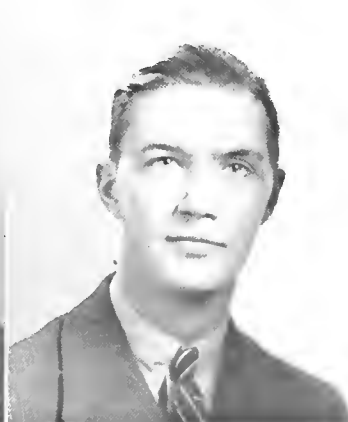

Business Administration

Sewickley, Pennsylvania

Culver Military Academy

Elected Manager of Varsity Football (4); Brown Key Society, President (3); Mustard and Cheese (2, 3, 4); Chemical Society (1, 2)

Atty came to college with the idea of being a Chemical Engineer, but after two years changed to the Business department. Atwell is known around town as well as on the Campus, and with his personality and business ability is bound to make a success of life.

**EDWARD HUNT MOUNT**

Taylor Hall

Eddie
Civil EngineeringFreehold, New Jersey
Freehold High SchoolRifle Team (3, 4); Freshman and Sophomore Honors; Phi Eta Sigma; Pi Mu Epsilon; Newtonian Society;
C.E. Society; Phi Beta Kappa

Eddie originated in Jersey but has convalesced amazingly. Will talk to anyone who will listen. Sometimes present at 3:00 classes if awake. Sometimes if not. Famous for: textualism; shooting; going to movies; coming late to quizzes. Infamous for: only laughing at good jokes; getting A's; feigning seriousness.

BERTRAM VANESS

Sigma Alpha Mu

Beezer, Beez
Chem. EngineeringNewark, New Jersey
South Side High School

A good student, man about town with women and beer, good bridge player and a regular guy are Beezie's accomplishments. His only misgivings are prognostications of football games which he does with a consistent lack of success, and a moustache that he cultivates with the same degree of success.

AUGUST NAPRAWNIK

Town

Gus
Chem. EngineeringBethlehem, Pennsylvania
Liberty High School

Track (1, 2, 3); Band (1, 2); Chemical Society

The greater part of his time is spent in Chemistry with frequent ramblings into philosophy and—of all things, poetry. The amber fluid increases the scope of these ramblings. Beneath that serious cloak lies a quick wit and weakness for propounding puns. He should have little trouble in getting along.

THOMAS E. NIEHAUS

Theta Delta Chi

Tom
Business AdministrationEast Orange, New Jersey
Carteret Academy

Baseball (1, 2, 3); Interfraternity Council, Vice-President (1); Arendia (3, 4); Alpha Kappa Psi

His natural ability won him the presidency of his fraternity in his Junior year. He was elected the Vice-President of the Interfraternity Council. Tom had time to make many friends, and to keep up an active membership in the Macmerchor where he was always seen with Sylvia.

JOSE ANTONIO OLLER

Beta Theta Pi

Chippy
ArtsBrooklyn, New York
Brooklyn Prep.

Baseball (1, 2, 3, 4), Captain (1, 4); Football (1); Alpha Epsilon Delta, Secretary; R. W. Hall Society

"Chippy"—a small human powerhouse, composed of a bundle of nerves and limitless enthusiasm. Some day we may find Captain Oller holding down the hot corner for Brooklyn. Who knows? His other weakness (aside from the fair sex) is an unquenchable desire to extract molars from aching jaws.

EDWARD GRAY OPPENHEIMER

Tau Delta Phi

Oppy
Business AdministrationPittsburgh, Pennsylvania
Shadyside AcademyBaseball (1); Brown and White (1); Manager, Frosh Football (1); Newtonian Society (1);
Pre-Legal Society (1)

Everything from a student to a philosopher and an athlete, Oppie has made good use of his four years at Lehigh. He has gained a host of friends, learned to hold his liquor and become engaged. If that doesn't comprise a full educational course, then nothing does.

GEORGE POWNALL, JR.
Taylor Hall

G. P. Geep
Mechanical Engineering
Member A.S.M.E.

Berwyn, Pennsylvania
Radnor High School

We present a pipe-smoking, beanpole whose main pleasure in life is procrastination. We know that with the inspirational element radiating from an outlying suburb of Philadelphia, he will have no trouble in setting himself up in the world of men as he has done among his fellow students.

STANLEY SCOTT PAIST, JR.
Taylor Hall

Stan
Electrical Engineering

Glenside, Pennsylvania
Abington High School

Baseball (1, 2, 4); Tau Beta Pi; Eta Kappa Nu; E.E. Society

Talk fast or he'll spout baseball, fact and fiction inextricably intermingled. Intelligent and industrious but friendly and cheerful enough to live it down. Two years at Annapolis then Tau Beta and Eta Kappa Nu at L. U. A bit batty on occasion, ergo, "You play the piano and I'll sing."

WILLIAM P. PATTERSON
Psi Upsilon

Pat
Mechanical Engineering

Baltimore, Maryland
Baltimore Polytechnic Institute

Swimming Team (3, 4); Lacrosse Team (2); Haines Scholarship; Sophomore Honors; Tau Beta Pi, Vice-President; Pi Tau Sigma, Vice-President; Scabbard and Blade Society; A.S.M.E.

"Pat" or "Pete" man of many nicknames, high marks and one love interest. Weighed 110 pounds and had an insane idea he could play Lacrosse—startled everyone by becoming first string man. If hard work will make one a million, "Pete" will retire in ten years.

VINCENT JOSEPH PAZZETTI, III
Chi Phi

Pat
Business Administration

Bethlehem, Pennsylvania
Liberty High School

Football (1, 2, 3, 4); Freshman Handbook, Business Manager (3); President, Senior Class; Alpha Kappa Psi, President (1); Scabbard and Blade, President (1); Arcadia; Student Committee on Concert and Lecture Series; Colonel R.O.T.C. Regiment

Here is a lad who has fully lived up to the family tradition of making good at Lehigh. His record speaks for itself—student, athlete, actor, politician, and above all a gentleman. He loves life and shows it. Good luck, Pat. We'll miss those nimble feet and that contagious smile.

HUBERT DALTON PECK
Delta Upsilon

Pecky
Business Administration

Old Greenwich, Connecticut
The Choate School

Fencing (2, 3, 4); Fencing Club (2, 3, 4); Secretary-Treasurer (1); Mustard and Cheese Club (3, 4)

Four years ago Pecky came riding out of Connecticut, and when I say riding, I mean *riding*. He soon learned about the Singing Club under the bridge, but not about engineering. So he changed to Business and maintains his gentleman's average. With his industriousness, who couldn't succeed?

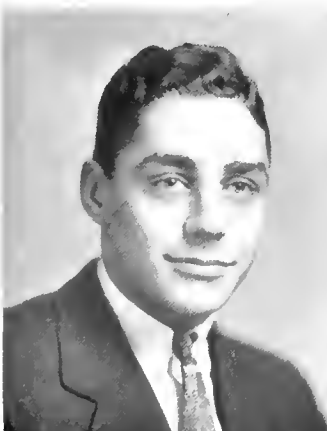

KNOX LAUGHLIN PEET
Sigma Phi

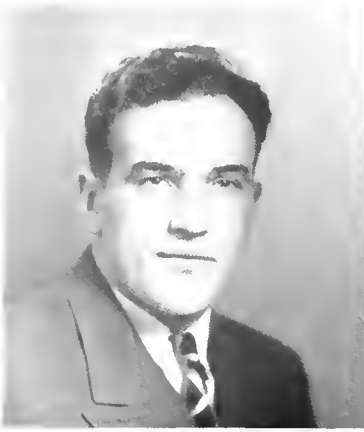

Peter, Knox
Business Administration

Utica, New York
Utica Country Day School

Football (1, 2, 3, 4); Baseball (1); Cyanide; Alpha Kappa Psi, Vice-President; Inter-Fraternity Council, President; Glee Club (1)

His philosophy of life—save your money, sleep and cooperation. Socially— one by one the girls did fall from Beaver, Cedarcrest and Stoughton Hall. Scholastically and athletically his record speaks for itself. However pessimistic he may seem, "Peter" will continue to get the most out of life.

LOUIS RALPH PENNAUCHI
Lambda Chi Alpha

Football (1, 2, 3, 4); Baseball (2, 3, 4); Wrestling (1); Track (1); Cyanide; Scabbard and Blade;
Metallurgical Society; Junior Member A.S.M.

Although he is one of Lehigh's great athletes, "Lou" will by no means be remembered for his athletic prowess alone, for his ready smile and likeable personality have won him many close friendships with his classmates and professors; friendships of the sort not quickly forgotten.

Lou
Metallurgical Engineering

Burlington, New Jersey
Peekskill Military Academy

ALLEN WENTWORTH PHILLIPS
Pi Kappa Alpha

Flip
Chem. Engineering
Wrestling (1); American Chemical Society

Washington, D. C.
McKinley High School

Little Man what next? An athlete—good fellow—a vestpocket scientist. After returning from the National Convention "Flip" was a changed man. New Orleans and the southern belles had a most beneficial effect. They restored a beautiful accent which had been destroyed by association with vile Yankees.

DAVID STANLEY PLEWES
Sigma Phi Epsilon

Pluce
Engineering Physics

Jenkintown Manor, Pennsylvania
Abington High School

Freshman Honors; Physics Society; A.L.E.E.

Through four years of college "Pluce" had his fun; but he did not forget that books made up an important part of a successful education. His consistent high averages did not prevent him from becoming well known and liked by everyone.

JOHN MICHAEL PODGURSKY
Town

Pod
Chem. Engineering

Bethlehem, Pennsylvania
Liberty High School

Track (3); Band (1, 2, 3, 4); Symphony Orchestra (1, 2); Mustard and Cheese (3, 4);
Chemical Society (1, 2, 3, 4)

"Pod" is a sincere and ambitious student who has been able to find the happy medium of a fair amount of college life combined with good grades in spite of extra hours and part time work. His successes at Lehigh convince us that he will be successful in life.

MICHAEL C. PORAZZI
Town

Mike
Arts
Arcadia

Bethlehem, Pennsylvania
Allentown Preparatory School

Mike, as he is known to his army of admirers, had quite a hectic career while at Lehigh. Although he was with the winning side in the sophomore class elections, he became the victim of the winning side's landslide in the Junior class elections.

PETER JOHN POTOCHNY
Beta Kappa

Pete
Arts

Freeland, Pennsylvania
Mining & Mechanical Institute

Arcadia (1); Robert W. Blake Society (1); Delta Omicron Theta (2, 3, 4); Secretary-Treasurer (3); Social Manager (1); Debating Society (2, 3, 4); Brown and White (1)

Pete's an extraordinary mortal. He had a whale of a good time with the gals his first three years and then settled down for a serious fourth. He is known to his legion of friends as Pete, the man with the unpronounceable name, but a darn good friend to have.

WILLIAM PRIESTLEY, JR.
Theta Kappa Nu

Pipe-mon
Chem. Engineering

Neptune, New Jersey
Linden High School

The little man packs a punch—my jaw can testify to that. His thoughts, too, act with the force, speed, and accuracy of a Joe Louis left. His sincerity, generosity, pep, poise, and sense of humor have enabled Bill to attain that most elusive state of culture: frictionless living.

JOHN LLOYD RAFF, JR.
Town

Jack, Johnny
Electrical Engineering
Radio Society; E.E. Society

Philadelphia, Pennsylvania
Olney High School

Introducing Jack a true engineer although he does have "dippy" ideas. Jack believes that a weekend spent in Bethlehem is a waste of time. He is back of the movement to change 3 o'clock classes to a more reasonable hour. We expect to hear a lot of him in later years.

LLOYD ALBERT RAMSEY
Pi Kappa Alpha

Ram, Lefty
Industrial Engineering

York, Pennsylvania
Manual Training High School

Baseball (1, 2, 3, 4); Basketball (1, 2); Numerals Basketball; Baseball; Rifle Team (1, 1); Newtonian Society; Scabbard and Blade; Advanced Ordnance; Interfraternity Council; Chairman Program Committee, A.S.T.E.

Lloyd is one of those fellows who is good company in any kind of a crowd. An I. E. with great possibilities and a hankering for a job in New York, due, perhaps, to a charming young lady in that vicinity. A great asset to his house. So long and good luck, Lloyd.

SIDNEY BENJAMIN RAWITZ
Sigma Alpha Mu

Babe
Arts

Newark, New Jersey
South Side High School

Track (2, 3); Basketball (1); Pre-Legal Society (1); Brown and White (3)

Being born and bred in Newark put a stigma on Babe, but four years in Bethlehem erased it. In its place we find a congenial, likeable chap with a penchant for women. His activities when not concerned with the other sex, are movies, sports, and in his spare moments studies.

JAMES ELIAS REDCAY
Lambda Chi Alpha

Jim, Joe
Industrial Engineering

Reading, Pennsylvania
Reading High School

Assistant Manager Swimming (1, 2, 3), Varsity (4); Brown Key (3); I.E. Society (4)

We read some place that Jim was varsity swimming manager. If he was, then he was a master at the art of remote control. Perhaps if he hadn't spent so much time at Prof. Kinney's puzzling over his love affairs and life's problems he could have concentrated on Tau Beta Pi.

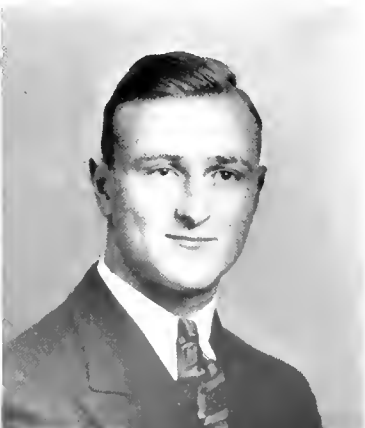

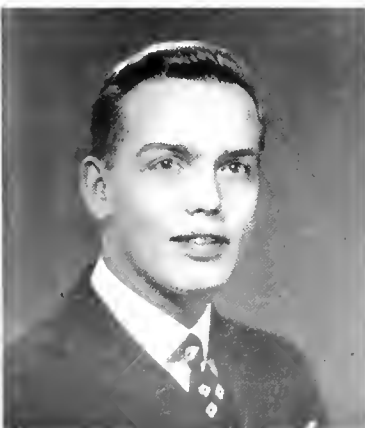

NELSON GIBBS REED
Taylor Hall

Nels
Mechanical Engineering

Dalton, Massachusetts
Dalton High School

Football (1, 2, 3, 4); Areadia; Newtonian Society; Scabbard and Blade; A.S.M.E.

It's hard to describe a Lehigh man who is so conservative. Maybe it's the Yankee in him. Likes the winter like a true Northerner. Takes skiing as seriously as his football. As chief of his section, he instigated a feeling of good fellowship that reflects his own nature.

THOMAS FRANKLIN REIDER
Theta Xi

Football (1, 2); Wrestling (1, 2, 3, 4); Swimming (1); Interfraternity Council (1); Mustard and Cheese;
Chemical Society

The pride and joy of Schuylkill Haven
Who, the past four years has been ravin'
About women being merely toys
But still, their presence he enjoys.

Schuky, Tom
Chem. Engineering

This strange philosophy of life
Will handicap his getting a wife,
It, however, will suit his plans
For his adventure in foreign lands.

Schuylkill Haven, Pennsylvania
Schuylkill Haven High School

ROBERT WELLS REIFSNYDER
Alpha Chi Rho

Track (1); Tennis (3, 4); Brown and White Board (3, 4); Sports Editor (3); Alpha Kappa Psi (3, 4);
Treasurer (1); Band (1, 2, 3); Senior Ball Committee

King Reifsnyder, the first, last, and only, by the Grace of God, of dance floors and bridge tables.
Top Man, Defender of Alpha Chi Rho's goal posts, Emperor of Snaking, Prince Charming, Lord of Shut-
eye Dancing, Captain of Industry. We just call him Bob. God Save the King.

Bob, Reif
Business Administration

Jamaica, New York
Jamaica High School

ROBERT CYRIAX RICE
Taylor Hall

Bob
Industrial Engineering
I.E. Society (1, 2, 3, 4); A.S.M.E. (1)

Glen Rock, New Jersey
Ridgewood High School

Bob is going to be missed at Lehigh. The postman will miss his special delivery letters, the corner
parking space at the entrance to Sayre Park will miss "chariot," and the whole university will miss his
never ending stories of Maine and Copenhagen told in that "Joisey"-Boston brogue.

WALLACE CALHOUN RIEDELL
Psi Upsilon

Wally, Cue Ball
Chem. Engineering

Garden City, New York
St. Paul's School

Wrestling (1, 2); Golf (3, 4); Scabbard and Blade; Mustard and Cheese

We found Wally four years ago—steeped in the traditions of New York's cosmopolitan hinterland.
"The Island." The Metropolitan accent, ideas, and dress have predominated everywhere but in the Chem-
istry Department. Houseparties always found him at his best. We suspect that his family as chaperones
had something to do with it.

E. RUDOLPH RISTA
Theta Kappa Phi

Rudy
Business Administration

Haledon, New Jersey
Central High School

Manager, Track (2, 3); Varsity (1); Sports Staff, Brown and White (2, 3); Arendia; Interfraternity Council
(3, 4); Cyanide; Brown Key; Robert W. Blake Society; International Relations Club; Mustard and Cheese
(2, 3, 4); Stage Manager (1)

Here might appear the Chronicle of a Saint or the History of a Devil. A driving force, an idealist
behind the affected cynicism, a sincere interest for his fraternity, that is the composite picture of this Saint
or Devil, have it as you will.

EMIL ROBERT RITER, JR.
Phi Gamma Delta

Bob, Emil
Industrial Engineering

Narberth, Pennsylvania
Hackley School

Track Team (1, 3, 4); Interfraternity Council (3, 4); Mustard and Cheese (1, 2); I.E. Society

A man's man is Emil, who has enjoyed his four years at Lehigh in spite of never having a date. He
would rather think of pole-vaulting and airplanes anyhow. Bob is a conscientious worker of the first
order, which the cold cruel world is will soon realize.

GEORGE K. ROGERS
Town

Gimpy

Industrial Engineering

Refreshment Committee; I.E. Society

Haverford, Pennsylvania
The Haverford School

"Gimpy" is a good natured fellow who knows how to "take it." Favorite sport is tennis, with motor-boating ranking second. Has a swell collection of pictures from Maine, where he spends his summer vacations. His secret ambition is to refold a roadnap back to its original shape.

JOSEPH ROSSETTI
Allentown

Joe

Business Administration

Sophomore Honors; Alpha Kappa Psi; Band (1, 2); President, Allentown Lehigh Club

Allentown, Pennsylvania
Allentown High School

Joe is that modest, capable, well-knit fellow who goes quietly about his business. Everybody knows of his scholastic ability, but few really know Joe—game as any one and full of fun, with a weakness for Scotch and Madeleine. His finest attainment has been in the world of music.

RICHARD HUGO SACHS
Kappa Sigma

Dick, Hugo

Business Administration

Alpha Phi Omega (3, 4)

Nutley, New Jersey
Nutley High School

Presenting Hugo, the pride of Nutley. A swell drinker, a hard worker, and a unit of most bull-sessions, Dick made himself unfamiliar for a while with a full-fledged mustache. He is a businessman, made a gentleman's marks, and got more out of Lehigh than most fellows.

CLAYTON D. SANDT, JR.
Town

Clayt, Clay
Chem. Engineering
Band (2, 3)

Bethlehem, Pennsylvania
Bethlehem High School

The facsimile below is that of Clayt Sandt. Clay will some day probably be one of Bethlehem Steel's Engineers. Lately he has been an active beaker boy down there. He tooted a mean alto horn in the Band for two years and was an ardent sports follower at Lehigh.

JOHN HENRY SCANLON
Town

Jack
Arts

Bethlehem, Pennsylvania
Liberty High School

Brown and White (2, 3, 4); Board of Brown and White (3, 4)

Brimming over with that inimitable Irish wit, Jack has often kept the overworked journalism majors awake with his sharp repartee. Sometimes he takes "time out" and views life from the serious side. Then he burns the midnight oil in frantic quest for that all elusive average.

EDWARD D. SCHAFER
Town

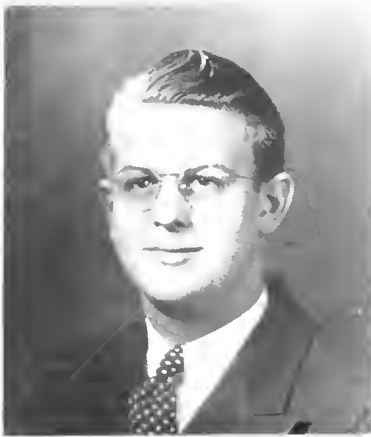

Schaf, E. D.
Arts

Bath, Pennsylvania
Bethlehem High School

Carl Schurz Memorial Foundation Prize in German; Alpha Epsilon Delta; R. W. Hall Pre-Medical Society

A good student. Commutes daily. Serious, though not lacking a sense of humor. Always sees both sides of a question. Expects to be an M.D. some day. Interested in literature and music. Plays the piano well. Likes swimming and long hikes. Reserved except when with friends.

HERMAN CARL SCHEER
Alpha Kappa Pi

Herm. H. C.
Chemistry

Stroudsburg, Pennsylvania
Stroudsburg High School

Football (1); Wrestling (1); Chemical Society (1, 2, 3, 4)

H. C. is always able to make things work, and he knows why. Always willing to tap a keg—and drink it. His late scholastic pickup is due to the rapid decrease in delta between the limits of now and that blissful day. Good luck, Herm—we know that you have the stuff.

HUGO P. SCHIEUERMAN
Theta Xi

Slug
Industrial Engineering

Montclair, New Jersey
Mercersburg Academy

Varsity Wrestling (1, 2, 3); Brown and White (2); Young Republican Club (4); Director (4); Interfraternity Council (3); Scabbard and Blade (3, 4); I.E. Society

Hugo entered Lehigh as just another graduate of the class of '37. Athletic endeavors limited to wrestling for which he received distinction in his first year. His circle of friends has been an ever widening one. His personality and good judgment are destined to be factors in his inevitable success.

LEONARD HUBERT SCHICK
Beta Theta Pi

Len
Arts

Bethlehem, Pennsylvania
Franklin and Marshall Academy

Football (1); Lacrosse (2); Tennis (4); Brown and White, Sports Editor (2); News Manager (1); Review Board (3, 4); Editorial Manager Freshman Handbook (3); Pi Delta Epsilon

Len—The Vidmers', Rices', Williams', and other sports writers better watch their jobs when this sports enthusiast, encyclopedia, and writer graduates. Weaves stories that will leave you astounded at the artistry of his smooth flowing pen. He has one weakness—Stroudsburg—You guessed it—cherchez la femme.

FRANCIS RAUCH SCHMID, JR.
Taylor Hall

Schmidy
Metallurgical Engineering

Tarrytown, New York
Washington Irving High School

Football (1); Baseball (1); Chemical Society (1); Metallurgical Society (3, 4)

Schmidy has undergone a number of changes since he entered Lehigh four years ago. He leaves a much better man. His persistence has pulled him through everything that he has attempted. Taylor Hall will no doubt continue to reverberate from the telephone calls that he used to make to 3303-W.

RICHARD L. SCHMOYER
Town

Dick
Mechanical Engineering

Allentown, Pennsylvania
Allentown High School

Arcadia; Treasurer, Allentown Lehigh Club; Freshman and Sophomore Honors; Newtonian Society; Pi Tau Sigma; Pi Mu Epsilon; Tau Beta Pi; M.E. Society

A man with a purpose! Dick knows what he wants and he usually gets it. Loyalty, acuteness, cheerfulness, and keen intelligence—he can number all these among his possessions. Has missed but one class in four years at Lehigh. We'll venture a prediction whatever Dick does, he'll do it right.

WILLIAM LEWIS SCHNABEL
Sigma Nu

Bill
Industrial Engineering

Pittsburgh, Pennsylvania
Peabody High School

Wrestling (1); Burr, Business Staff (2); Freshman Manager, Wrestling (1); Interfraternity Council (3, 4); Band (1, 1); President of I.E. Society (4)

Let us pause, and extend best wishes for continued success to a member of this class of '37. His enviable scholastic average, and his numerous and varied activities identify Bill as a sincere and earnest worker. A fellow who can "take a ride" as pleasantly as "Schnaz" has something "on the ball."

Norfolk, Virginia
Maury High School

Al, an engineer with enviable scholastic attainments, has been able to enjoy his leisure in the accepted manner of a Southern gentleman. Lehigh has acted as a catalyst to his inherent abilities, and he has achieved a scope of activities which is the foundation for a successful career in his chosen field.

East Orange, New Jersey
East Orange High School

Dave made out fine as an Engineer but was smart enough to change to Business in his sophomore year. Also fell in love his sophomore year and is still that way about the same girl. An ardent baseball enthusiast—a fine bridge partner—and a good house controller.

Harrisburg, Pennsylvania
Mercersburg Academy

"I never felt the touch of love or maiden's hand in mine." Not applicable to this dapper little gent—a mustache and his Don Juanish appearance saw to that. True genius is his, though it has been said: "He never flunked. I reckon he never knowed how."

Coudersport, Pennsylvania
Peddie School

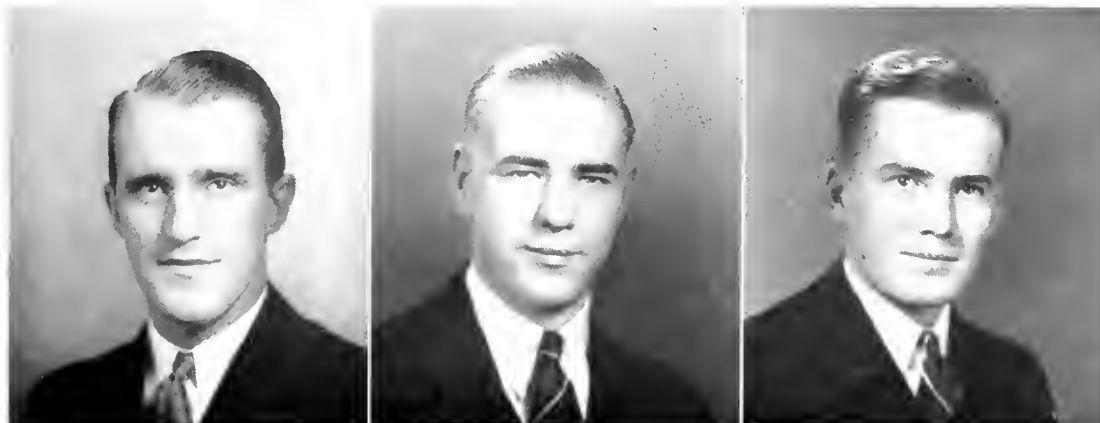

Here's to Tomasso. . . . He's true blue. . . . He's a geologist through and through—you've heard the rest at Uncle Louis'. Tomasso rumbled in from Peddie four years ago and wondered what college was about; he is still wondering. Let's hope he finds as many rocks as he had friends at Lehigh.

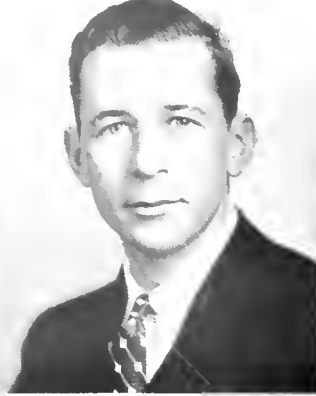

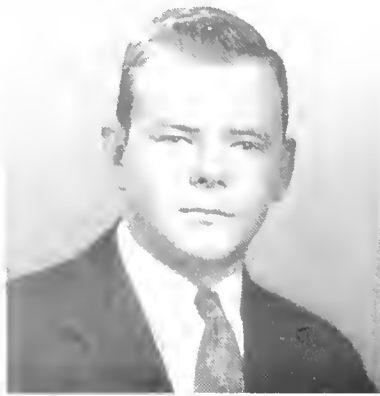

Bethlehem, Pennsylvania
Bethlehem High School

Clem, a typical geologist, takes everything for granite. After four years in "Bill Hall," he has absorbed all those things which would tend to make him a serious-minded young man. However, he more resembles a Wodehousian character full of that good clean fun which make people swear at him.

Norri-town, Pennsylvania
Norristown High School

Two characteristics impress those who really know Bill: his willingness to lend a helping hand and his ability to meet joy and disappointment with equal self-composure. His activities are sufficient proof of Bill's value to Lehigh. More important is the unwritten record of the many friends Bill has won.

PHILIP SINGER
Town

Smeed
Arts

White Plains, New York
White Plains High School

Alpha Epsilon Delta; Robert W. Hall Pre-Medical Society (2, 3, 4)

Phil hopes to be a doctor. An amiable fellow with an able brain, there is no reason why he shouldn't be a successful one. His good nature and his ready smile have made him popular. Well liked by faculty and fellow students. Phil is bound to go far.

GEORGE LLOYD SNYDER, JR.
Sigma Phi

G. L., George
Civil Engineering

Somerville, New Jersey
Somerville High School

R.O.T.C. Award (2); Scabbard and Blade (3, 4); A.S.C.E. (3, 4)

G. L. has developed from a green freshman into a true fraternity man with the motto, "Nothing but the best and the best for nothing." Physically, he expanded from 135 to 170 pounds. Mentally he is still with us. The Army and aviation are the serious things in G. L.'s life.

CLIFFORD ADAMS SPOHN
Price Hall

Bud, Cliff
Arts

Reading, Pennsylvania
Reading Senior High School

Wilbur Freshman Prize for Oral English Composition; Robert W. Blake Society (3, 4)

Bud hails from Reading, home of beer and pretzels. Spent four years at Price Hall, but escapes still rational. Addicted to chess and asking unanswerable questions. Aspires to some day playing a decent game of tennis. Likes school so much he decided to get one of his own. Best luck, Bud.

LUTHER SAMUEL SPRAGUE
Town

Sammie
Mining Engineering
Mining Society; Boxing

Bethlehem, Pennsylvania
Bethlehem High School

Lehigh's best offering to "Sammie" was mining engineering. Reared within sight of old South Mountain, Sammie had a natural fondness for geology. He found time for frequent "workouts" at handball or boxing. Precision in his work will lead him to well deserved success.

ALBERT W. STERN
Town

Al
Arts

Hellertown, Pennsylvania
Hellertown High School

Band (1, 2, 3, 4); Soccer (2, 3)

Al didn't have much time for extra-curricular activities having been a commuter, steel-worker, and a breadwinner throughout his college days. He is the proud father of a beautiful four-year-old daughter. Al enjoys the respect of every one of his classmates and is considered a friend worth having.

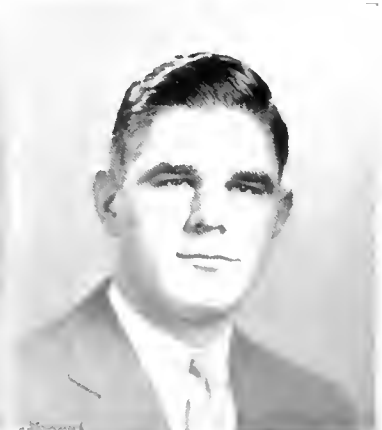

DEAN T. STEVENSON
Leonard Hall

Steve
Arts

Pottsville, Pennsylvania
Pottsville High School

Football (1, 2, 3, 4); Basketball (1, 2); Student Lecture Committee; Arcadia (3, 4); Student Activities Committee; Cyanide; Robert W. Blake Society (2, 3, 4); President (1); Eta Sigma Phi, Secretary (1); International Relations Club (2, 3, 4)

The mighty Stevenson is an artist and athlete, a composite of all good things. Look at his record—football, basketball, honoraries by the score and philosophy, too. As a true intellectual he embraced Fine Arts to his manly bosom. Here's to an excellent student, a fine friend and a good athlete.

FRED BACON STIEG, JR.
Town

Fred
Chem. Engineering

Flushing, New York
New Brunswick High School

Band (1, 2, 3, 4); Glee Club (1, 2, 3); Physics Society (1); Chemical Society (2, 3, 4)
Perseverance plus! Raised a mustache only to have half of it removed by his indignant classmates. Serves to supply some of the dignity befitting his station of senior and family man. Collects pipes as a hobby, but intends to devote himself seriously after graduation to amassing his first million.

EDWARD CLINTON STONE
Delta Upsilon

Clint
Business Administration

Upper Montclair, New Jersey
Montclair High School

Brown and White (2); Assistant Manager of Soccer (3), Manager (4); Brown Key; Baseball (1)
Clint picked Business because Engineering is nothing but substituting into formulas. He maintained a gentleman's average, managed the soccer team, took care of his own affairs and found Adel. It won't be long before Clint's personality and his somewhat underemployed mental capacity make him a leader in the business world.

JAMES DAUGHERTY SUTTON
Pi Kappa Alpha

Jim
Electrical Engineering
E.E. Society

Indiana, Pennsylvania
Indiana High School

A real live wire who always gets a kick out of life. His emphatic and colorful vocabulary is the envy of all his friends. Jim leaves Lehigh as he entered it, true to the girl he left behind him. Something tells us this boy's going places. Best of luck, Jimmy.

ALVIN AUGUSTUS SWENSON, JR.
Psi Upsilon

Al Swens
Business Administration

Philadelphia, Pennsylvania
Frankford High School

Swimming (1, 2, 3, 4); Track (1, 2); Manager, Interfraternity Athletics (3, 4); Chairman Military Ball; President, Lehigh Union; Interfraternity Council (3, 4); President, Psi Upsilon; Alpha Kappa Psi; Arcadia; Scabbard and Blade; O.D.K.; Musical Clubs

The suave, sophisticated Swenson is a far cry from the youth who arrived here four years ago. Swens' education was completed when he started wearing a hat to classes this year. Al, a sailing enthusiast, became so attached to a bar—sand, of course—that his continuation in law comes as no surprise.

NORMAN WILLIAM TAYLOR
Allentown

Norm
Chem. Engineering
Chemical Society

Allentown, Pennsylvania
Allentown High School

Although Norm confines most of his pastime to bridge, golf, and reading, he is an ardent follower of football, basketball, wrestling, and baseball. Despite this seemingly active life, Norm finds time for a charming black-haired dental hygienist. Just an all-around good fellow—Norm's secret of success and happiness.

JAY GORDON TERRY
Phi Delta Theta

Jay
Metallurgical Engineering

Perkasie, Pennsylvania
Sellersville-Perkasie High School

Football (1, 2); Metallurgical Society (3, 4)

Jay is that Met Engineer we see around the Campus and in places serving the amber fluid. An astute disciple of Prof. Stoughton. Has distinct social tendencies. Doesn't permit his studies to interfere. Ambitions to become a steel magnate and we believe he will easily achieve his purpose.

FREDERICK EDWARD THALMANN
Leonard Hall

Fred
Arts

Jersey City, New Jersey
Dickinson High School

Assistant Manager, Frosh Football (1); Band (1, 2); Robert Blake Society (2, 3, 4); International Relations Club (2, 3, 4); Secretary (3), President (4)

Fred is a dynamo of human activity and a philosopher of the first magnitude. There is nothing he likes more than to philosophize and to expound his theories in bull sessions. Among his more noble qualities are sound judgment, common sense and a profound sincerity in living his beliefs.

JAMES G. THOMAS, JR.
Town

Reds
Chem. Engineering
Chemical Society

Bethlehem, Pennsylvania
Bethlehem High School

Reds leads the ascetic life of a Decameron Monk. Doesn't talk much but knows his way around. Beneath his somber attitude lies a ready wit and the ability to appreciate a good joke—even when it is on him. The future should hold a store of interesting reactions for him.

JOHN MORGAN THOMAS
Pi Kappa Alpha

Morgan
Arts

Taylor, Pennsylvania
Taylor High School

Fencing (1); Frosh Assistant Manager of Baseball; Chemical Society

Little man, what now? Will you, ardent Republican that you are, enter politics? Or will you degenerate to a chemist? Morgan's weakness is Esquire shirts. His strong point, two weeks' preparation for Houseparty. This neat, orderly, ambitious young man should succeed in the world. Good luck, J. M.

ELBERT DE FOREST TIDD
Town

Bert
Arts

White Plains, New York
White Plains High School

Band (1, 2); Mustard and Cheese (3, 4)

Rides horses . . . Stark individualist . . . Artsmen disown him since he majored in Physics . . . Physicists disown him since he's in the Arts college . . . Etchings and pastels . . . Went to Mustard and Cheese because of musical ability . . . Stayed with Mustard and Cheese because of acting ability . . . Rides horses.

HERBERT J. TILLAPAUGH, JR.
Alpha Kappa Pi

Herb
Arts

Binghamton, New York
Binghamton Central High School

Pre-Legal Society (1, 2); International Relations Club (3, 4)

Herb transferred from the University of Virginia where he was on the freshman football and boxing teams. Won the 165-lb. boxing championship of the R. O. T. C. camp at Fort Washington, Maryland. His secret ambition is to get a commission with Uncle Sam's leathernecks as a second lieutenant after graduation.

CHARLES BURRITT TILLSON, JR.
Town

Charlie, Tilly
Mining Engineering

Cochituate, Massachusetts
Wayland High School

Track Team (1); Mining and Geological Society

He is a "miner" who came all the way from Cochituate, Mass. He asks all the questions in class! He worked his way largely through college. Prominent on Bart's intermural program as referee, scorer, umpire, etc., in the contests held. Let's send him on a successful journey through life.

HAROLD EARL TOWNE
Leonard Hall

Review, Business Staff (4); Band (1, 2, 3, 4); Librarian (2, 3, 4); Williams English Prize (2, 3); Musical Clubs (1, 2, 3, 4), President (3, 4); Mustard and Cheese (1); Student Clubs Committee (1); Arcadia (3, 4); Robert Blake Society (3, 4), Vice-President (1); Assistant Manager Football (1)

He came, he saw, he conquered. This in short is Hal's history at Lehigh. Everyone knows him best for his successful leading of the musical clubs, but who can deny his victories in the fields of English, Philosophy and Art? His versatility, capability and likeability should serve him well when a bishop.

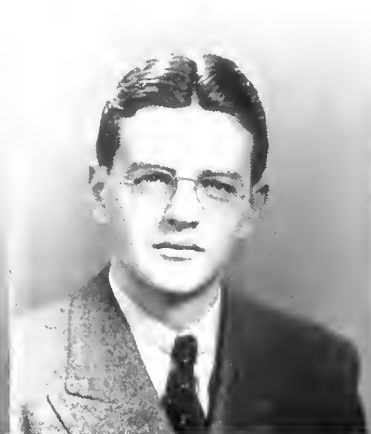

WILLIAM E. TRUMPLER, JR.
Town

Bill
Mechanical Engineering

Ossining, New York
Shaw High School

Swimming (3, 4); Tennis (3, 4); Newtonian Society; Musical Clubs; A.S.M.E.

Early in his Lehigh career Bill earned fame as a snipe hunter. A skillful musician, his tall, lanky figure in the band offers an interesting contrast to the tiny piccolo he wields. Despite "razzing," Bill's good humor "springs eternal" and we are sure it will see him through all difficulties.

WILLIAM GRAY TURNBULL, JR.
Town

Bill
Mechanical Engineering

Philadelphia, Pennsylvania
Friends' Central School

Fencing (1, 2, 3, 4); Manager (1), Secretary and Treasurer (2, 3), Captain (1); Freshman and Sophomore Honors; Pi Tau Sigma Prize; Ordnance Association Medal; Newtonian Society; Phi Eta Sigma; Pi Mu Epsilon; Pi Tau Sigma; A.S.M.E.

"The child who is born on the Sabbath Day is witty and wise, and good and gay."

EUGENE HIRSH UHLER
Town

Gene
Arts

Bethlehem, Pennsylvania
Liberty High School

Freshman Honors; Wilbur German Prize; Phi Eta Sigma; Delta Omicron Theta; Debating Society; Assistant Manager (2), Manager (3), President (1); Industrial Engineering Society

Scholastic achievement in preference to social distinction is Eugene's motto. University dances alone caused him to swerve from this path. Found time to take an active part in debating programs. If he applies himself in the future with as much diligence as he used at Lehigh, his success is assured.

LUTHER JARVIS UPTON, JR.
Chi Phi

Lu. Rebel
Chem. Engineering

Norfolk, Virginia
Maury High School

Basketball (1, 2, 3, 4); Captain (1); Baseball (1, 2, 3); Review, Circulation Manager (3), Business Board (1, 2); Secretary-Treasurer of Lehigh Union; Tau Beta Pi; O.D.K.; Pi Delta Epsilon; Cyanide; Newtonian Society

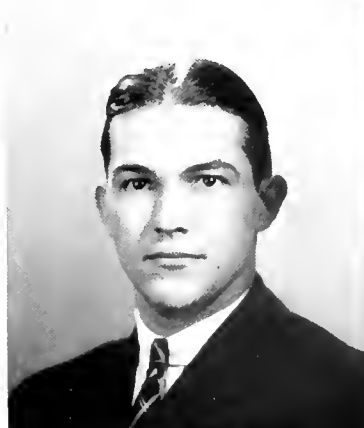

Gosh, I reckon! Norfolk misses him and no wonder. For four years a serious student, yet against his better judgment. Known and liked by all through his broad activities and good nature. Successful in all he attempts, yet modest to the extreme. A man with a happy future. Here's to you, Lu.

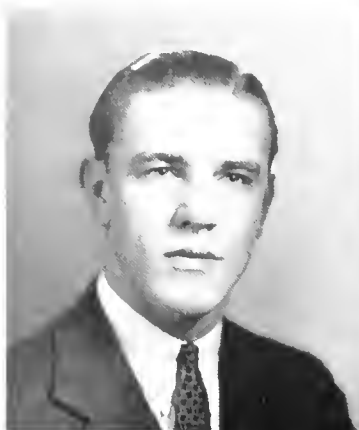

GARDNER VAN DUYNE
Kappa Alpha

Duke
Business Administration
Cheerleader (3, 4); Arcadia, Vice-President

Newark, New Jersey
Barringer High School

Duke forsook sailing boats and Barnegat Bay for South Mountain four years ago. He became in order named: that cute little freshman at the K. A. house, a foam penetrator, a business man, a cheerleader, and a politician. We all know that Duke with his ready smile is headed straight for the top.

DONALD GLENN VAN TILLBURG
Sigma Phi Epsilon

Tillie, Van T.
Chem. Engineering

Sussex, New Jersey
Wyoming Seminary

Secretary, Freshman Class; Junior Prom Committee; Chemical Society

Here we have Tillie, converted farmer boy de luxe. Emotional minister's son head over heels with a Miami Beach college girl. Sneaked through college on brains, not hard work. Grade A snoozer, in class or out. Incomparable bridge fiend—an astounding partner. Universally liked—a human Chem engineer—novel and pleasing.

CLIFFORD WILSON VEDDER

Phi Sigma Kappa

Stormy

Business Administration

Brooklyn, New York

James Madison High School

Soccer (1, 2); Swimming (1); Track (1); Wrestling (2); Boxing (3, 4); Arcadia; Scabbard and Blade

Stormy came here an extremist. A Brooklyn native who left out the "oi" in third. Earned extra bucks by waiting, teaching dancing, and knocking people loose from their teeth. Industry's gain will be Lehigh's loss—loss of a good worker and a good man to have for a friend.

HOMER JEROME VICTORY

Town

Vic

Mining Engineering

Margate City, New Jersey

Dwight School

Vice-President, Riding Club (2); Mining and Geological Society; A.I.M.E.

The Bethlehem climate must be very unhealthy for Vic, because he loses no time leaving it for New York on week-ends. He's going to marry the girl! Spends his time collecting geology specimens, hunting pheasants and making friends. His many friends are confident of his success.

ROBERT WILHELM VOGELSBERG

Delta Tau Delta

Bob

Mechanical Engineering

Newark, New Jersey

East Side High School

Soccer (2, 3); Track (1); Pi Tau Sigma; Scabbard and Blade; A.S.M.E. (3, 4)

If you want to make him happy, invent a combination slide-rule and piano. Spends his summers on a farm talking Dutch, shooting at groundhogs, and commuting to work. He asks good questions and expects good answers. His frankness and sincerity have won him a wide circle of close friends.

FREDERICK W. WALKER, JR.

Chi Psi

Wiley, Prof.

Industrial Engineering

Milwaukee, Wisconsin

Milwaukee Country Day School

Basketball (1); Manager, Football (1); Brown Key Society, Director (3); Glee Club (1, 2); Scabbard and Blade; A.S.M.E. (1, 2); A. S. I. E. (2, 3, 4)

Between hasty trips to the West and South, pilgrimages to and from the Maennerchor and somewhere in North Bethlehem, we have heard a silver tongue, and seen a mouth thirsty in the presence of beer. His friends should multiply greatly throughout life as they have during his days at Lehigh.

MERRILL HORNOR WALLACE

Chi Psi

Wally, Hornor

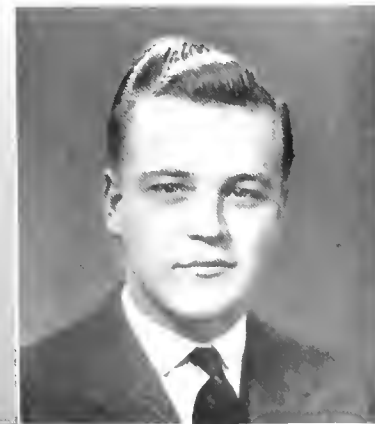

Business Administration

Keyport, New Jersey

Blair Academy

Assistant Manager of Soccer (1, 2, 3); Manager of Freshman Soccer (1); Brown Key; Band (1, 2)

Hornor is the man who kept numerous Rutgers summer school sessions. If his abilities in the classroom were not marked, his spontaneous humor and wit were. We'll miss his sartorial elegance and his booming voice ringing throughout the Maennerchor as much as he will miss the amber fluid of the Lehigh Valley.

Laurel, Delaware
Laurel High School

Several years ago this "Southern Gentleman" came to us with a great scholastic record from Bucknell. Proved to the "old school" that a man can successfully retain a three-point average and find time to visit that girl back home and still enjoy life at Lehigh.

Edgewood, Pittsburgh, Pennsylvania
Edgewood High School

Football (1, 2, 3, 4), Captain (4); Basketball (1); Epitome, Assistant Business Manager (2, 3), Senior Section (4); Tau Beta Pi; O.B.K.; Cyanide, President; Newtonian Society, President; House Manager and Treasurer

Why must we write your biography, Joe? You have done too much, and all too well, to make writing about you an easy task. A great lover (or would "Valve Cap" be a better judge than we?) Oh, well, keep it up, Joe, and one day we'll be around with an "I knew you when" story.

West New York, New Jersey
Memorial High School

Johnny has the knack of doing things right. Mechanical Engineering is his line, and he likes it. Studies, though, haven't spoiled Johnny's share of fun. He's there with the goods, in work or play—the best pal ever.

Brookline, Pennsylvania
Haverford High School

Freshman and Sophomore Honors; Tau Beta Pi Prize; Wilbur Math Prize (2); Alumni Junior Prize; Newtonian Society; Phi Eta Sigma; President, Tau Beta Pi; President, Pi Mu Epsilon; Scabbard and Blade; President, Civil Engineering Society

Brilliant and likeable—honor student—a credit to Lehigh and to engineering. Far from a bookworm, C. B. always seems to be enjoying himself—interested in everything and everyone and always glad to lend a hand. His faults: Laughs at his own jokes; dislikes beer; wants to be Colonel of the R. O. T. C.

Avoca, Pennsylvania
Wyoming Seminary

Manager, Lacrosse (3); Vice-President, A.I.U.E.

"Butch" came to Lehigh as one of the "greener" members of our class. His college career has not been marked with outstanding achievements, yet he has grown in erudition, reaped invaluable knowledge from the experiences of others. He is a man for whom college has done a world of good.

Hanover, Pennsylvania
Hanover High School

Manager, Track (1, 2); Fraternity President (3, 1); Interfraternity Council (3); Arcadia (3, 1); Brown Hall Committee (4); Pennsylvania Student Confederation Meeting Committee (1); Rifle Club (1); Riding Club (2); Chemical Society (1, 2, 3, 1)

"Mighty oaks from little acorns grow!" Such was the evolution of Brinty. From a quiet and retiring Freshman to one of the best known men in his class. As a president of his fraternity, he has shown leadership that spells success. We are for you, Brinty!

ROBERT GILES WERDEN

Bob

Jenkintown, Pennsylvania

Kappa Sigma

Industrial Engineering

Abington High School

Lehigh Union Cabinet; Arcadia (3, 4); Interfraternity Council (3, 4); Alpha Phi Omega; Industrial Engineering Society; President, Kappa Sigma

"Peaches" Werden was a Purdue boilermaker freshman but a Lehigh man for the other three years. A devoted follower of the sports section—played a terrible game of bridge—still worse at ping-pong—studied on the side (at the Maennerchor). Still in all—a pretty good fellow.

KEMBLE WIDMER

Kem

Arts

Fishburn Military School

When Kem came to Lehigh he entered the C. E. Department with the idea of burrowing into the books. He burrowed his way through South Mountain to Bill Hall and the Geology Department. Kem plans to go West to continue his studying where bigger and better burrowing is done.

WILLIAM C. WILKINSON, JR.

Wilkie

Dayton, Ohio

Sigma Nu

Industrial Engineering

Oakwood High School

Assistant Manager and Manager, Varsity Basketball (3, 4); Assistant Manager Football (1); Brown Key; I.E. Society (2, 3, 4)

You can't help but like him and you can't help but hear him. That's Bill, a mighty mite whose booming voice and pleasant personality have carried him to an esteemed place on the campus and drawn about him a host of friends. We wish him a great deal of success as he leaves us.

DANIEL BEMIS WILLIAMS

Dan

Minneapolis, Minnesota

Alpha Chi Rho

Arts

Washburn High School

Freshman Numerals, Swimming; Epitome Competition

Tall and lanky, Dan hails from the Gopher state. Thinks Minnesota has best football team. This Mid-Westerner at times has haunted the Library stacks, dragged friends on flying visits to the hinterland, been an exponent of Dutch bridge, and so he should successfully and gladly return to the West.

MARK WALTON WOLCOTT

Mark

Mansfield, Ohio

Beta Theta Pi

Arts

Mansfield Senior High School

Football (1, 2, 3, 4); Wrestling (1, 2, 3, 4); President, Beta Theta Pi; Cyanide; O. D. K.; Vice-President, R. W. Wall Pre-Medical Society; Vice-President, Alpha Epsilon Delta

With a determination to succeed, with plenty of energy to keep driving, with a congenial smile, and a pleasant word for everyone, Mark will continue climbing the ladder, making many friends on the way. A small but conspicuous figure on the gridiron and the wrestling mat. Truly worthy of being Lehigh's son.

HERBERT WORONOFF

Herb

Mt. Vernon, New York

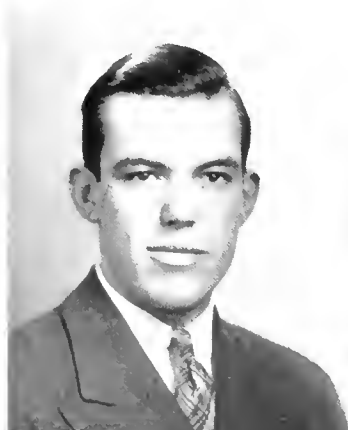

Tau Delta Phi

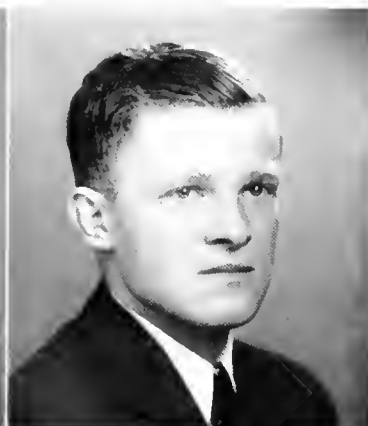

Arts

Port Chester High School

Brown and White; National Advertising Manager (3); Editorial Board (3, 4); Pre-Legal Society (2); Mustard and Cheese (1)

Herb came to Lehigh—so did Bill. Herb did well at Lehigh—so did Bill. Both are leaving Lehigh—and Harvard won't know which is Herb, and which is Bill either. We'll miss Herb; or is it Bill? Oh, hell! We give up.

WILLIAM WORONOFF
Tau Delta Phi

Bill
Arts

Mt. Vernon, New York
Port Chester High School

Brown and White (1, 2, 3, 4); Editorial Staff (3); Pre-Legal Society (2)

Bill came to Lehigh—so did Herb. Bill did well at Lehigh—so did Herb. Both are leaving Lehigh—and Harvard won't know which is Bill and which is Herb either. We'll miss Bill; or is it Herb? Oh, hell! We give up.

GEORGE YANKO
Pi Lambda Phi

Yank
Arts

Red Bank, New Jersey
Red Bank Senior High School

Editor-in-Chief, Brown and White (4); Editorial Staff (1, 2, 3); Review Board (2, 3, 4); President of Pi Lambda Phi (4); Cyanide; O.D.K.; Board of Publications (1); Student-Concert Series (4)

Starting as a Frosh reporter and making several honorary societies en route to the Editor's desk is George's record. It is secretly believed that Allentown and Easton have in turn fascinated him, but he graduates a true, unscathed Lehigh Man. His scholastic career clearly foretells a successful road for the future.

GEORGE EDWARD YEW DALL
Town

Ed
Electrical Engineering
Radio Society

Philadelphia, Pennsylvania
Olney High School

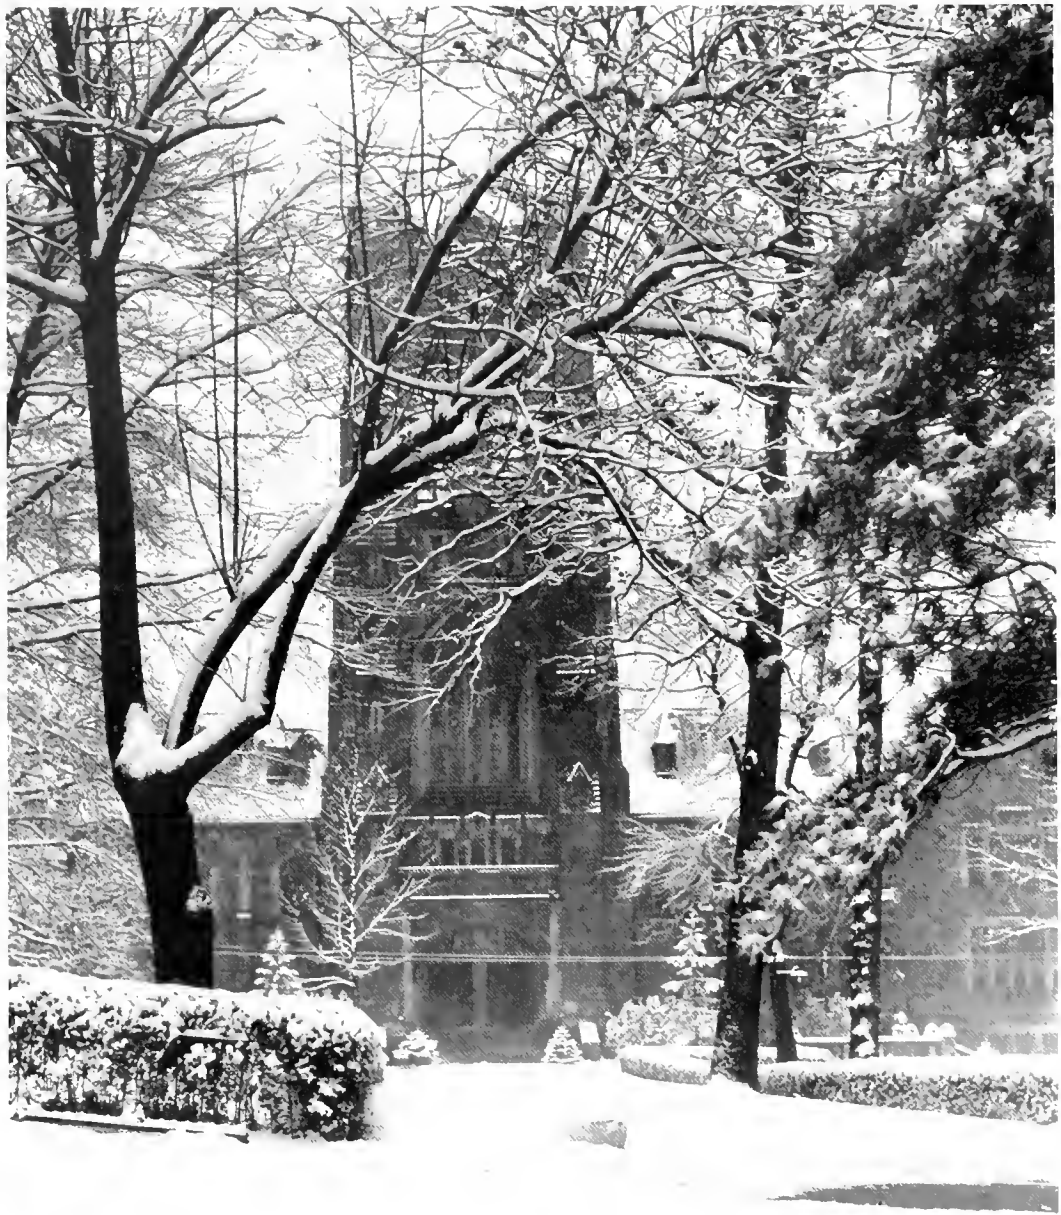

George or "Pappy" and his trusty pipe are a combination that we will miss seeing around the campus. No one has ever found much difficulty in starting a discussion on radio with George, and it is well known that George's true love is wrapped up in a coil and condenser.

From Undergrad to Alumnus

Instruction, Study, Larkin, and Eats

H. C. Milbank, President

Junior Class

J. P. Frey, Secretary-Treasurer

Yes, the Dean told us, too, that only half of us would graduate four years from date of entry. At least no one in our class went in to the Analyt final and drew a picture of a couple of radios, a streamlined automobile, and two locomotives as one ex-'37 man did. Our gang flunks out like gentlemen. Any '38er would surely have put down something about "X" and "y" in such a final. Well, we have a swell gang, and next year we'll get placed faster than any class that ever went to Lehigh!

Here's for our Senior year,
HARRY MILBANK.

One more year, and then—OUT. We have one hope, too, and that is to make this last year one to be remembered. It's hard to say where we will leave our marks, but I believe that it will be more than a few initials on a couple of round tables. Athletics, professors, fraternities, dorms, Joe's, and a few more places will realize that '38 is still here, and that it will seem quiet when we leave—we hope.

I'm hoping, too,
JOHNNY FREY.

Out to Back the Brown Bombers from Bethlehem

Sports, Research, Inspection Trip, and Vaccinations

E. C. Rabold, President

Sophomore Class

T. King, Jr., Secretary-Treasurer

From house parties to Honoraries '39 has been ever present. At parties we have shown great aptitude as genial hosts, and great lovers (we can hold our girls against any snake competition). In honoraries we are well represented. The future will see us filling up the lines of Tau Bete, Phi Bete, Cyanide and O.D.K. as well as the positions of the captains of Industry—in spite of Lewis—later on.

Keep driving,

"KING" RABOLD.

We're young, but we're wiry. Many classes before us have gone this far and been unheard of except for a very fine account of what they would have liked to do in the Class History page of the EPITOME. '39 is different. We have done things. Look at our scholarship record, at our athletic record, and our activities record! They speak for themselves. O.D.K. will have a mighty hard time selecting the twelve men from our class.

Yours for more success,

TOMMY KING.

Never a Dull Moment

Night Life, Beauty Queens, and Cider

M. L. Diamond, Co-Chairman

Freshman Class

R. B. Wall, Co-Chairman

We are starting our life at Lehigh in a very much different atmosphere from that of our immediate predecessors. Ours is a class of recovery times, not a class of depression, and the difference in economic status is immediately apparent. Let's not let this difference change our prime interest in coming to Lehigh! We have a job to do, and a tough one it is. There is no doubt in my mind that we can come through like the other classes, and we will have lots of fun doing it, too.

Here's luck,

M. L. DIAMOND.

A year is almost gone, and we have that mark of a Lehigh man beginning to show up already. We have learned what to strive for, and have already attained a small degree of success. Scholastically little is really known about us. Some will go up, some down. We have great potentials, however, and I am sure we will plow through our work and play here in a manner which will make us well known to everyone.

Expecting great things,

R. B. WALL.

Living Groups

Alpha Phi Rho

Alpha Chi Rho Fraternity has as its birth place Trinity College, at Hartford, Connecticut. The fraternity was founded June 4, 1895, by the Rev. Paul Ziegler, William A. Eardley, C. G. Ziegler, and William A. Rouse. Since its founding, the fraternity has experienced steady growth.

The Phi Mu chapter of Alpha Chi Rho, at Lehigh, was organized in 1918. Its origin may be traced to the local fraternity, Theta Delta Psi, which had been founded several years before. This local fraternity petitioned Alpha Chi Rho, and the Phi Mu chapter was installed at Lehigh.

The Lehigh chapter, in common with the other chapters of Alpha Chi Rho, has a strong and distinctive alumni association. The graduates of the chapter are bound together in a graduate chapter. This graduate chapter is governed by a committee and acts in an advisory capacity to the resident chapter.

The first chapter house of Phi Mu was located at 454 Vine Street. This house became unsuited to the needs of the chapter, and three years later the chapter moved into a larger house at Third and Wyandotte Streets. The facilities of this house also proved to be inadequate to the needs of a growing fraternity, and in 1923 Skeer's mansion, at Third and Cherokee Streets, was purchased. Ten years later a further expansion was found to be necessary, and the chapter moved to its present location on the corner of Linden and Market Streets.

In order to maintain a closer contact between neighboring chapters, inter-chapter banquets and dances are held each year. Inter-chapter sports are also played.

Phi Mu has been well represented in extra curricular activities. In publications we have at present several men on the Brown and White staff and on the Review board. In athletics, we are represented by lettermen on the football, basketball, tennis, and swimming teams. In honorary societies, Phi Mu is represented by members of O. D. K., Alpha Kappa Psi, Alpha Epsilon Delta, Pi Delta Epsilon, and Alpha Phi Omega.

Alpha Kappa Pi

Alpha Kappa Pi was founded at the Newark College of Engineering, Newark, New Jersey, on January 1, 1921. The fraternity was then a local group known as Phi Delta Zeta.

In the fall of 1925, representatives from Phi Delta Zeta and Alpha Kappa Pi, then a local fraternity at Wagner College, Staten Island, New York, met for the purpose of organizing a national fraternity.

Up until that time both of these fraternities had flourished as locals, but entirely unknown to each other. However, both had a common aim and purpose—that of petitioning a national fraternity for membership and chapter privileges.

It was at the suggestion of Dr. Albert Hughes Wilson of New York City, who knew the expansion policies of older fraternities, that these two groups were brought together not to petition another fraternity for membership, but to form a national fraternity of their own.

As a direct result of the suggestion, the two locals decided to form their own national fraternity. The organization was completed on March 23, 1926, with the Alpha chapter being placed at Newark and the Beta chapter at Wagner. The fraternity now has twenty-five active chapters.

In February, 1927, a group of nine Lehigh men who had been living and eating together secured a home and took new associates with them for the purpose of organizing a living group. Later that spring the group petitioned the University for recognition, and the president of the group was granted permission to sit in Arcadia meetings. The members of the group chose Howard Hall as their name, and existed as such until installed as the Nu chapter of Alpha Kappa Pi national fraternity on February 1, 1930.

In 1929, the group saw the benefits to be derived from joining a national organization, and it was at this time that application was made to Alpha Kappa Pi for a chapter charter. The petition was granted in February, 1930, when twenty-six men were initiated as charter members of Nu chapter. The chapter house was then located at 511 Seneca Street, but moved to its present address at 511 Delaware Avenue in March, 1933.

Alpha Tau Omega

The Alpha Tau Omega fraternity was founded in Richmond, Virginia, on September 11, 1865, by Otis Allan Glazebrook, Alfred Marshall, and Erskine Mayo Ross. The first chapter was established at the Virginia Military Institute at Lexington, Virginia. In 1879 the fraternity was incorporated under the laws of the State of Maryland.

The first chapter of Alpha Tau Omega in the North was established at the University of Pennsylvania in 1881. Dr. Edgar F. Smith, provost of the University of Pennsylvania, was instrumental in the installation of this chapter, although he was a member of another national fraternity. N. Wiley Thomas, the first initiate of the new chapter, installed a chapter at Muhlenberg in 1881, and on March 20, 1882, he established the Pennsylvania Alpha Rho chapter at Lehigh.

Alpha Tau Omega was the second fraternity to come to Lehigh, and was at first located in town. However, for the past twenty-one years the fraternity has occupied its own house on the campus.

Alpha Tau Omega has tried to maintain during the past four years a policy of representation in every activity in the school. It has been especially successful in athletics, both in active participation and in managerships. As becomes a strong house, its best records are in the two major sports, with three letter men in football and three in wrestling. It can boast also a football manager, a captain of tennis, and letter men in soccer, baseball and track. Alpha Tau Omega has been active in student government and politics, having had a president of the class of '38, a secretary of the freshman union for the class of '39, a vice president of Arcadia, an officer of the Lehigh Union, and an officer of the Interfraternity Council. There have been four Alpha Taus on the Brown and White board. Nine of the fraternity regiment have won recognition by election to Scabbard and Blade, and one, the final distinction of the Captaincy.

During the past four years, four Alpha Taus have been elected to Cyanide, two of them holding offices in this organization: two to Alpha Kappa Psi, and two to O. D. K. With its fine Freshman delegation, Alpha Tau Omega looks forward to swelling this activities record in the next few years.

—UNIVERSITY CAMPUS—

Beta Kappa

The Beta Kappa fraternity was founded at Hamline University, St. Paul, Minnesota, in 1901 by D. Paul Rader, Edward T. Marlette, Albert T. Spencer, and Charles H. Wallace. In a few years definite plans for expansion were completed, and at present there are over thirty-five active chapters in the United States. Present prospects indicate that the number of chapters will increase in the future.

The Alpha Sigma chapter of Beta Kappa was originally known as Omega Phi Sigma. In 1933 this local petitioned Beta Kappa. The petition was granted, and in May, 1934, Omega Phi Sigma was installed as Alpha Sigma of Beta Kappa. The Lehigh chapter was first located at 821 Delaware Avenue, but due to rapid development was forced to move to more spacious quarters at 305 Delaware Avenue.

The Lehigh chapter has an active alumni organization as have all the other chapters of Beta Kappa. All our graduates are bound together in an alumni chapter which acts as an advisory council for our members.

The Lehigh chapter has been rather successful during the past few years with its members well represented in campus activities. Although Alpha Sigma has not harbored any outstanding athletes for the past several years, its members have distinguished themselves in other ways. Several of its members have held distinguished positions in campus organizations both in the past and present. Alpha Sigma chapter now includes among its members the secretary of Delta Omicron Theta, a member of Pi Mu Epsilon, and members represented in course societies.

Beta Theta Pi

Beta Theta Pi was established at Miami University, Oxford, Ohio, in 1837 by John Reilly Knox, who, with seven other undergraduates, organized the national fraternity.

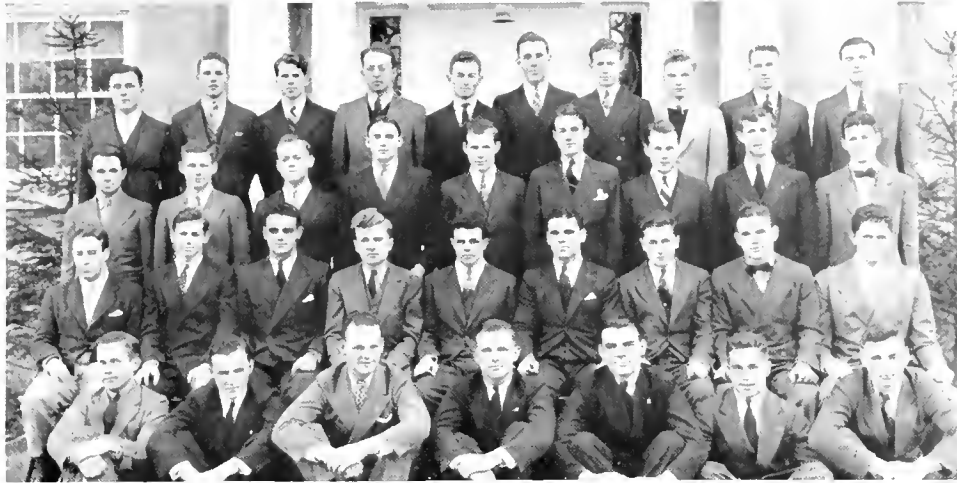

The seat of government rested in the parent chapter for about eight years after its founding. In 1879, the reins of authority were put into the hands of a board of directors, consisting of nine men.

Beta Chi chapter was organized at Lehigh University in 1891 by Peyton B. Winfree, a transfer from a now defunct chapter at Randolph-Macon with the assistance of two other Beta transfers. These three, with eleven other students, petitioned the national convention, and in 1891 a charter was granted them.

Beta Chi's first house was a small structure, now long since vanished. In 1902, the Beta's secured a house on Wyandotte Street, which they occupied for sixteen years. From here, they moved to East Church Street and then to the new house on the campus in 1926.

Beta Theta Pi has tried to maintain representatives in various extra-curricular activities. The Lehigh chapter now includes among its members the Vice President and Secretary of Alpha Epsilon Delta, President of Eta Kappa Nu, Editor of the Freshman Handbook, News Manager of the Brown and White, lettermen in football, soccer, wrestling, and captain of the varsity baseball team.

Chi Phi

As early as the thirteenth century the clergy and scholars in certain small towns of Bavaria, opposing an oppressive state government, banded together under the name of Chi Phi. During the reformation in Germany, "chapels" of a secret organization called Chi Phi are known to have existed throughout the hamlets of the old German states. Later, in England, secret coteries of educated gentlemen who favored the Stuart cause were known among themselves as Chi Phi. Coteries or chapels of Chi Phi again appeared in the American colonies and thrived during the American Revolution. Some existed until the Civil War. The actual constitution, dated 1824, at the chapel of the College of New Jersey, now Princeton University, is in existence today.

Was it mere coincidence, then, that in 1860 three different societies at three different Universities should be found calling themselves Chi Phi? Or that, upon investigation, their rituals, secrets, and purposes should be strangely similar? The three societies banded together in 1872 to form a single entity, as Chi Phis always seem to have done.

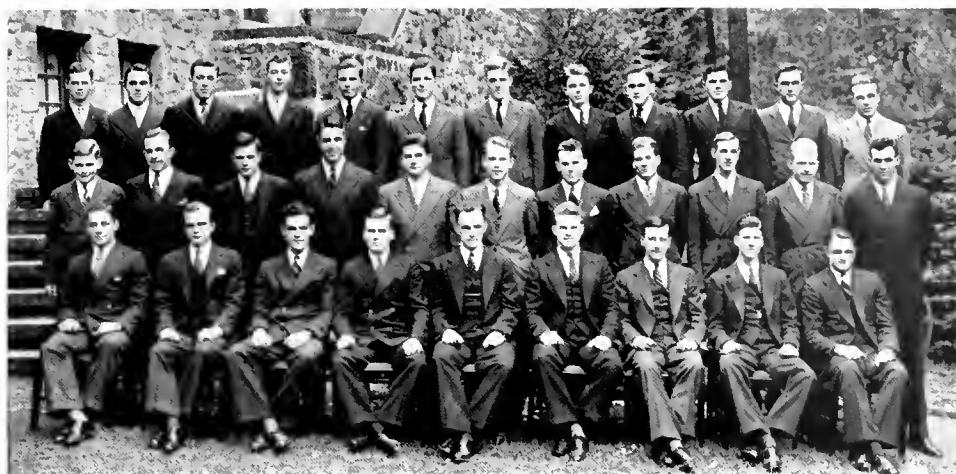

A similar group of co-minded fellows formed the Calumet Club in the dawn of Lehigh, and it was this organization which in 1872 became the first fraternity in the University—Chi Phi.

But perhaps the most significant part of the history of these two Greek letters is the fact that the men who walk through the halls of the present Chi Phi house have with them the same feeling of comradeship, that same congeniality of spirit, that same idea of doing things together as existed in the Chi Phi chapels of Bavaria seven hundred years ago.

Chi Phis are seldom seen alone, but rather in pairs or groups. You will find them in activities or class rooms always deep-rooted in fellowship, always working together towards a common goal. They count their friends from every corner of Lehigh, throughout every fraternity house, throughout every college.

X Φ

And who is to say but what it is this spirit of friendship and this community of interests which assured their long existence in the past, and which insures their long continuance into the future?

Chi Psi

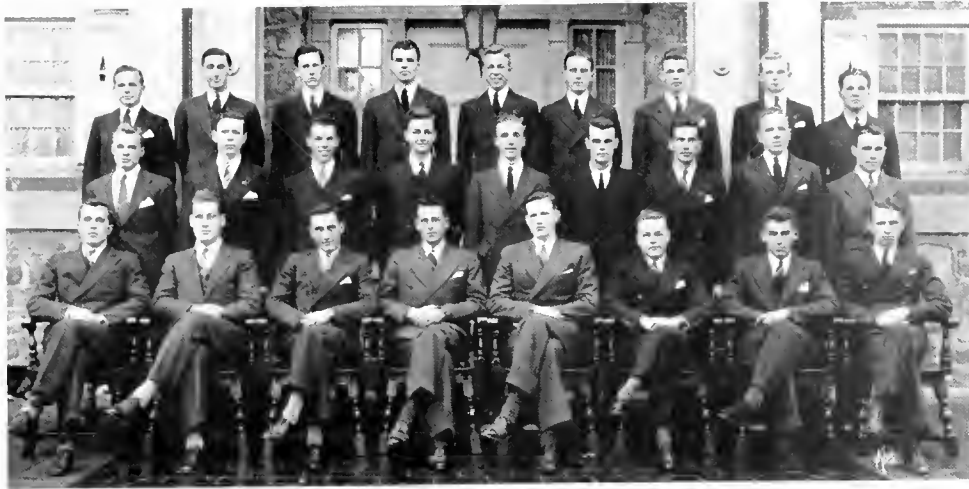

Nearly a century ago ten students at Union College, realizing the deficiency of undergraduate life in affording an elevated and refined mutual friendship, banded together and in 1841 founded the Chi Psi fraternity. The aims and ideals of the founders form the ultimate goal of each chapter, and the prime requisite for membership is embodied in the word "gentlemen".

Adhering to a policy of extreme conservatism in growth, Chi Psi today has twenty-five closely linked chapters, established in the larger colleges and universities from coast to coast. Each individual chapter, as a result of the determination to place quality above quantity, is strengthened by the tightly cemented bonds between chapters. Two other links, also influential in maintaining such a nationally united organization, are the alumni associations, which exist in all large cities; and a central national office, through which is published a quarterly magazine, distributed to every living Chi Psi. This national office inaugurated a system of fraternity visitors, which aids in maintaining contacts between chapters, and between actives and alumni. These three factors—conservatism, alumni associations, and a central office—are the principal reasons which make Chi Psi one of the few fraternities strong enough to preserve an influential chapter at Yale.

Alpha Beta Delta of Chi Psi was founded at Lehigh in 1894 by nine undergraduates. The first local meetings, mostly of a literary and scholastic nature, were held in members' rooms. It was not long, however, before a fraternity house on Seneca Street was obtained, and in 1915, the alumni erected the present lodge in Sayre Park.

With a firmly grounded scholastic standing, Alpha Beta Delta has continued its reputation as being outstanding in extra-curricular activities. In the last three years Chi Psi has had representation in nearly every honorary at Lehigh. During that time the fraternity has had members of O. D. K., Tau Beta Pi, Phi Beta Kappa, Alpha Kappa Psi, Alpha Epsilon Delta, Pi Delta Epsilon, Eta Sigma Phi, Cyanide, Scabbard and Blade, and the Robert Blake society. Chi Psis have been on the board of all five university publications, and have participated in swimming, football, track, wrestling, lacrosse, and tennis.

Delta Phi

The Delta Phi fraternity, third in order of establishment of American college fraternities, was founded at Union College on November 17, 1827. For many years the new society was met by vigorous opposition from the college, which was determined to eradicate this new order of social society. However, the men who had founded the Delta Phi fraternity were not willing to see their work go for naught. So with the aid of John Jay Hyde, who acted as spokesman, the fraternity problem was presented before the faculty and trustees of the college. The aims and object of the fraternity were of such a high type that the faculty and trustees were convinced that the continuance of such societies as Delta Phi would be beneficial to the college and as a result gave permission for its development.

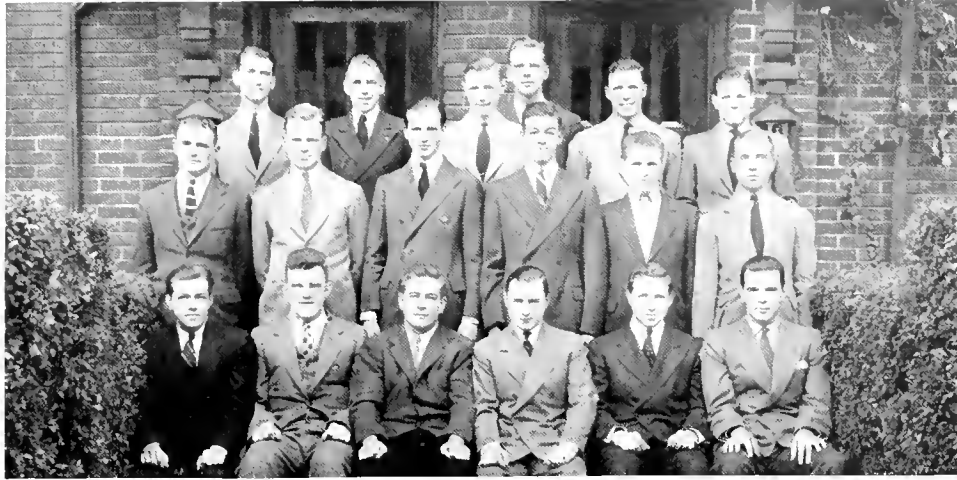

The objects and purposes of the founders were "to consolidate their interests and at the same time mutually benefit each other," to maintain high standing as students and gentlemen, and to foster cordial and fraternal relations. Delta Phi has closely adhered to its aims and purposes, keeping true to tradition. It has been conservative in the founding of chapters and has not sought to establish itself generally throughout the country, remaining essentially an eastern fraternity. Even in the East it has been kept small, having only fifteen active chapters in the leading colleges and universities.

The Nu chapter of Delta Phi, the fourth fraternity to be established here, was founded at Lehigh in the year 1884, by six boys, who believed that they could further their interests by petitioning to Delta Phi for a charter. The charter was granted and the fraternity prospered as the University expanded. However, true to the ideals of the national organization the local chapter has always kept its membership small, thus effecting a more congenial group.

The fraternity has always been active in campus activities, social, scholastic, and athletic, usually having a few men representing them in each of the extra-curricular divisions. This year there are four men singing with the Glee Club, and one playing with the band. There are three men on the soccer squad, with a few trying for berths on the wrestling team.

There are men on the rifle, fencing, and tennis teams, and still others in the various honorary societies. The fraternity cannot be said to lack diversity of interest in extra-curricular activity.

Delta Sigma Phi

The Delta Sigma Phi Fraternity was founded at the College of the City of New York on December 10, 1899. The mother chapter, called "Insula," was later named Alpha. The three original chapters of the college of the City of New York, Columbia University, and New York University formed a strong basis for further expansion.

The fraternity, as so created, was conceived in the new hope of the dawning twentieth century, that it should fulfill the desire of serious young college men for fellowship and brotherhood, with as near a practical-working ideal as possible, not fettered with too many traditional prejudices and artificial standards of membership and accompanied by a clean, pure, and honorable home life.

Since the forming of the original chapters, the fraternity has enjoyed continued expansion, until at the present time there are over fifty chapters in the leading colleges and universities throughout the United States and Canada.

The Beta Theta chapter originated approximately fifteen years ago from a society of senior engineers which was called "Sigma Iota." The growth of the group led to a change in name and it became known as the Phi Delta Pi society. In 1929 they obtained the present house on Delaware Avenue. Subsequent rapid growth and expansion led to petitioning for admission to the Delta Sigma Phi National fraternity. The charter was finally granted in the fall of 1931, and the installation followed early in the fall of 1932.

ΔΣΦ

The chapter advanced rapidly, and there has been constant improvement since its founding. The academic record of the fraternity has been for a long time a source of pride to its members and alumni. Beta Theta chapter is well represented in all extra-curricular activities.

Delta Tau Delta

Delta Tau Delta was founded at Bethany College, West Virginia, in the spring of 1858, but it was not until the following spring that an efficient organization was effected. Several chapters were installed shortly thereafter. A combination with the Rainbow Society of the W.W.W. fraternity was effected in 1886. The latter organization had its beginnings at the University of Mississippi in 1848 as an anti-abolition group. In honor of this union, the official organ of the fraternity was changed from "The Crescent" to "The Rainbow."

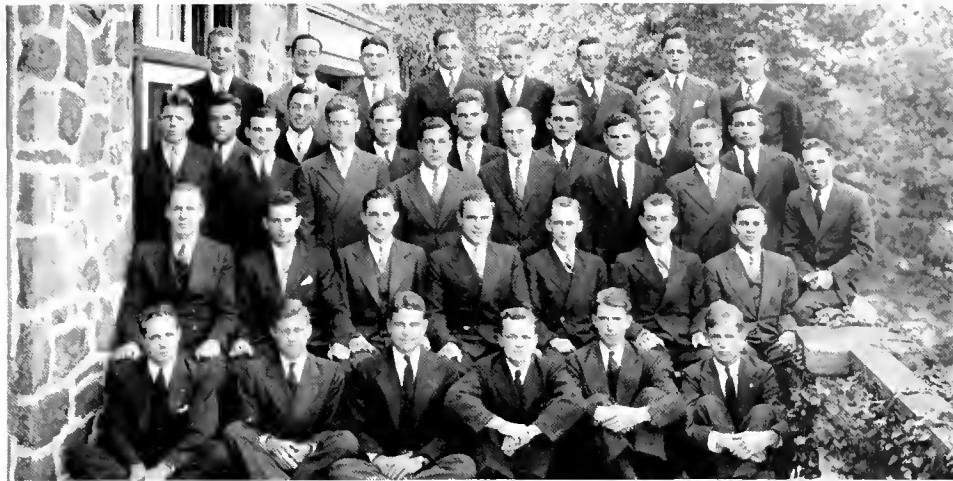

At present there are seventy-five active undergraduate chapters with a membership in excess of 3,000, and an alumnus membership of over 30,000. There are sixty-six alumni chapters in most of the leading cities of the country.

Pi chapter was instituted at Lehigh University in 1872, but its charter was revoked in 1881. It remained inactive for five years, until it was incorporated as the Beta Lambda chapter by James Cullem, James McClurg, George Zalmeiser, Alexander McClurg, Herbert Lamberton, George Case, and Charles Case.

The first house to be occupied by the new chapter was the residence now used by the University Club. Later the location was changed to the site of the present Sigma Alpha Mu house. Here it remained until 1914, when through generous subscriptions of alumni, under the competent leadership of Henry Campbell, a new house was built on the campus. This was the second fraternity house to be built on the Lehigh campus.

The present chapter of Delta Tau Delta is extremely active in every phase of student life. The chapter has among its actives two members and the President of O.D.K., President, Secretary, Business Manager and Technical Director of the Mustard and Cheese Club, Business Manager, National Advertising Manager, Columnist, and member of the Editorial Council of the Brown and White, member of the board of the Review, two members and President of Pi Delta Epsilon, five members of Cyanide, Student Director and two members of the Band, three members of the Glee Club, Business Manager and board member of the Handbook, two members of Tau Beta Pi, two members of Scabbard and Blade, three officers in course societies, and men in football, soccer, cross country, basketball, track, cross country, and tennis.

Delta Upsilon

Delta Upsilon was the sixth fraternity to be established at Lehigh and is among the oldest nationally, having been founded at Williams College in 1834 as The Anti-secret Society. When the Lehigh chapter was installed by a committee headed by Charles E. Hughes, Brown '81, in 1885, Delta U had become prominent in eastern colleges. About this time the attitude of the fraternity changed to a policy of non-secrecy, which is still its principle. There are now sixty-one active undergraduate chapters scattered throughout the United States and Canada, and a total of 30,000 brothers all over the world. Delta Upsilon was the first house to be built on the Lehigh campus, after having first occupied several houses in town.

The local chapter has for many years been one of the strongest in its Province, this strength being based on the well-rounded college careers of its members. The fraternity's slogan is "Delta Upsilon in everything, and every Delta U in something." Last year while ranking first in scholarship among all the fraternities, the chapter had thirteen lettermen. This year among the D. U.'s are: the Captain of the football team, two members of O. D. K., manager of the soccer team, editor of the EPILOGUE, three members of Tau Beta Pi, one member of Cyanide, the President of the Sophomore Class, the Secretary-Treasurer of the Junior Class, and Head Cheerleader.

Δ Y

The chapter has lettermen and managers in football, soccer, basketball, tennis and fencing, and members of the EPILOGUE staff, Brown and White board, and the Mustard and Cheese Club. Sons of the Gold and Blue uphold their slogan.

Kappa Alpha

"What brings us thronging these high rights to pay,
And seal these hours the noblest of our year,
Love that our brothers found this better way."

(Commemoration ode written for the Centennial celebration of the founding of the Kappa Alpha Society.)

In the year 1825, the nine students of Union College, with John Hart Hunter as their leader, were instrumental in the founding of the Kappa Alpha society. This new society was the first secret society of a social and literary order to be formed in an American college, and it became the example for the formation of numerous other secret societies both at Union College and elsewhere. Despite strong opposition to its secret nature the society prospered until today there are eight active chapters.

At Lehigh, after nearly a year of effort in order to obtain a charter, three members of the class of 1895, James E. Brooks, Henry E. Kipp, and Charles F. Maurice, finally petitioned the Kappa Alpha convention of 1893. Their petition was accepted, and the Alpha Chapter of Pennsylvania was established at Lehigh. Six original petitioners were initiated on January 2, 1894, at a ceremony held at the Masonic Temple in New York City. Three others were initiated the following February.

The present members of Kappa Alpha society are not without representation in extra curricular activities. In student government the offices of Vice President of Arcadia and Vice President of the Freshmen Union are held by Kappa Alphas. In organizations the fraternity has the Chairman and founder of the Lehigh Republican Club, the President of the Outing Club and members in the Band, Glee Club, and Brown Key. Members of Kappa Alpha are also in Tau Beta Pi, Pi Tau Sigma, and Scabbard and Blade. There also is representation in publications and sports.

Kappa Sigma

Five students of the University of Virginia, desiring to cement their friendship, founded the Kappa Sigma Fraternity on December 10, 1869. These men, Frank Courtney Nicodemus, William Grigsby McCormick, John Covert Boyd, Edmund Law Rogers and George Miles Arnold have always been known in the history of the fraternity as "the five friends and brothers." From the beginning Kappa Sigma's expansion has been consistent and rapid. There are at present 106 active chapters, located at the best colleges and universities in the country. There are organized alumni chapters in the principal cities.

In 1900 a group of eleven prominent graduates at Lehigh, desiring association with a national fraternity, petitioned and were accepted into Kappa Sigma. They were installed as the Beta Iota chapter during a national conclave on November 19, 1900.

Beta Iota, with its spirit of personal friendship, soon became active in Lehigh affairs. The chapter flourished in its first house, on Delaware Avenue, but was forced by an unfortunate fire to move to the Chapman House at Church and High Streets.

The chapter returned to Delaware Avenue when it moved into the old home of E. P. Wilbur. Later it moved to the present Knights of Columbus home on Fourth Street. In 1926 the chapter moved to its present house at 24 East Church Street, the former residence of Archibald Johnson.

Lambda Chi Alpha

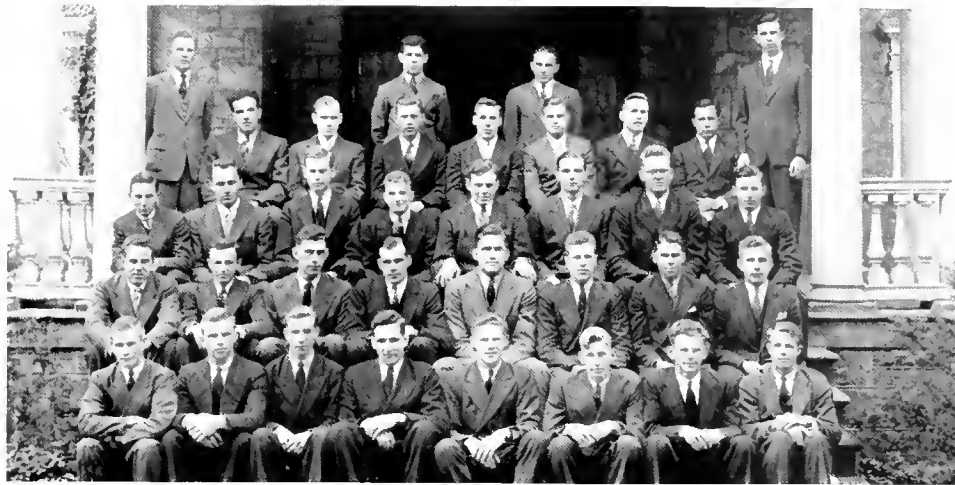

The Alpha Zeta of Lambda Chi Alpha was first organized by three law students at Boston University in 1909. Three years later, the installation of an additional Zeta and the appointment of an expansion committee marked the beginning of the growth of the fraternity. Today there are over eighty chapters of Lambda Chi Alpha in the United States and Canada.

The founding of a local fraternity, Delta Theta, by three Lehigh students took place in the spring of 1922, and four years later, the members of the local fraternity petitioned to become brothers of a Lehigh Zeta of Lambda Chi Alpha. The interest of the local fraternity in the national fraternity was heightened by the visits of several members to the Rutgers chapter. In 1926, under the sponsorship of the Alpha Theta Zeta of Franklin and Marshall, Delta Theta became the Gamma Psi Zeta of Lambda Chi Alpha.

The rapid growth of the Lehigh chapter from a small local fraternity necessitated the occupation of three different houses. Before admission into the national fraternity, the members of Delta Theta had occupied a house on Packer Avenue. With an increase in membership, it became necessary to move to a larger house on Montclair Avenue. While here, they became affiliated with Lambda Chi Alpha. The purchase of the present house of the Lehigh Zeta on Delaware Avenue was accomplished the following year.

ΛΧΑ

During the short time that Lambda Chi Alpha has been in Lehigh, its members have taken an active interest in the affairs of the University. This interest has been augmented by the activity of a strong alumni body.

515 DELAWARE AVENUE—

Phi Delta Theta

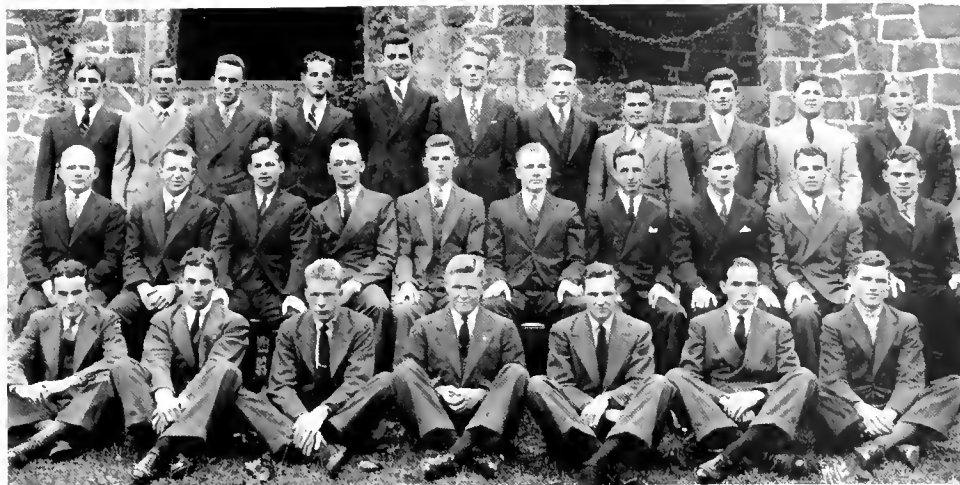

Phi Delta Theta was founded at Miami University, Oxford, Ohio, in 1848. The Bond of Phi Delta Theta contains the cardinal objects of the fraternity: friendship among the members, and the individual acquirements of a high plane of mental and moral culture. This statement was written by two of the founders, and has never been altered. Expansion of Phi Delta Theta as well as of other Greek letter societies was slowed up by the Civil War, after which time numerous chapters were installed in the East and the South. The policy of the fraternity is one of conservative growth. Phi Delta Theta now has 105 chapters and has the highest membership of any college fraternity.

Pennsylvania Eta of Phi Delta Theta was founded at Lehigh in 1887, and its members were initiated by the Lafayette chapter. Charter members of the Pennsylvania Eta were R. P. Barnard, E. H. Beazell, C. Burkhardt, F. R. Coates, M. H. Tehnel, J. J. Lincoln, C. H. Miller, T. F. Newby, T. A. Straub, and A. T. Throap.

Phi Delta Theta has had three chapter houses at Lehigh. Its present home is on the campus and is built entirely from the stone of South Mountain, on which it stands.

Members of Phi Delta Theta are active in extra-curriculars as well as course societies. Last year Phi Delta Theta won the Inter-fraternity cup for all around intramural activities.

Phi Gamma Delta

Phi Gamma Delta was founded at Jefferson College, April 22, 1843, by J. T. McCarty, J. Elliot, D. W. Crofts, N. Fletcher, E. B. Gregg, and S. B. Wilson. These men, all members of the same debating society, decided to form a secret fraternity. The first meeting was held in McCarty's room where they drew up the constitution and founded the chapter.

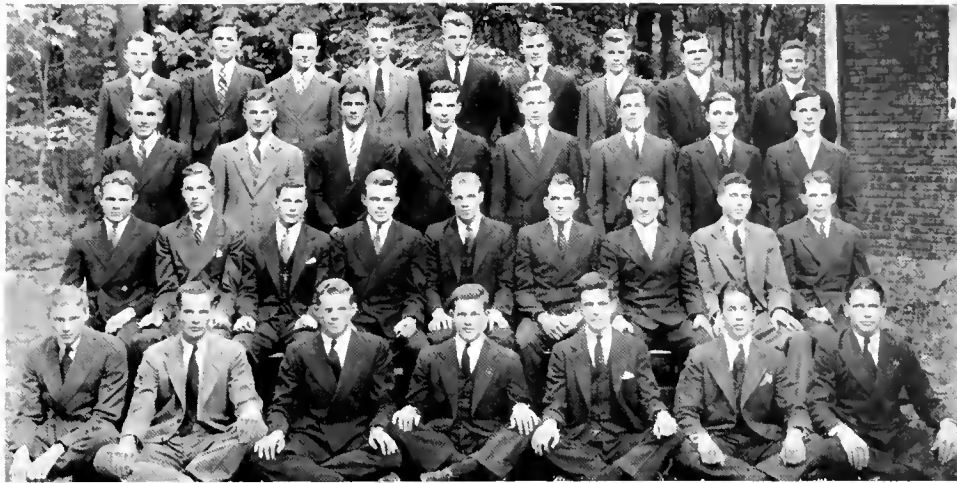

Phi Gamma Delta started to grow at once and has continued to expand to its present seventy-four chapters which are located in the leading universities and colleges of the United States and Canada.

In 1885, Major Frank Keck and J. W. French of the Columbia chapter planned a chapter at Lehigh. These two men interested four Lehigh undergraduates in petitioning for a charter which was granted on December 10, 1885.

Major Keck and eleven of the Columbia chapter initiated the first man on January 15, 1886 at Lafayette. Later on, the first class was pledged and Beta Chi was firmly established at Lehigh.

ΦΓΔ

Beta Chi's first house was located on Market Street. Later a larger house was procured on Cherokee Street. Finally the alumni built our present residence on the campus.

—UNIVERSITY CAMPUS—

Phi Sigma Kappa

Phi Sigma Kappa fraternity was founded at Massachusetts State College on March 15, 1873. During the first five years of its existence, it had no Greek name, but was generally known as the three "T's". The organization became national in a short while and now numbers forty-eight chapters.

In the main, the difficulties in developing a national organization were overcome by 1900. At that time, there were twelve chapters which were well disciplined and organized. There had been developed a comprehensive system of national administration, and there was a fair measure of interest and support among the alumni.

Since 1900, the fraternity had steadily progressed. The chapter role has quadrupled. There has been a material increase in alumni interest, and today, Phi Sigma Kappa stands as one of the group of longest established national fraternities, a recognized leader in the field.

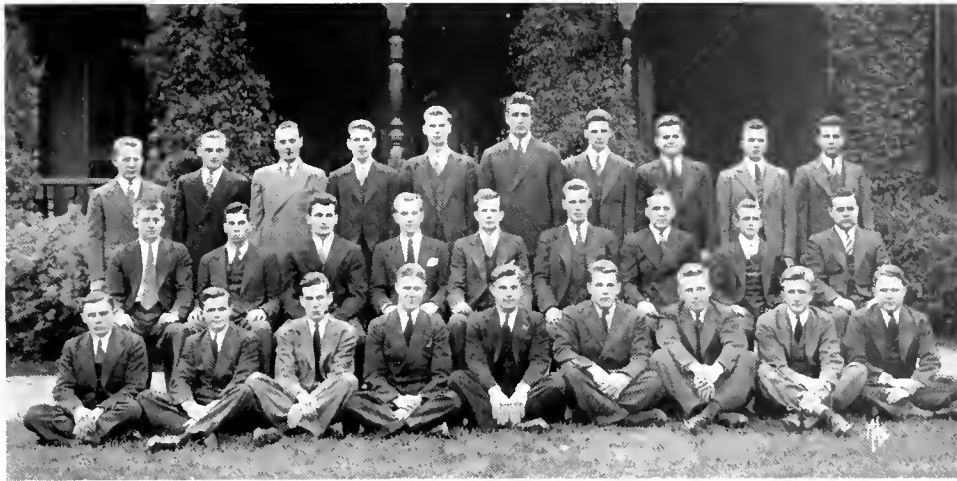

The chapter at Lehigh, Nu, was founded thirty-six years ago, and its career has been one of steady progress. Phi Sigs here are traditionally active, cosmopolitan, friendly. It may be said that practically every Lehigh man has a friend who is a Phi Sig.

Always strong in intramural competition, Phi Sigma Kappa two years ago won the most coveted trophy in Lehigh, inter-fraternity wrestling, and then went on to capture the bowling title. This year, with the pledging of an exceptionally strong freshman delegation, they expect to regain their laurels and add a few more.

There is hardly a sport at Lehigh in which Phi Sigs are not competing. Especially strong in track, the high scoring sophomore and freshman last year were Phi Sigs. They have not been without a letter-man in soccer since time immemorial. There are two men on the varsity football team, four numeral winners in frosh football and men on the varsity, freshman, or both, squads in baseball, basketball, wrestling, swimming, as well as managers or competitors in football and tennis. There is no boxing team at Lehigh, but two Phi Sigs possess intramural titles.

ΦΣΚ

Other extra-curricular activities find Phi Sigs in Scabbard and Blade, the Brown and White, Mustard and Cheese, Band, Glee Club, and the Lehigh Review.

Pi Kappa Alpha

The friendship of three Confederate soldiers, who fought together through the Civil War, provided the incentive for the founding of Pi Kappa Alpha fraternity at the University of Virginia in 1868. Due to the unsettled conditions of the South after the Civil War, the fraternity led a precarious existence for the first few years. A convention at Hampton-Sydney in 1889 of three of the four active chapters gave the fraternity new life, and since then it has expanded steadily. Until 1909 membership was limited to southern and southwestern states, but during that year all geographical restrictions were removed; and now Pi Kappa Alpha has seventy-eight chapters located throughout the country.

In December, 1924, a group of Lehigh students, becoming dissatisfied with dormitory life and desiring more intimate contacts with their friends, broke away from the old routine and founded the "Seal Club." This name was later changed to the "Lehigh Ivy Club." The original clubhouse contained a dining room, a living room, and living accommodations for only three men. In September, 1925, the club moved to larger quarters which had accommodations for twelve men.

In the early part of May, 1926, the Zeta Chi fraternity was founded by seven members of the "Lehigh Ivy Club." They were Arthur W. Canney and Merrill E. Welsh, 1927; Norman S. Young, Wesley W. S. Mueller, and Elmer H. Talbert, 1928; and Frederick Erlicher, 1929. On December 6, 1929, the fraternity became the Gamma Lambda chapter of Pi Kappa Alpha and was installed at 535 Montclair Avenue. In June, 1930, the chapter was moved to its present location at 306 Wyandotte Street.

Pi Lambda Phi

Twenty-one years ago, six men, dissatisfied with living conditions at Bethlehem and desirous of forming a group wherein they could perpetuate their college friendship, banded together to organize Lambda chapter of the Pi Lambda Phi fraternity. Those six men were Ellis Brodstein, Louis M. Levin, Julius M. Rapoport, Harold J. Solomon, Morton J. Kay, and S. Shirley Swadkin. Since then the chapter enrollment has steadily increased until now it includes twenty-six members. Prior to its becoming the Lehigh chapter of the Pi Lambda Phi fraternity, it was known as the Pioneer Club of Bethlehem. Since 1915, however, it has brought the name of its national fraternity into increasing importance at this University.

The parent organization was first founded at Yale University for the purpose of eliminating sectarianism in American colleges. Since the creation of the Alpha chapter in 1895 it has since expanded to eighteen chapters, of which Lambda is the ninth. The national fraternity is now located in every section of the United States and in parts of Canada. Headquarters are maintained in New York City. Lambda alumni now number well over one hundred fifty.

Until 1931 the chapter house was located at the corner of Market and Center Streets. At that time the fraternity moved to its present location at 827 Bishopthorpe Street, into what was then known as Bishopthorpe Manor. During its decade of existence, it has six times been awarded the Interfraternity Scholarship Cup donated by Phi Sigma Kappa, and has acquired numerous trophies for its skill in intramural activities. In the past, as well as the present, Pi Lam men have been and are active on the varsity football, baseball, wrestling, and tennis teams. Since 1917 the fraternity has been a member of the Interfraternity Council.

Psi Upsilon

In November, 1833, the Psi Upsilon fraternity was founded at Union College by seven undergraduates who had resolved to counteract the tendencies of the older secret societies by the formation of a broader and more liberal society. The first association was formed for election purposes, and the symbols, motto, and colors of garnet and gold were chosen.

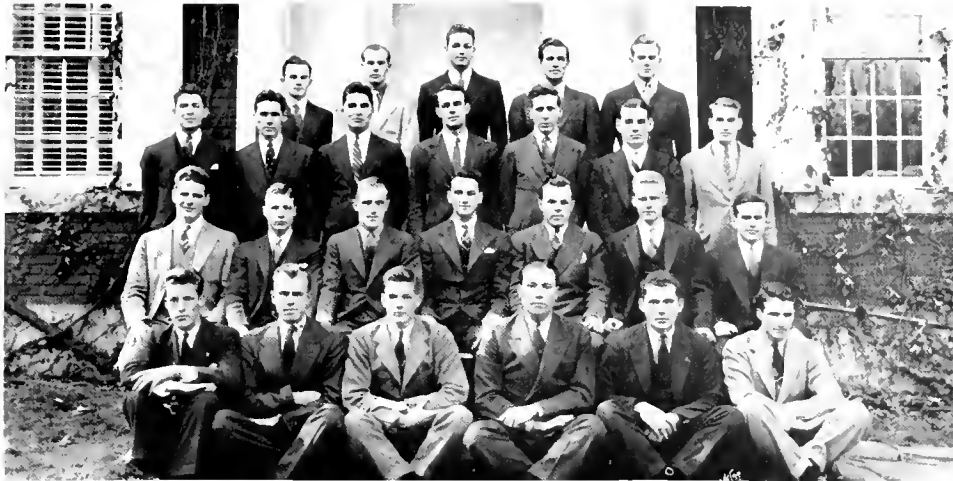

In one hundred and three years of conservative growth, Psi Upsilon has lost only two of her twenty-nine chapters, and these were at Yale and Harvard, where university conditions made it impossible for them to continue as part of a national organization.

In 1880 two members of Psi Upsilon on the Lehigh faculty, E. H. Williams, Jr., and H. C. Johnson, interested several undergraduates in petitioning the Psi Upsilon convention for a chapter charter. These men had organized as the Eta chapter of Phi Theta Psi. Their petition was granted in 1883, and the chapter was installed on February 22, 1884. In 1903 plans for the present house on Brodhead Avenue were drawn up by T. C. Visseher, '99. This house was occupied in the fall of 1909. In 1931 an addition enlarged the house to its present size.

The present chapter is active in campus life, and the interests of the men in the chapter include practically every phase of college activity. The president of the Lehigh Union, an important administrative office, is held by one of the men in the house. The house has been well represented in several recent Mustard and Cheese Club productions.

Ψ Υ

In the field of sports the chapter is represented on the soccer, wrestling, swimming, track, and baseball teams. A large percentage of the chapter members have received honors and have been elected to honorary fraternities.

Sigma Alpha Mu

In the spring of 1923, the local fraternity, Eta Alpha Phi, was installed as the Sigma Kappa chapter of Sigma Alpha Mu at Lehigh University. The first chapter house was located on Cherokee Street. Next, the home of Sigma Alpha Mu was established at the corner of Broadway and Seminole Street. Then a move was made to a new house on Wyandotte Street in 1925. Under the leadership of "Czar" Nehemiah in 1926, the undergraduates, with the support of the alumni purchased the present home at 506 West Third Street.

The first members of the chapter were Frederick Coleman, Benjamin Epstein, David Getz, Walter Grossman, Elheim Lang, Maurice Nehemiah, Clement Shifreen, George Sall, Barney Wollensky, and the present chapter advisor, Robert Lewis. Clement Shifreen was the first Prior.

Sigma Alpha Mu has the distinction of having as a member Lehigh's first national champion, Julius Seligson. Athletically and scholastically the chapter has ranked among the best. Two of the best pitchers Lehigh has had, "Scotty" Seltzer and Mort Strauss, were members of Sigma Alpha Mu. The chapter boasts also of the unprecedented honor of having had five captains in one year.

The past year has found Sigma Alpha Mu well represented in campus activities. Besides having men in many extra-curricular activities, she has had representatives in several of the honorary and course societies. Sigma Kappa of Sigma Alpha Mu has rigidly adhered to its principle "to foster and maintain among its sons a spirit of loyalty and devotion for Alma Mater, and to form a close social fraternal union of the Jewish students in the various universities, colleges, and professional schools in America."

Sigma Chi

Sigma Chi, one of the Miami Triad, was founded in 1855 by Thomas Cowan Bell, James Parks Caldwell, Daniel William Cooper, Isaac M. Jordan, Benjamin Piatt Runkle, Franklin Howard Scohey, and William Lewis Lockwood. With the exception of Lockwood, the founders had been members of the Kappa chapter of Delta Kappa Epsilon. They voluntarily withdrew from the fraternity after a disagreement with the other members of the house concerning the election of a member of the chapter for a school office. Associating with themselves William Lewis Lockwood, the seven announced the establishment of the Sigma Phi fraternity, apparently unaware that an eastern fraternity bore the same name.

The ritual and records of the new-found fraternity were stolen in 1856 by Greek-letter rivals at Miami University. This happening necessitated the preparation of a new constitution ritual. At the same time the fraternity's name was changed to Sigma Chi.

During the Civil War, seven "Sigs" enlisted in the Confederate Army, and banded together to form the most unique fraternal group ever organized. The group named themselves the Constantin Chapter. Their purpose was the perpetuation of the fraternity in the South regardless of the outcome of the war.

The Alpha Rho chapter at Lehigh was originally the Crimson Halberd Society. The Society petitioned the national fraternity in 1886. Since 1904 the fraternity has been located at 210 East Broad Street.

The Alpha Rho chapter of Sigma Chi has always held an honorable position not only among the other chapters of the fraternity, but also in the eyes of the other fraternities at Lehigh. The members of the chapter have always been prominent in extra-curricula activities having representatives on the football, basketball, baseball, track, soccer, swimming, and tennis teams; Lehigh publications; band; and Mustard and Cheese.

--240 EAST BROAD STREET--

Sigma Nu

Sixty-seven years ago the Sigma Nu fraternity was established at the University of Virginia. Its founders, led by James F. Hopkins, were mature men, and, moved by idealistic hopes, they founded a society which would inculcate honor and mutually benefit its members. The expansion of the fraternity throughout the South and West was rapid and was received by enthusiasm in the universities in those sections of the country.

Sigma Nu established a firm footing in the North and East when Pi chapter, its fifteenth to be formed, was founded at Lehigh University in 1885. From this time, Sigma Nu was in every sense a national fraternity, having active chapters in each section of the country. Its branches, ninety-eight in number, may be found in forty-six of the forty-eight states. Through this period of expansion from the date of its founding to the present time it has never lost sight of the principles of honor, brotherhood, and a true fraternity spirit which our founders set forth as the Sigma Nu standard.

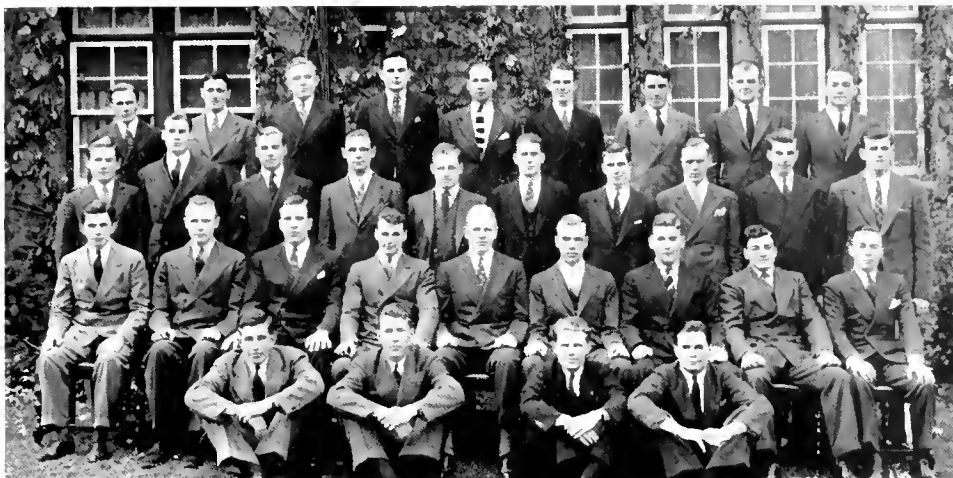

The first home of the Lehigh chapter was located on High Street in North Bethlehem. Due to the rapid expansion of its membership, a larger home on Church Street was purchased and from there the fraternity moved to a new location on Packer Avenue. Several months after this change, the University began to sponsor the movement for the erection of fraternity houses on the campus, and it was in 1915 that the present chapter house was first occupied. This was the second fraternity house to be erected on the University grounds.

The alumni of Pi chapter have aided greatly in the actual expansion of Sigma Nu throughout the East as they are directly responsible for the establishment of chapters at the University of Pennsylvania in 1894, at the University of Vermont in 1898 and at Lafayette in 1900.

During the past fifty-two years, Pi chapter has been filled with men whose leadership, versatility, and capability, not only in the house but on the campus, have enabled this chapter to hold her head high and retain her position among the leading fraternities at the University.

The ability of the present active group is such that among them have come campus leaders in athletics, managerships, student government, publications, dramatics, and scholarship.

Sigma Phi

The Sigma Phi society, founded at Union College in 1821, is the second oldest of the college social fraternities. Kappa Alpha, Sigma Phi, and Delta Phi, all founded within a few years of each other, are known as the Union Triad.

The Sigma Phi society has always followed a policy of conservatism, believing that a true spirit of friendship in any organization can prevail only when the size of the membership is limited. Because of this conservatism, only twelve chapters have been founded during the 110 years of the Society's existence. The active chapters are located at Union, Hamilton, Williams, Hobart, University of Vermont, University of Michigan, Lehigh, Cornell, University of Wisconsin, and the University of California.

In 1887, upon granting of a petition for a Sigma Phi charter to a local organization known as the Beta Beta Club, the Alpha of Pennsylvania was installed here, making this year the fiftieth anniversary of the founding of the Lehigh chapter. This was composed of a group of students who, dissatisfied with conditions in a social fraternity to which they belonged, had resigned and formed this new club with the distinct purpose of applying for a charter for a national fraternity. Twenty-six men were initiated at the installation ceremonies, among them being some of the chapter's prominent alumni.

$\Sigma \Phi$

The Sigma Phi society was the ninth national fraternity to install a chapter at Lehigh. The present chapter house, built in 1888, was the first to be built by any fraternity at Lehigh. In 1925 it was completely renovated and modernized.

Sigma Phi Epsilon

Sixteen members of a local society—Omega Pi Alpha, formerly Delta Epsilon—founded in 1908 the Lehigh chapter of Sigma Phi Epsilon. A charter was given by the national fraternity, then in its sixth year.

Because the parent chapter at the University of Richmond took in several students of theology, a very unusual occurrence, and because the badge was heart-shaped, members of the fraternity were known as "Sacred Hearts". Pennsylvania Epsilon was the seventeenth of seventy chapters eventually to spring up throughout the country.

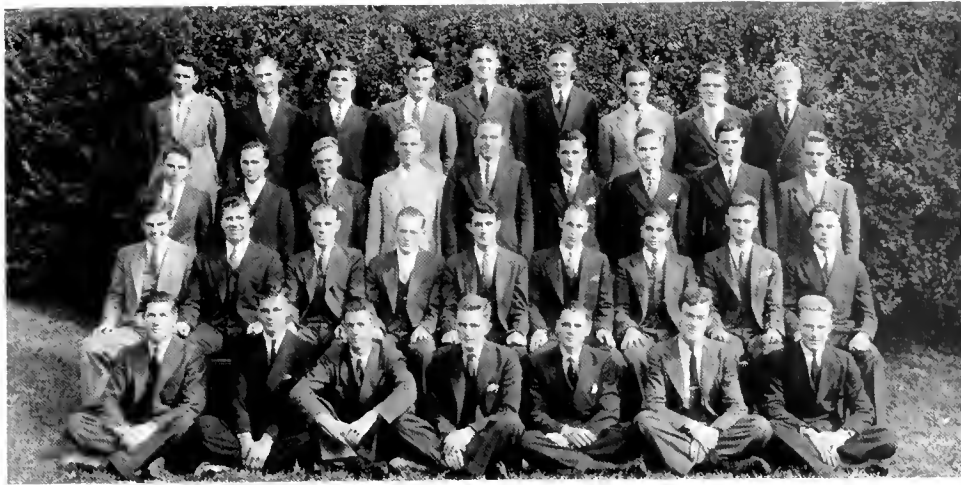

The first Pennsylvania Epsilon house was located on West Fourth Street. A few years later the chapter purchased a house on the northwest corner of Fourth and Wyandotte Streets, and in 1923 moved to 61 West Market Street, the present home. Two hundred and ninety Lehigh men have been initiated into Sigma Phi Epsilon in these twenty-nine years.

In a time of economic uncertainty, the chapter has succeeded in retrenching its finances and adding to its already enviable reserve. New furniture, fixtures, and decorating have been acquired.

Members of the house, which has been at its usual strength of thirty-two men, hold offices on the Brown and White, The Epitome, The Review, and Mustard and Cheese. There are men on the football, track, swimming, soccer, baseball, and cross-country squads. Cyanide, Phi Eta Sigma, Pi Delta Epsilon, and Pi Tau Sigma are honoraries numbering S. P. E. men among their members.

Even more valuable, though less spectacular, is the house tradition of internal friendship and unity, which has been demonstrated more than once in the past year. Alumni, revisiting their college home repeatedly, have kept alive the old ties. "Once a Sig Ep, always a Sig Ep."

Tau Delta Phi

Tau chapter of Tau Delta Phi was established at Lehigh in 1926 by a group of nine men who were dissatisfied with the prevailing fraternity condition. On January 8, 1927, the local, Upsilon Kappa, was inducted into Tau Delta Phi. Both have had a rapid growth since that time.

Tau Delta Phi was founded at the College of the City of New York in 1910, and expanded conservatively until 1933. At that time, Omicron Alpha Tau, another prominent national fraternity, petitioned Tau Delta Phi for admittance. Only five of the O. A. T. chapters were accepted, however, and now, after twenty-five years, Tau Delta Phi is represented throughout the United States and Canada by 25 active, well-knit organizations.

At the national convention of the fraternity last year, the Lehigh chapter was again awarded three cups, for outstanding merit in extra-curricular activities, scholarship, and leadership. Tau Delta Phi's prominence in journalism is shown by the fact that it has nine men on the Brown and White staff, the Past Chairman of the Board of the Freshman Handbook, and a man in Pi Delta Epsilon. In athletics we have representatives on the football, basketball, tennis, and track teams. In the various course societies, Tau Delta are in the International Relations Club, Robert Blake Society, and Pre-medical Society. Tau Delta also won cups for championship of their league in intramural baseball, and runner-up in basketball.

However talents have not been confined to extra-curricular activities only, for in past years Tau Delta Phi has always been among the highest in scholarship as evidenced by our representatives in Phi Beta Kappa, Pi Tau Sigma, and the Newtonian Society.

Theta Delta Chi

At Union College in 1847, Theta Delta Chi became the eleventh national fraternity. Much is to be said of its growth since that founding. Twenty-eight charges comprise the active enrollment, which has been kept low because of conservative policy. True friendship is possible in an organization only when the size of the membership is limited. In order to promote contact among alumni, the fraternity has maintained alumni clubs in many cities and communities throughout the country. Theta Delta Chi has proven itself to be a leader among fraternities in many ways. The fraternity was the originator of the use of the pledge button, the fraternity flag, the fraternity magazine, and the present Grand Lodge form of fraternity government.

Nu Deuteron Charge of Theta Delta Chi was founded by Charles Luchenbach, Horace Luchenbach, Mason Pratt, John Spengler, Charles Thomas, and Edward Van Kirk in 1884, to become the fifth fraternity established at Lehigh.

The present site of the chapter house on South Mountain was selected twenty years ago, and in 1919 the house was built by the House Association.

The fraternity is proud to count among its members such prominent alumni as Eugene Grace, President of the Bethlehem Steel Company; Walter Okeson, Chairman of the National Football Rules Committee; Prof. Harry Ullman, Head of the Lehigh Chemistry Department; and Alfred Glancy, Vice President of General Motors, and President of the Lehigh Alumni Association.

—UNIVERSITY CAMPUS—

Theta Kappa Phi

When, in 1916, a certain group of Lehigh students realized that mutual interests and habits constantly linked them together, several of them took steps to band together in a more formal manner. Then came the Great War, and with it came the cessation of their activities. After the war these men banded together once again, and formed a local chapter of the present name. Then in 1922, this chapter effected a union with another local chapter at Penn State; the Lehigh chapter becoming Alpha and the Penn State chapter, Beta.

Frederick Beck, Elliot B. Daniels, Joseph McBride, John Musdaskis, August Concilio, Gaspard Savaria, and Msgr. McGarvey were the charter members under whose guiding hand Alpha's policy of cautious expansion was begun.

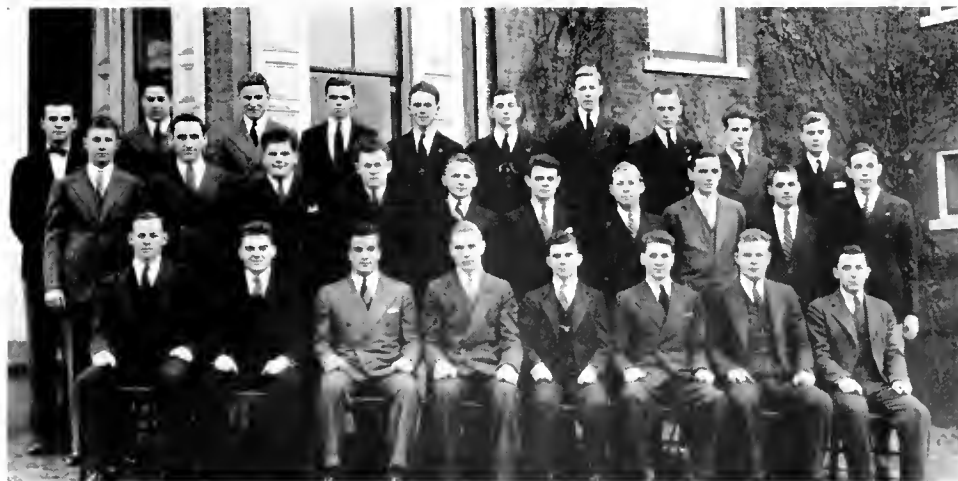

One may say of Theta Kappa Phi that it encourages the attainment of high scholastic standing, brotherly relationship, a spirit of good fellowship, and above all that it offers every one of its members that training which characterizes the University man. Such principles, established by the charter members, are cherished and observed with a faith which is far more than mere observance of duty.

The fraternity has been housed in two dwellings: the first one being on Vine Street, and the present one being at 685 Delaware Avenue. August Concilio and Msgr. McGarvey rendered advice invaluable in the establishment of the original house.

Although the fraternity does not stress extra-curricular activities, many members have voluntarily entered into these activities, and have been successful. Basketball, swimming, wrestling, baseball, track, and football are some sports in which Theta Kappa Phi has placed men. In other activities, some men have been members of Gamma and O. D. K., and Alpha has had its quota of sport captains.

ΘΚΦ

As Theta Kappa Phi forges ahead, the principles of good fellowship and university training guide its members throughout the fraternity, the college, and the Nation.

Theta Xi

The Theta Xi Fraternity was founded at Rensselaer Polytechnic Institute on April 29, 1864. It was the result of two dissenting factions within the then existing Sigma Delta fraternity, a local organization founded at Rensselaer in 1859. These dissenters, eight in number, withdrew from Sigma Delta and founded a new society, with the intention of making it national in scope. In accordance with this ideal Beta chapter was installed at the Sheffield Scientific School of Yale University, less than a year later. At first a strictly engineering society, Theta Xi ultimately came to include college students of all types. After a long period of conservative growth, it now has chapters at thirty-six of the leading educational institutions throughout the country. All are active, and maintain their own chapter houses.

The charter to Eta chapter was granted to a local organization known as the Lehigh Herman Club, which had been on the campus since the close of the last century. The founders of Eta chapter are: W. R. Ehlers, R. A. Boehringer, N. H. Kuryla, W. C. Benedict, A. L. Broomall, C. R. Clingerman, H. A. Church, D. K. Dean, H. F. Eigenbrodt, A. C. Flory, D. H. Lamke, W. J. Ammer, H. C. Becker, and C. E. Lilliestrand. These fourteen charter members were initiated on December 3, 1903. Since that time, more than 300 men have received initiation into the fraternity.

The original chapter house was located at 431 Cherokee Street, but about 1908 the chapter moved to 541 Seneca Street, where it remained until 1918. For a short period during the World War the fraternity had no house but meetings were regularly held in a room at Five Points. Immediately after the war a house was secured on North New Street, and when larger quarters became necessary, the fraternity moved to East Church Street. In September, 1923, the present house was obtained at 107 Delaware Avenue. In its approximately thirty-three years of existence, Eta Chapter of Theta Xi has held meetings in seven different houses.

How Lehigh Men

ll Live in the Future

Taylor Hall

The donation of Taylor Hall to Lehigh University came as a complete surprise to Mr. C. F. Taylor, '76, then a trustee. Mr. Taylor had been talking to Andrew Carnegie about the inadequacy of rooming facilities at Lehigh, and Carnegie felt that he could do both Lehigh a service and satisfy his desire to have Lehigh give some recognition to Mr. Taylor by donating a large dormitory to the University, and naming it after Mr. Taylor. Carnegie proceeded to go ahead with his plans, and hence Taylor Hall. Taylor was very much embarrassed by the donation because he felt that he had never done anything to merit the fame thus brought upon him.

The original plans were very much modified in the procedure of constructing the building, modified to the extent that instead of facing up the hill the hall now faces down. Whether these changes were due to construction troubles or not is not readily ascertainable. It is known, however, that Taylor Hall was one of the first all concrete buildings to be put up in this section of the country, and much difficulty was encountered in the construction. Outside contractors who had had experience with concrete construction were called in, and the building was completed successfully. Much about concrete construction was learned when Taylor Hall was built which has been applied to subsequent jobs all over the country.

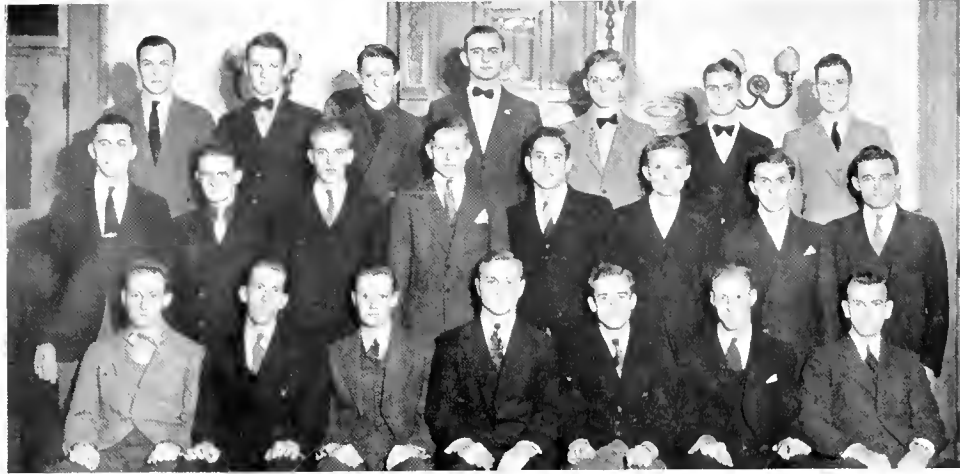

During the stay of members of the class of '37 in the building many changes have taken place, and many interesting incidents have happened. We will recall our surprise and immediate disappointment when we arrived back in the fall of our Sophomore year and found the partitions between sections removed. Our disappointment has now gone, and we feel more like a group than ever before while we still maintain our identity by sections and have intersectional athletic competition.

Probably the thing which rests most vivid in our memory is the famed Lafayette fight three days before the annual game back in '34. That was sure a fine battle—what, with fire extinguishers flying around the halls like balloons, men being thrown down stair wells, seeing the banner stolen by those lads from Easton, and all the other things that went on. Perhaps, however, we will better remember the battle royal which occurred the following night in Easton and the enforced vacations for a large number of our student body.

Taylor Hall has reason to be justly proud of its members. The membership is active in campus organizations and includes members in nearly all of the campus societies. We can still point to the general average of the Hall with pride.

The Lehigh Allentown Group

Founded in January 1936 by three students and promoted by an informal committee of about a dozen more representing all four classes at Lehigh, the Lehigh Allentown Club has grown within a year to an active membership of seventy. Guiding the club in its short history has been a ten-fold purpose which includes among its articles the promotion of unity and good-will within the club, stimulation of interest in outside activities, and procurement of representation in campus affairs. Monthly meetings in Allentown help to carry out these purposes. The club is unique from the standpoint of membership. All Allentown students who attend meetings are members in good standing; no dues or other qualifications are required.

Omicron Delta Kappa is the national honorary activities fraternity for men. It was founded in 1911 at Washington and Lee University.

The purposes of the fraternity are: to honor selected students who have shown sound moral character and effective executive leadership in student activities; to unite some students and some members of the faculty and administration in working for the development of a greater Lehigh; and to inspire in other students to try unselfishly, for the university's sake, to achieve the university's ideal of moral, executive, and physical manhood.

The primary consideration for membership is character.

Cyanide was first organized by a group of chemical students who wanted to be organized in some way other than just as men studying for the same profession. The name Cyanide was chosen because "cyanide", in chemistry, is used in the separation of gold from the base metals. As desirability for membership became more pronounced, the society became exclusive; and in time, men from other curricula who wanted to become members and who were desirable students were admitted. Then Cyanide became an unofficial honorary. As time went on, definite requirements for membership were incorporated in the statutes of the society, so that only men who were exceptional in both scholarship and activities were elected.

At present, Cyanide consists of twenty juniors. Cyanide is the aim of every active lower classman, the award for the accomplishments of those who are elected, and the first all-round activity honorary of which a Lehigh man can become a member.

In the words of its constitution, Tau Beta Pi proposes "to mark in a fitting manner, those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates, or by their attainments as alumni; and to foster a spirit of liberal culture in the engineering schools of America."

Tau Beta Pi was founded at Lehigh a little over fifty years ago. At that time there was no honorary society by which outstanding engineering students could be recognized.

Professor Edward Williams, Jr., conceived the idea of such a society in the early 1880's. Finally in May, 1885, after he had finished drawing up all the ritual and constitution, he shared his idea with Irving Andrew Heikes, who was the valedictorian for 1885. Early in June, Heikes was initiated, and Tau Beta Pi became a part of the undergraduate world.

Professor Williams felt that character, as well as high scholastic standing, should form a part of the eligibility code. Candidates for membership must thus satisfy requirements not only as to scholarship but also with respect to steadiness, honesty, and dependability. Tau Beta Pi strives to recognize outstanding engineering students by those qualities which seem to destine them for success in later life, and to give those it honors a code of ethics which will hold the ideal of fairness and cooperation before the business world.

Tau Beta Pi has grown with the spread of engineering education until there are now sixty-nine active chapters and over 26,000 members.

Alpha Sigma of Alpha Kappa Psi originated as a Business Administration Club, organized as a society for the specific intention of ultimately becoming a chapter of a national professional fraternity in commerce.

The chapter was not very active for six years following the granting of its charter on May 19, 1924. In 1930 with a competent president and the help of Associate Dean George B. Curtis and Dr. Neil Carothers, charter members, the chapter prepared a progressive program. A schedule was forthcoming of regular semi-monthly professional meetings to be held at the several fraternities. A speaker was to be obtained for each meeting.

This year, in order to increase its scope of activity, the chapter has occasioned the "Activities Committee". The result to date has been one to merit the perpetuation of the committee.

In its present capacity the chapter rates high with the national fraternity in both scholarship and performance.

Pi Tau Sigma, the honorary mechanical engineering fraternity, was founded in the year 1915 at the University of Illinois. A group of mechanical engineering students inspired and guided by Dr. Charles Russ Richards, later president of Lehigh, formed the first chapter. It was organized to foster the high ideals of the engineering profession, to stimulate interest in the departmental activities, and to promote the welfare of its members.

Pi Tau Sigma expanded in 1935 to include Industrial Engineering as well as Mechanical Engineering because these two curricula are so closely associated.

The Theta Chapter at Lehigh received its charter on December 5, 1927. Our Professor Luce was active in its organization. John V. Martenis, Lehigh '94, who was then the National Secretary, installed the chapter.

There are now sixteen active chapters in the leading engineering schools of the country.

Since its founding in April 1926, Chi Chapter of Eta Kappa Nu has had an active life as an honorary electrical engineering fraternity at Lehigh.

The purpose of the society can best be presented by referring to the preamble of its constitution, which states ". . . that those men in the profession of electrical engineering who, by their attainments in college or in practice, have manifested a deep interest and marked ability in their chosen life work, may be brought into closer union whereby mutual benefit may be derived."

With interests not solely confined to the field of engineering, the society has participated ably in various campus activities. In past years Chi Chapter has jointly promoted the annual Engineer's Ball, awarded a handbook to the highest ranking Freshman in electrical engineering, and assisted in entertaining prospective students on Sub-Freshman Day.

The Alpha Epsilon chapter of Eta Sigma Phi, formerly called "Collegium Romamum," was established in May, 1928 by Dr. Horace W. Wright and a group of students of the classes of 1929 and 1930. The national organization was founded in 1924 at the University of Chicago for the purpose of developing interest in classical study among students of colleges and universities, to promote closer fraternal relationship among students interested in classical study, and to engage generally in an effort to stimulate interest in classical study and in the history, art, and literature of ancient Greece and Rome. There are now forty-four chapters of Eta Sigma Phi in the leading colleges and universities of the United States. The national organ of Eta Sigma Phi is the "Nuntius" of which Nevin Fidler, president of the local chapter, is associate editor. At the monthly meetings of the chapter lectures are presented by faculty advisors or other men outstanding in classical fields.

The Lehigh International Relations Club is one of a large group of clubs of its kind found in the Middle Atlantic Colleges. The purpose of the organization is to further interest and understanding in International affairs. Regular monthly meetings are held at which speakers from the Lehigh faculty, or from other available sources, present material pertinent to the interests of the club. The Carnegie Peace Foundation supplies literature for reference and information and sponsors a number of intercollegiate activities, in which the Lehigh club takes an active part.

The Robert W. Blake Society is Lehigh's honorary philosophical society. It was founded in 1923 by seven Lehigh students interested in the study of Philosophy, Psychology, and education. It was named in honor of Robert W. Blake, Professor of Latin and head of the College of Arts and Science until his death in 1921.

Its membership is limited to twenty men chosen on the basis of high scholastic ability, and because of an interest in Philosophy. The society meets the first Friday of each month, at which time it hears outstanding speakers from on and off the campus. A student discussion follows each meeting.

Each year the society sponsors a University lecture. Such men as John Dewey and T. V. Smith have been brought to Lehigh by the club. The last meeting of each year is devoted to a pilgrimage to another leading College of the East. The trip this year is to Bryn Mawr.

Pi Delta Epsilon, National Honorary Society in Journalism, has as its purpose the "stimulation of an interest in college journalism and an elevation of the standard thereof." Founded at Syracuse University in 1909, the society now numbers fifty-three chapters ranging from the University of St. Lawrence to the University of Florida and from the Massachusetts Institute of Technology to the University of Southern California.

Among its past accomplishments at Lehigh, Pi Delta Epsilon counts responsibility for the present organization of the "Brown and White," original publication of the "Lehigh Pictorial," and complete revisal of the operations of the "Epitome" and the "Lehigh Review."

Revision of the Freshman Handbook and effecting of the closer cooperation among existing Lehigh publications are outstanding in the society's present activities. The group is considering the distribution of a mimeographed newspaper, containing information about Lehigh publications, among prospective freshmen on sub-freshman day.

Since the granting of a charter in Pi Mu Epsilon in 1929, Pennsylvania Gamma, replacing the Lehigh Mathematical Society, has endeavored both to honor those men of high attainment in mathematics and to increase the men's interest in the science. This last purpose is effected by means of monthly meetings at which talks on mathematical subjects are presented by student members and members of the faculty.

During the past year some of the topics discussed were "The Phase Rule," "Paradoxes in Mathematics," "Methods Used in Statistical Analysis," and others.

In March the fraternity procured Professor F. G. Owens, head of the department of mathematics at Penn State College to speak at an open lecture on "Unusual Coordinate Systems." This was in accordance with its traditional practice of obtaining well known mathematicians to address the public.

More than thirty years ago five cadet officers at the University of Wisconsin conceived and established the society of Scabbard and Blade. Since that time it has grown to be a national organization with companies in every state of the Union and a membership approaching twenty-five thousand.

To spread intelligent information concerning the military requirements of our country is the main objective of the society. It also purposes to preserve and develop the essential qualities of good and efficient officers, and to protect American traditions and ideals.

The Spring of 1937 marks the eleventh anniversary of Alpha Epsilon Delta and the second anniversary of the Lehigh Chapter. In this period of eleven years the fraternity has expanded from one small group in Alabama into a union of twelve chapters scattered from Pennsylvania to Florida and from Texas to the Carolinas.

The Lehigh Chapter holds three informal and one formal meeting each month. Every student at Lehigh is invited to attend the informal meetings where papers on modern medical progress are presented and thoroughly discussed.

As an honorary society, Alpha Epsilon Delta carries forward an ideal of scholarship, campus activity, and character in an effort to set a goal for the Pre-Med student.

To our friends in the class of 1937, the active chapter extends its hearty wishes for success in Medical school, and its deep appreciation for the instruction and leadership which they have given us in the past.

In November 1935 a group of students interested in scouting formed the Lehigh Eagle Scout Association. Interest and membership in the club grew until in December they received the approval of the University and of Alpha Phi Omega to be installed as a chapter in that National Honorary Scouting Fraternity. During the following months the association devoted its time to plans for the future. In April the chapter held correspondence with the National Chapter and members of the Alpha chapter at Lafayette who were to make the installation.

On May 7, 1937 the Alpha Psi Chapter of Alpha Phi Omega was installed at Lehigh. The impressiveness of the installation ceremony was amplified by an excellent talk given by the national president, H. Roe Bartel.

The new school year was opened with plans for a fireplace on South Mountain, for an inter-fraternity sing, for Bethlehem scout troop assistance, and for activities to the University.

Phi Beta Kappa

Phi Beta Kappa at Lehigh consists of the faculty members of the fraternity. The active membership has meetings during the year and discusses problems of interest to its members.

The student membership in Phi Beta Kappa is highly honorary because selection is on the basis of scholastic excellence. The students are picked late in their senior year, and only top men in the various curricula are picked.

This year Phi Beta Kappa has chosen the following men to be honored by membership in the fraternity:

THOMAS EDWARD BROOKOVER, Ch.E. . . . EDWARD JOSEPH BROUGHAL, Bus. . . . THEODORE RICHARD BROWN, E.E. . . . ROBERT AUGUST BUERSCHAPER, Engr. Phys. . . . KERMIT SUAREZ DUNLAP, Engr. Phys. . . . The Epitome

In 1875 the sophomore class of Lehigh established the EPTOME, the first publication of the University. In its early days, it was an advertising medium for the University. But as Lehigh grew, and as the need for a good higher education became more apparent to the country, one publication a year was totally insufficient to properly advertise the University. In 1885 the Junior class took over the publication of the book. The original purpose of serving as an advertisement for the University was subordinated to the idea of recording the activities of the Junior class, and the book became a record book. During this period of its development, the EPTOME contained many jokes, cartoons, and good natured "knocks" at students and professors.

The present EPTOME, a record book for the activities of the Senior class, was established in 1931 when the Senior class took over the publication of the book. Today the EPTOME attempts to reflect the fine achievements of the members of the Senior class while they were undergraduates at the University, to present the activities of the student body in all of its connections with the University, and to reflect as well as possible the genuine spirit of love and deep feeling which is developed between the students and the faculty.

The caricatures of the four Deans have been used, along with those of the class presidents, to show that Deans are not as stern as the connotation of the word implies. They are fine men, and we always want to remember them. Let us hope that in making those caricatures Mr. Ward has found something more personal about the men to emphasize than a mere photograph can do.

The layout of the book attempts to reflect the modern trend in book design without detracting from the dignity and permanency of the EPTOME as a final record of the class of 1937.

We on the EPTOME Board wish to take this opportunity to wish each of the members of the class of 1937 the best of luck whether you try engineering, sales,

business, law, medicine, or any other occupation as a means of livelihood. It is a great class, and one which should stay permanently united and maintain close contact between its members after graduation. Let's all be back annually for Alumni Day so we can talk over old times, and new times as well.

Brown and White

The *Brown and White* is continuing this year in its attempt to brighten up the news with the use of more pictures by creating the new office of Photographic Editor to manage the dark-room equipment recently purchased. This is but another step in keeping with the paper's motto, "All the Lehigh news first."

The *Brown and White* has passed the forty-year mark of its existence, having been founded on January 16, 1891. During these years the paper has developed from an issue four columns wide and eighteen inches high to its present size. Another change this year was the adopting of a new style of headlines.

The *Brown and White* is strictly a newspaper of the students, being open to anyone who enrolls in the prescribed courses. These courses, as well as affording instruction in newspaper work, give the students ample opportunity to do actual work on the paper. The news, business, and editorial functions of the paper are managed and operated by the students. There are one hundred students affiliated with the paper.

During the *Brown and White's* membership in the Intercollegiate Newspaper Association of the Atlantic States, it has been awarded more cups for supremacy in news, editorials, and advertising than any other member of the Association. The *Brown and White* is the only member to have gained permanent possession of any of these cups.

Harry C. Archer, First Semester Editor, says "I shall always be thankful for the experiences and associations which are afforded a student by work on the *Brown and White*. The paper's relation with the faculty is a singularly peculiar but happy one which has been very encouraging to the development of collegiate journalism at Lehigh. I believe these two factors have been made possible by the methodical handing down of policy and experiences from one staff to the next."

George Yanko, Second Semester Editor, states "Attempting to assimilate the various activities of the University into one constant pattern has always been the theme-

song of the *Brown and White*. After forty-three years of experimentation and acquiring a journalist tradition, the campus newspaper has finally emerged known for its progressive editorial policies, comprehensive news coverage, and an ever-expanding pictorial display. Its goal has been always to be regarded as an institution within an institution."

The Lehigh Review

Robert Barton, Ch. E. '38, is an above-average student. He enjoys his work—had a good time studying qualitative and quantitative chemistry, doesn't mind learning a lot of chemical names and formulas, thinks working in the organic lab, is great fun. When he graduates he is going to be an excellent research man, like many others among his Lehigh classmates.

But young Bob Barton has other interests besides his most beloved chemistry. Strangely enough, he has a passion for writing short stories. Not the kind of story that will join the body of enduring literature. Just simple little stories about the people he knows: his classmates, his friends at home, a girl he fell in love with once. Bob may even have a knack with fiction, a pretty good sense of sentence structure, a skill with words, and an ability to string together a plot that will interest his schoolmates.

Undoubtedly it would give Bob Barton a great deal of satisfaction to see one of his stories in print, set off with a couple of illustrations by another student. He'd like to see it in a regular magazine, edited by some of the fellows he knows, and read by the whole student body. He'd feel pretty proud of his work, and might be stimulated to keep up an interest in creative writing for the rest of his life.

To Bob Barton, and all Lehigh undergraduates who have similar talent, *The Lehigh Review* is the only medium for self expression. It is Lehigh's undergraduate magazine. Once a month it appears on the newsstands and in the campus mail boxes. Each issue features from ten to fifteen articles, short stories, features of immediate campus interest, and original poems. Students write for it, illustrate it, and edit it. All executive decisions are made within the group, by the group.

This year the board of the *Review* has continued to modify its editorial policy to fit better with student interest. The format of the book has been changed complete-

ly. A new page design permits the use of 50% more copy in the same space. Illustrations have been used more liberally, and the possibilities of photographs were further explored. Color was used in the body of the book for the first time, and a new field for experiment has thus been opened.

The *Review* is an expanding organization. Unlimited fields are open to conquest. Devoted to the spirit of progress, it will continue to serve Lehigh well.

Mustard and Cheese

Fifty-one years ago a group of students frequently met in the back parlor of Charlie Rennig's to satisfy their thirst with beer and their hunger with Charlie's cheese sandwiches spread with mustard. It was in this group that the idea of a Lehigh dramatic association developed into a reality under the direction of Richard Harding Davis, then an undergraduate of the University.

Since its organization in 1885, the Mustard and Cheese Club has staged practically every type of dramatic production including many musical comedies written entirely by members of the undergraduate body.

Three years ago the club started as if anew under the direction of Mr. Albert Rights. The Dramatic workshop was created to train aspiring undergraduates in staging, acting, writing and directing, with the plan for earnest efforts, membership in the more exclusive club.

Last Fall the club presented the famous warplay "Paths of Glory" by Sidney Howard, which not only established some new acting talent in the headlines of success, but also once more demonstrated the superhuman and well-nigh miraculous technique which has been characteristic of Mr. Right's reign. Employing a method of spot-impressionism, the technical staff, under the direction of John Weigel, performed a splendid feat in maintaining continuity and action in a play crowded with suspense.

Superb in the role of Colonel Dax was Freeland Dalzell, a newcomer whose performance was matched by Edmund Osbourne, another newcomer, as General De Guerville. The club veterans, David Bradley, Roy Hertz, and Charles McCoy, came through with honors in three outstanding roles. Bradley has a record of leading roles in three regular productions and six summer productions; Hertz equals this number, while McCoy has appeared in ten Club plays, an unusual and commendable achievement.

Elbert Tidd, another veteran, played the role of the General responsible for the outrage which cost the lives of three innocent men. Theodore Diamond as Langlois, one of these men, turned in a good performance that matched those of Albin Dechnik, Coleman Citret, William Woronoff, and Ruth Whitecomb, the only female in a cast of forty-four. Although opinions differ as to the quality of the show, no one can question that it marks another milestone in the march of Mustard and Cheese to collegiate supremacy.

The Spring production will be a musical show. This is to be a "Pageant of

Lehigh" through the years, a travesty burlesquing the great moments of history behind the ivy-covered walls.

The future of Mustard and Cheese never looked brighter. Interest in dramatics has reached a peak, alumni have aroused to consider the plight of the Club, handicapped as it is by the inadequacy and crowded conditions of Drown Hall, and once more plans are being made to take the musical shows on the road. These are great signs for recovery, and the Club will take advantage of these opportunities.

The Combined Musical Clubs had its beginning back in 1875 when Lehigh was still in its infancy. Its name then was the Chapel Choir and functioned only as a choir at the Chapel exercises. Its activities being rather confined, the leader decided to branch out into concert circles. The Club was reorganized in 1885 and named the Glee Club and Mandolin Society. After some years of continued success, in 1910 the present organization was founded. Two years ago the Club was fortunate in arranging several radio broadcasts with the larger stations in the East and South. Six broadcasts were made throughout the school year by the Glee Club and Double Quartet.

This year, due to the broadcasting work of last year, the numbers of the Glee Club were increased about four times. The Club is now divided into a Junior and a Senior Section. The Junior Section serves a year's apprenticeship before advancing into the more experienced Senior Group. In this way the Club is assured of an experienced group of singers at all times. The present set-up of the Combined Musical Clubs includes beside the Glee Club, a dance orchestra and a symphonic group.

The members of the 1936-1937 Lehigh University Band have made an earnest and sincere endeavor to maintain the high standards of musical performance and marching maneuvers which have characterized previous editions of the band.

It has been possible to execute many new and more varied formations during the 1936 football season by virtue of having an additional thirty-four men to work with. President Williams' contribution of thirty new uniforms may be held accountable for Lehigh's 130 piece marching band, the largest in the East.

Under the able direction of Professor T. Edgar Shields the band has evolved until now it ranks with the country's leading musical organizations.

Nine new marches; the execution of twenty-two different formations during the football campaign; the increased size of the unit; and various newly instituted methods of drilling, including weekly blackboard drills, have combined to mark the current band season a memorable one for the band members themselves. A combined band and glee club concert in Elizabeth, New Jersey, in the spring rounded out a truly successful year.

Delta Omicron Theta

Variety and extensiveness of activity marked the 1936-1937 program of Delta Omicron Theta. As usual, teams met in debate opponents from notable colleges in the East. Of outstanding interest was the debate with the University of Pennsylvania, broadcast over radio station WCAU, Philadelphia. WCBA, Allentown, was also the medium of several debates. Noteworthy was the delivery of debates before meetings of the local service clubs. A discussion-forum, participated in by five colleges, was held in the Spring. An innovation in Lehigh debating was the intramural tournament, sponsored by Delta Omicron Theta. Successful from the point of widespread interest and excellent presentation, intramural debating will remain as an annual activity.

The Robert W. Hall Pre-Medical Society

Seventeen years ago, students interested in medicine and natural history, organized the Pre-medical Society of Lehigh University. The purpose of the society has been to create and maintain, among the students majoring in biology and bacteriology, an interest in medicine and closely related subjects.

Within a few years of its organization, the society was composed almost entirely of pre-medical students. Besides monthly meetings at which medical men speak, students have an opportunity to accustom themselves to operations at clinics conducted at Sacred Heart Hospital, Allentown.

In 1927, the name was changed to the Robert W. Hall Pre-medical Society, in honor of its founder, Dr. Hall.

Civil Engineering Society

Founded in 1873 the Civil Engineering Society, as it was then called, is the oldest course society on the campus. Under the advisorship of Professor-Emeritus Winter Wilson it was re-organized in 1901. In 1922, with a membership of 27, it became a student branch of the American Society of Civil Engineers. At present it is one of 113 such chapters.

Regular monthly meetings are held, and one public lecture is sponsored by the society each year. An annual feature of one meeting is a lecture by Thaddeus Merriman, Hydraulic and Water Power Engineer. This year's program also included a Christmas Banquet and a Spring Outing.

HENRY H. DENT.....	<i>Treasurer</i>

FACULTY MEMBERS

MR. J. R. CONNELLY.....	<i>Advisor</i>
PROF. F. V. LARKIN.....	<i>Honorary Chairman</i>

As the Industrial Engineering Society was created for Industrial Engineering students, the Society should include primarily among its activities and discussions, topics and speakers that deal not only with the engineering aspects of the industrial world, but also with problems of economics, financing, management and intelligent forecasting of economic developments. The Society has met this challenge adequately by careful selection of speakers from the largest industries in many of the different fields of production.

There is also a definite trend to make the Society meetings coincide with the courses of Industrial Engineering that are being carried on through the semester. Thus it happened that when the Junior Industrial Engineers were making a study of the Bethlehem Steel Mills, Mr. Petty, who has charge of the Service Department, gave an address that tied up the operation of these mills with the immediate management and maintenance involved. Throughout the year, subjects are sought which will thus benefit the Industrial Engineer at Lehigh.

Approximately nine years ago, the Industrial Engineering Society was started for the purpose of giving students in this curriculum a chance to gain firsthand knowledge of the concurrent problems in plant layout, production control, maintenance, and the general engineering ability needed to solve these problems.

The Society now occupies a prominent niche in the row of Campus and curriculum societies.

American Society of Mechanical Engineers

STUDENT BRANCH LEHIGH UNIVERSITY

The Student Branch of the American Society of Mechanical Engineers was organized at Lehigh University in 1911. It is one of the 117 chapters in the leading technical colleges throughout the United States and Canada. The society holds open meetings monthly and sponsors one or more public lectures each year.

In cooperation with the other course societies, the Mechanical Engineering Society agreed to have lectures of public interest on exclusive dates for the students and the public. The lectures are presented by men well known in different fields of research and engineering.

Electrical Engineering Society

The first student branch of the American Institute of Electrical Engineers was founded at Lehigh University, October 12, 1902, at the proposal of Professor-Emeritus Charles F. Scott, who, as president of A. I. E. E. at that time suggested that the institute would be more effective if it had branches in the colleges and universities. The Lehigh branch holds six open meetings a year and sponsors one university lecture. A Christmas party and formal refreshments have become traditional Lehigh branch customs.

Lehigh Arcadia

OFFICERS

KARL M. JACOBI	<i>President</i>
GARDNER VAN DUYN	<i>Vice President</i>
GUY ANDERSON	<i>Secretary</i>
Y. FITZHUGH HARDCASTLE, JR.	<i>Treasurer</i>

The Lehigh Arcadia, student governing body, was once a club for "pipes, books, beer, and gingeralia." The Society was organized by Richard Harding Davis in the 80's to show his scorn for the Greek letter fraternities that made bids for his membership.

In the early stages of the club's existence, it was purely a social organization, but one thing led to another and the members began to dicker in politics.

From then, Arcadia began to grow in power until it reorganized as the student governing body. In 1922, upon the suggestion of Deau McConn, the leaders of living groups became the official members of Arcadia.

Previously the representatives were not heads of their living groups, so that they did not have the power desired to make Arcadia's rules authoritative.

The duties of the present-day Arcadia are to furnish a representative body of students to voice authoritatively the opinions and desires of the students and to communicate these opinions and desires to the proper authorities.

The membership is composed of a representative from each fraternity, dormitory section, and down-town group. The presidents of the Combined Musical Clubs,

Mustard and Cheese, Lehigh Union, Freshman Union, and of the Sophomore, Junior, and Senior classes are members as well as the editors of the publications on the Campus. All members are presidents or heads of their respective groups so that Arcadia is really a body of Campus leaders.

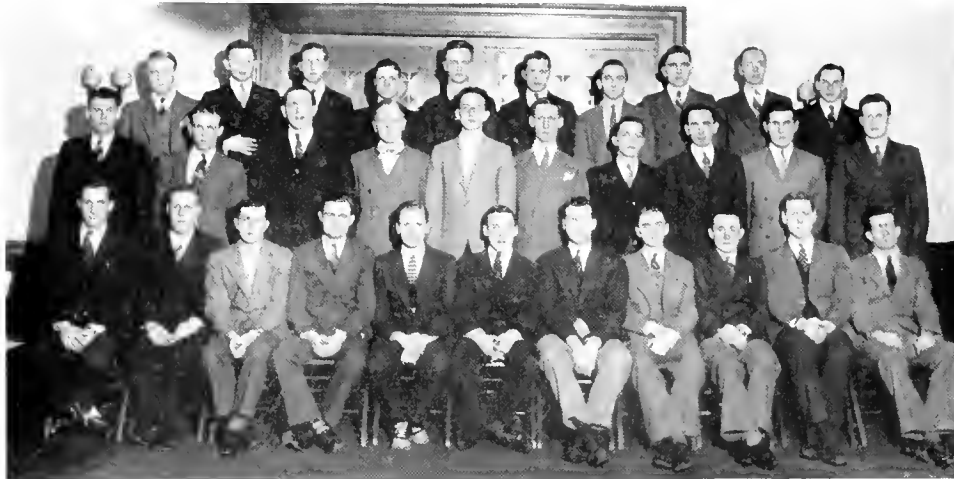

Arcadia, acting in its capacity of governing the general elections held each Spring, attempted to improve the voting system by legalizing political combines or parties which were made illegal in 1934. The new election system permits the forming of these combines for election purposes.

Freshman regulations were again enforced for the first semester of the school year. A Sophomore Vigilance Committee was appointed to try and to punish all offending Freshmen.

Arcadia petitioned the faculty last Spring to change the Easter vacation to a Spring vacation in the future. The faculty received the petition favorably and agreed to a Spring vacation.

This year the Lehigh student governing body acted as host to the Pennsylvania Association of College Students on March 12, 13, and 14. This is an organization composed of student government leaders throughout the state.

Funds were voted to defray the expenses of the swimming team's trip to Florida over the Christmas vacation. General elections are conducted in the Spring: Class Officers, Cheerleaders, and President and Cabinet Members of the Lehigh Union are elected.

The Interfraternity Council

OFFICERS

KNOX L. PEET.....	<i>President</i>
THOMAS E. NIEHAUS.....	<i>Vice President</i>
CHARLES F. MCCOY	<i>Secretary</i>
DONALD C. BARNUM	<i>Treasurer</i>

The Interfraternity Council, made up of a Senior and a Junior representative from each house, is not meant to be a governing body of the students of the University—that is Arcadia's job. The council has a definite job to do in keeping the life at the fraternity houses going on happily, in being the supervisor of rushing, in helping to keep the fraternity sports up to their rigorous schedule, and in keeping the fraternity men awake to the goings-on around the campus. Ideas originating in the council which bear on University affairs are thoroughly discussed, drawn up into a resolution, and presented to Arcadia for approval and action. Subjects relative to fraternity life are brought up, discussed, and decided upon in meeting without needing to be passed upon by any other body.

Because the fraternity men represent through the council the largest unified group of students at Lehigh, the council has been delegated the authority to set dates for house parties, and is consulted about dates for other important social functions.

The Interfraternity Council can well feel that it has been doing its work successfully, and thoroughly when it looks at the generally satisfactory conditions of the different fraternities around the campus. The council might well devote its energies in the future to a careful study, and intelligent action on the idea of cooperative buying of food, furniture, repairs, and supplies as well as keeping up its good work in keeping the houses organized and friendly.

CABINET MEMBERS

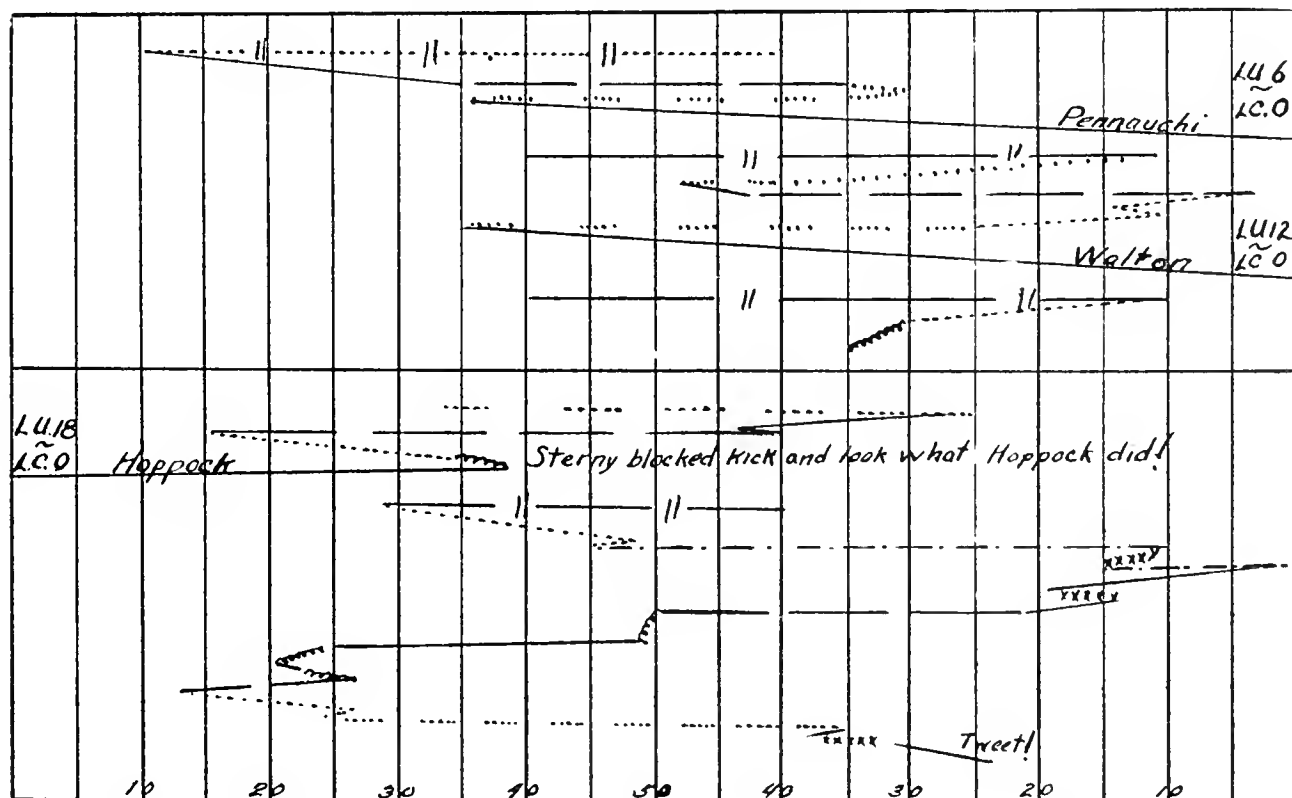

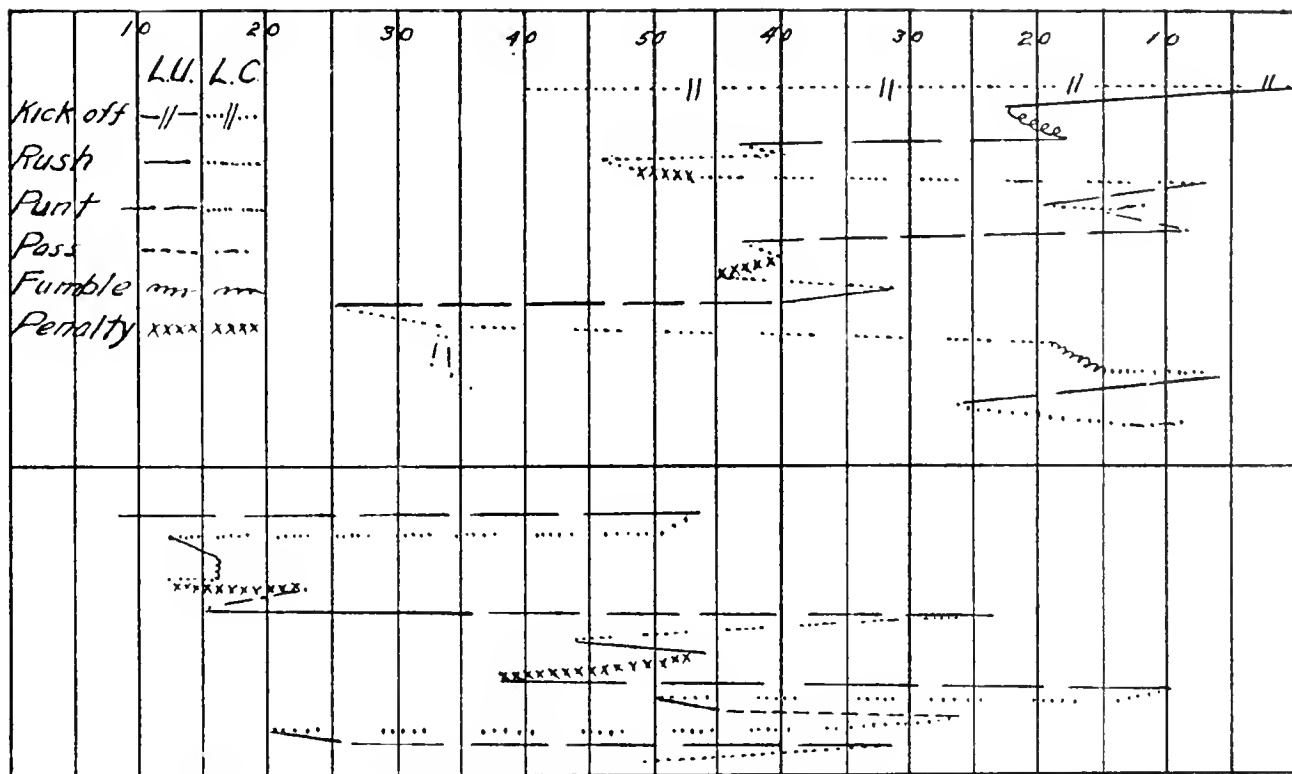

D. ROBERT BERG . . . GEORGE A. BARKER, JR. . . . H. STANLEY FORD, JR. . . . ROBERT G. WER-
DEN . . . ROGER M. STEWART.

The Lehigh Union replaced the Lehigh Y. M. C. A. in 1928 and since that time the Union has gradually enlarged its activities in College Affairs. This year the University increased the Union's share of the student tax to supplement the cost of these extra activities.

The Union is a student organization, run by a student cabinet. It administers such social and service activities as the Freshman Handbook, Freshmen Week Assemblies (presided over by the Union President), community drives, football rallies and smokers, and clerical services for student organizations. All charity drives are directed through its offices, and this year the Christmas Seal campaign was taken over by the Union and was a marked success.

Charitable donations from the living groups have shown a remarkable increase this year, and the Union sincerely hopes for even better results next year.

J. L. Walton, Captain

F. G. Simmons, Manager

Football

What could bring back the real details of the hard fought Lafayette game this year better than the diagram used for the Athletics Divider preceding this page? Look at that first quarter. Lehigh is defending the right hand goal. Remember that pass Lafayette made which looked like a touchdown, but was recalled because the passer was too close to the line? There it is, that penalty on them in the middle of the first quarter. Then you will readily recall those fumbles we made too close to our goal line, and that intercepted pass by Pazzetti.

On to the second quarter. It begins to look better for us now. The play is nearer the center of the field, and Lafayette's passes are not clicking at all. This sure is a game of kicks!

There seems to be new life in the team now that the second half is under way. Look at that sweet drive that finally sent Pennauchi over for the first six points. And if you will follow closely, you will see Walton on that end-around going over for the next six points. Lafayette is now demoralized. They are fighting hard and putting up a good game, but the Brown Bombers are too strong.

The blocked kick recovered by Hoppock in mid-air resulting in a touchdown in the last quarter is certainly a beautiful picture of the heads-up football we finally showed in that game.

CASE — 16 - 7

Case School of Applied Science, Lehigh's first opponent, and a new one, loomed as the first test for the veteran Brown and White eleven. This match was played at Cleveland, Ohio, and the boys really took a week-end, leaving on Thursday night.

Although trailing at the end of the first period by the count of 7-0, and at halftime by 7-2, the Big Brown Team swung into action in the strong third round, rolling up 14 points. The high scorer for the game turned out to be Elliott Small, who garnered 8 points. For in the second period, Small crashed through the Case defense to drop, behind his goal-line, a Case back delayed by a bad pass from center. Again in the third quarter, Small was on the ball, when Captain Walton, on the receiving end of a forward from Harry Millbank, fumbled as he was thrown hard by a tackler. The oval proceeded to bounce merrily across the traditional last white stripe, and Small quickly dropped on it, crediting both his Alma Mater and himself with six points.

By consistent pounding at the line, and racing around the ends, ball-carriers Heller, Hoppock, and Berg, the latter scoring, tallied the second touchdown for the Brown and White. After Ralph Heller booted his second place-kick, the scoring was over for the day, the final count being 16-7.

DICKINSON — 6 - 20

Although the Brown and White undoubtedly outplayed the Dickinson Red Devils on a paper analysis, it came out on the short end of a 20-6 score. The number of misplays made by Lehigh proved its undoing.

Dickinson's scores were made in the first, second, and last periods. In the first quarter Dickinson's veteran left-end, Bill Hendrickson, snatched a fumble made on the Lehigh 10-yard line, pulling the ball out of the air, and romping over the goal-line for the tally. Another Dickinson end later duplicated his teammate's peculiar feat, this time taking a fumble on Lehigh's 40-yard line. He scampered away almost untouched for the second score. Then came the half-time, and a New Deal in Lehigh football. After a fine recovery of form, spurred on by the remarkable enthusiasm of both the players and the spectators, the Brown Team made its lone score, as Johnnie Frey, center, recovered a loose ball over the Red Devils' goal-line. This touchdown was the culmination of a terrific drive downfield, marked by fast, smart playing of a rejuvenated team. But then came another break! A Red and White back broke through to grab a Lehigh pass, and ran to the last six-pointer of the hectic day.

Wertz

JOHNS HOPKINS — 20 - 0

Hindered by numerous penalties, the Lehigh gridmen scored a ringing 20—0 victory over Johns Hopkins, this win marking the seventh in a series of nine games dating back to 1899.

George Ellstrom was the first man to score for the Brown and White. In the second period, after a nice pass from Heller to Jamieson went for 21 yards, the wiry quarterback took the ball on the 8-yard line and slipped through tackle for the score. At about this point, the sun decided to show its face after a series of heavy downpours. Harry Milbank next tore through the Hopkins line on a spinner and, toting the ball 40 yards, went over standing up. This was a third-period score, and after Ralph Heller again converted, the count stood at 14—0. Then came the final period and the final score, as Lou Pennauchi also registered on his feet. This time Heller's try for conversion was blocked.

The crowd was brought to its feet between the halves of the game as a brilliant display of tactics and mobility was put on by the Brown and White band. Forming the initials of the visitors, as is customary, the band then simply unfolded in one motion to spell "LEHIGH."

PENN STATE — 7 - 6

A rugged team came down from State College, favorites to take Lehigh—favored with a 6—5 advantage in odds. But it was a dazed and befuddled Blue and White squad that returned whence they came.

The Big Brown team was clicking; no spectator will deny that. At the close of the first half, Lehigh tore off 75 yards in four plays, all forward passes. Passers Heller and Milbank were throwing strikes, and State could do exactly nothing about it. The period ended without score, however. Then came the third quarter and a new star shown on the horizon. With third down, six to go, and the ball in midfield, State naturally expected a kick. So Wertz threw a pass. Pazzetti, streaking for touchdown territory, turned slightly, and took this magnificent heave over his shoulder. The crowd was breathless, and could not recover before Ayer converted the extra point, and the Big Brown team led 7—0.

In the final period, however, the Brown and White got into difficulties, when a fumble gave State the ball on our 10-yard line. After four line-bucks netted but 7 yards, Knox Peet kicked out of danger. But the Blue and White, not realizing that it was beaten, threw a very pretty pass to a touchdown. The score was 7—6 and there it remained, for a State place-kicker failed under the terrific pressure. That was the answer. Lehigh's line was far too strong, and the backfield far too smart for the Nittany Lion.

Heller

Stevenson

Krauter

Rozzell

Peet

GETTYSBURG — 10 - 7

Possibly a bit overconfident after the Penn-State game, the Brown and White was handed a 10-7 trimming by the Gettysburg Bullets.

The Lehigh Eleven displayed its defensive might when, shortly after the beginning of the third period, Gettysburg found itself only four yards from a touchdown: but this threat ended abruptly on Lehigh's 18-yard line. At this point, Harvey Serfass, the Gettysburg right-end, made good his try for a field-goal, to chalk up three points for the Orange and Blue. Several plays later, a Bullet left-half took a pass from over center, and raced fifty yards down-field behind perfect interference, to score again for the Generals. Again Serfass booted, and again the kick was good.

Lehigh, suddenly coming to life, made its only score in the last quarter. After the ball had been advanced from Lehigh's 38 to the Gettysburg 3 yard line by a sweet aerial attack, Lou Pennauchi rammed it over for the six-pointer. Harry McNally tallied the extra point, cutting the Lehigh deficit down to a bare three points. Again Lehigh knocked at the door of victory, when, in the closing minutes, a Gettysburg fumble, and a series of plunges by Berg and Pennauchi, gave us the ball on the 2-yard line. After Pat Pazzetti had carried the ball over for what looked like a certain win, the play was called back, Lehigh was penalized for an illegal shift, and the ball-game was over.

RUTGERS — 19 - 0

What with a 70-yard punt by George Ellstrom, and several threats at the Rutgers goal in the first half, the Brown and White started like the wind. But in the third quarter the parade drew into line. The backfield, paced by Lou Pennauchi with his smashing line-bucks, and coupled with some very smart field-generalship on the part of Pat Pazzetti, simply ran Rutgers ragged. And, in a word, the line performed magnificently! The end-around plays clicked time and again with Hoppock and Captain Joe Walton alternating. The first touchdown came as the result of a fumble-recovery by Walton at midfield, some beautiful running by Pennauchi and Ellstrom, and a final 13-yard sprint by Mark Wertz.

In the final period, with Pazzetti reeling off precious yardage at the safety positions, deception caught Coach Tasker's boys napping, as Fritz Bayer, on a guard-around play, raced madly to the second score. Rutgers was now plainly demoralized. Their attempts at passing clearly indicated that they were desperate, as one weak toss fell into Joe Walton's arms on the Rutgers 16-yard line. At this point, the diminutive Ellstrom, cracking hard all the way, knifed through the foe for the final touchdown, to make the count 19-0.

Ellstrom

Berg

Famighetti

Jamieson

MUHLENBERG — 26 - 6

Following Pat Pazzetti's brilliant dash from the Lehigh 30-yard line to the visitors' 6, Lou Pennauchi took Lehigh into the scoring column with a plunge or so. Ralph Heller's try for the extra point was blocked. A short time later, the Big Brown Team, under the excellent generalship of Quarterback Pazzetti, drove from midfield to score again, the final thrust being an end-around, with Joe Walton on the business end of the play. Heller's attempt at conversion was a bit wide. The second quarter was scoreless, although it was ended with the ball in Lehigh's possession on the Muhlenberg 1-yard marker.

In the third period, the nimble Ellstrom, taking the ball on the rival's 40, raced 33 yards to the 2-yard line. Subsequently, Pennauchi scored his second six-pointer of the game. In the fourth quarter, Farrell, star of the Mules, sliced through Lehigh for 30 yards, and a few plays later flipped a pass for the opponent's only score. When, in the fourth quarter, Pazzetti intercepted a pass on his own 34, the hit-and-run signal was on, for, three plays later, Pennauchi slashed away again, and scored standing up. This time Heller's try for the conversion was good.

LAFAYETTE — 18 - 0

The first half of the game was a hard battle, with the Maroons having a slight edge over the visiting team. This stand was a surprise to Lehigh followers. Scoring started early in the third period. Bob Berg and Lou Pennauchi, whom Lafayette had determined to stop, alternated in carrying the ball down the field from the Lehigh 42-yard line to the opponent's 20. From that point, Pennauchi crossed the line for the first touchdown on an off-tackle play. Ralph Heller's try for the extra point was blocked. Later in the third quarter, Pat Pazzetti ran a Lafayette punt back 25 yards, after which George Ellstrom and Pennauchi, in six more plays, brought the pigskin up to the Marquis' 8. Captain Joe Walton went over for the tally on the deceptive end-around play. Again the attempted conversion, this time by Ayre, was ruled out.

The start of the fourth quarter found Lafayette deep in its own territory and unable to advance the ball. As Cavallo attempted a quick kick, "Whitey" Sterngold broke through the line and blocked it. The ball caromed to the sidelines, where Jack Hoppock grabbed it and raced 25 yards to the third tally. This touchdown was the final score of the game as Pazzetti's kick from placement bounced off the upright. Fritz Bayer's shoestring tackle of Lafayette's Zowchowski, on his way to a touchdown, was the defensive highlight of the game.

E. N. Sleight

G. W. Harmeson
Head Coach

M. B. Westerman

Behind It All—The Coaching Staff

Harmeson with his assistants, Sleight and Westerman, make up an imposing triumvirate. Harmeson was a nine letter man at Purdue and an All Conference (Big Ten) halfback. Westerman was one of the best centers Purdue ever had, and without doubt the best all around man they ever had, for Marty played tackle and guard in addition to center. "Red" Sleight was an All-American tackle at Purdue, and following this he was an All-American tackle on the Green Bay Packers' National Pro championship team. While at Purdue, "Red" was an engineering student, which puts him right in his element here. Incidentally, he is a member of Tau Beta Pi.

These men really know football. If they can not teach or pound football into a man, you can be fairly sure that nobody can. It can be truthfully said that the Lehigh team knew as much, if not more, football than any team that took the field against it: whether they used this knowledge or not is another story. In addition to teaching the football players (a really difficult task—ask any professor), Harmeson and his aides need to use a large amount of psychology in handling the players. A football player is one of the most temperamental animals in captivity.

As a testimony to the skill and ableness of the Lehigh coaching staff in solving the problems and difficulties that arise in the course of the season, the Lehigh record this year is sufficient evidence.

R. R. Ashman, Captain

Wrestling

W. G. Shoemaker, Manager

ABOUT THE OLYMPICS

The first two days of the wrestling tournament proceeded very smoothly as the United States, with only three or four bouts lost and six men left in the tournament, came through.

But on the last day it seemed as if every country "put the hooks on us." Of course there were a few exceptions to this rule, Australia, Canada, Great Britain and Spain seemed all right, but one French referee made two of the poorest decisions I have ever seen. In Flood's and Voliva's bouts they both were wrestling even and went off the mat in what I would consider very neutral positions. When they came back to the mat the referee put Flood down in his match and Voliva down in his. We did not get that man to referee any more of our bouts.

When Wednesday evening rolled around the boys were quite tired. They had been getting a raw deal throughout the morning and did not like it at all—but there was still a chance for us to have four champions.

Now it was Flood's final match with a Hungarian. The bout proceeded as we expected: Flood was winning—not easily—but nevertheless winning when the man underneath pulled a wrist roll. Flood went over with him in one "continuous" movement and came out on top again. The referee called Flood "down."

W. Sheridan, Coach

Then it was Millard's match and he got off to a good start with four take-downs in the first six minutes but he got three white lights and the bout went into three periods of three minutes each. In the first two periods everything was even, but in the third, the Finn, whom Millard was wrestling, got one take-down and was awarded the bout.

Frank Lewis left no doubt by pinning his man to win a title, but Voliva lost a hard battle to a Frenchman and was called down on another rolling fall. So in the end, the United States came out with one champion and three second places where she should have had at least three or four winners. We won the team title anyhow.

Review of the Season

After starting out with a bang, winning the first six dual meets in a row, the Lehigh wrestlers slumped, lost the next two meets, and finished third in the Eastern Intercollegiates, held in Taylor Gym. It was the first time in twelve years that the Brown and White mat team has not been the winner or runner-up in the E. I. W. A. championships.

When the season had been nearly completed, the Intercollegiates and the Nationals being the only remaining meets, it was obvious that the three toughest teams in the East were Lehigh, Penn State, and Princeton. And the order in which these groups should be ranked was easily determined when the Nittany Lions took five E. I. W. A. titles, and went home with the team championship for the second time in succession. Princeton wound up in second place, followed by Lehigh. Captain Rudy Ashman became the only one of Billy Sheridan's grapplers to survive the severe two-day tests, and to come through with a crown. Rudy ended his college mat career with an undefeated season, and third year as Eastern 126

Shoemaker: Wells: Sterngold: Ford: Sheridan
Allen: Bishop: Ashman: Hagerman: Wolcott

pound champion. Dick Bishop, Lehigh's other defending titlist, was runner-up to Princeton's Charlie Powers, 155 pound class winner who was awarded the coaches' trophy for the most polished wrestler in the tourney.

In the opening meet of the season, Lehigh upheld its record of never having been beaten by a Syracuse wrestling team by downing the orange $24\frac{1}{2}$ — $9\frac{1}{2}$. Tommy King, who placed second in the Final Olympic Trials last year, made his debut as a varsity wrestler by gaining a time advantage of 6:27 over Gertmanian. Two other Sophomores made their initial appearances in varsity uniforms: Walt Walls, who pinned his man in the 175 pound class, and Gus Hagerman, thrown by the Syracuse 145 pounder. Walt Allen, Captain Ashman, Curt Ford, and Walt Wells scored Lehigh's four falls, three of which were timed, oddly enough in 9:40. Three days later a hybrid team made up of varsity and Jayvee wrestlers completely overpowered the Lafayette grapplers, $30\frac{1}{2}$ — $6\frac{1}{2}$. The four varsity men, Allen, Ashman, Reider, and King, all came through victoriously. It was in this meet that the fastest fall of the year was scored, when Tommy King threw Purcell in 25 seconds, with a bar and chancery.

Taylor Gym was packed when the wrestlers from the University of Michigan came here for a dual meet. And the crowd, which filled every inch of space from the floor to the rafters, voiced its approval as the final score was posted, Lehigh 23, Michigan 13. The most sensational bout of the evening, and of the entire season, was the fall scored by Reider over Thomas, National A. A. U. 145 pound champ, a scant 42 seconds after the start of the bout. Two more falls were tallied for Lehigh by 135 pound Mark Wolcott and Walt Wells in the 175 pound class. A referee's decision on time to Ashman, and a forfeit to Whitey Sterngold in the heavyweight division, completed the Lehigh scoring.

The second intersectional meet of the season turned out to be the fourth straight victory for the Brown and White, as the Hoosiers minus the famed Heavyweight, McDaniel, bowed 26—15. The four falls that spelled defeat for Indiana were scored by Ashman, Reider, Bishop, who threw McDaniel's younger brother, and Wells. The semester grades, which had come out just before the meet, enabled Dick Bishop to rejoin the team, and to compensate for the loss of Tommy King, who became ineligible. The fifth straight win for the Engineers came during the following week, when the Yale Bulldogs, after having grabbed an early lead, fell 22—8. The two teams split the first four bouts; but Allen had been pinned in the overtime period of his bout, and all the rest were decision bouts, so that the sons of Eli were in the van 8—6. But there Yale stopped, failing to score another point as Bishop, Ford, Wells, and Sterngold followed each other in registering for Lehigh.

The 36—0 shutout scored against the erstwhile powerful Cornell team was the first of its kind scored by Lehigh over a period of five years, and was the sixth dual-meet triumph for the grapplers. Allen and Wolcott won on referee's decisions, and the rest of the team, Ashman, Hagerman, Bishop, Ford, Wells, and Sterngold, won on falls. But Lehigh's winning streak was snapped at this point, as the Penn State wrestlers handed the Brown and White its first setback by the count of 20—8. This untimely meet disturbed the fans on the campus and in town no little. The only two point winners were Ashman, who scored on a time-advantage, and Dick Bishop, who pinned his man.

Princeton handed Lehigh another beating when they captured five bouts to win 19—13, and the Tiger roared. The Engineers, badly crippled in the State meet, held the foe up to the last bout, when the score was 14—13 in Princeton's favor. But Charlie Toll, All-American football player, and mammoth of the mat, pinned Sterney, and clinched the meet. Ashman, Hagerman, and Ford scored for Lehigh, while Bishop lost his undefeated standing, by losing to Powers on a time advantage. The varsity then came back to form to end its regular season by trimming the Navy. The Middies picked up three falls in the early bouts to lead 15—8; but Bishop, Ford, and Sterngold won their bouts to give Lehigh its seventh win of the year. Hagerman had the spectators on their feet in his vain and desperate attempt to register a fall, and by pinning Conrad in 2:47, Captain Ashman completed his final year of collegiate wrestling with an untarnished record.

At the end of the varsity season a five man team motored out to Indiana to take part in the National Collegiate championships held at the Indiana State Teacher's college at Terre Haute. The injury ridden Lehigh representatives were not able to place a man or score a single point.

Dick Bishop went as far as the semi-finals but was eliminated by Jessup of Kansas, second-place winner, and lost again trying for third place. The other four men, Walt Allen, Mark Wolcott, Gus Hagerman, and Whitey Sterngold all lost their first bouts. Wolcott lost to the champion in his first bout, and was beaten again in the second place matches.

The Lehigh eagers experienced a rather disappointing season, since they won but four games in a schedule of fifteen. In several of the encounters the team seemed to slow up after the first few minutes of play; while in other games it was simply defeated by the superior playing of its opponents.

The Engineers opened their season shortly before the Christmas recess by beating Upsala 38-31. The Lehigh team established its lead early in the game, and although many of its passes went wide of the net, the advantage, once gained, was not given up. In the second

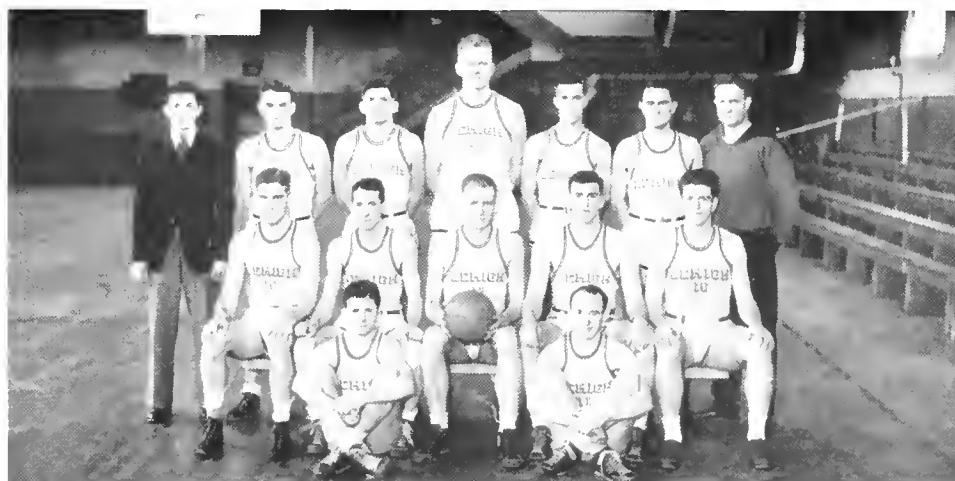

G. W. Harneson, Coach

game of the year, Montclair State Teachers emerged the winner over Coach Harneson's boys, although the game was a fast one. And then, after four days of strenuous practice during the vacation, the squad returned to action only to take sound drubbings from both Wooster, and the Army.

A week later, the Lehigh courtmen defeated Haverford 50-20, by playing a great brand of ball. Sinking shots from all sectors of the floor seemed to be the order of the day. In the opening minutes of play, Lehigh went into a six-point lead. But it was not long before the Scarlet team overtook the Brown and White, and forged ahead to make the count 8-6. However, with the help of Hank Hankins and Charlie Zell, the team snapped out of the doldrums, and at the halfway mark, held a 28-11 lead. During the second half, brilliant passing was in order as 28 more points were added, and the opponents were held to nine, a minimum in any league.

Apparently encouraged by this victory, the team, displaying its fighting power, showed Swarthmore that it was definitely not a "three-minute team." Several minutes before the end of the game the score stood at 25-21 in the opponents' favor. Lehigh cracked down, with Earl Russell, and Milt Granatt scoring a field-goal apiece; and again it was Russell, who passed to Captain Howells, the latter tallying the winner. Following these two victories, the Brown and White entered an eight-game losing streak which it found impossible to shake off until the last game of the season. In a period of several weeks, Lehigh was beaten by Wayne, Stevens, Villanova, Lafayette, and twice by both Muhlenberg, and Rutgers.

The closing match of the season found the Engineers opposed to their old friends from Lafayette, mentioned as the winner of a previous game between the two rivals. The two clubs seemed well matched, the former encounter having been decided 30-27, and the latter 33-26, in favor of Lehigh. Russell was once again in fine form, and was personally responsible for the margin of victory. Lehigh was in the lead soon after the opening whistle, and, playing nip and tuck ball, managed to hold its position in the van. The Marquis made good a high percentage of their foul, or free, heaves, while Lehigh was strong on both the defense, and field-play.

H. Carpenter, Coach

Starting the season with but four veterans, and beset all year with injuries, the soccer team had a mediocre season, winning only one game out of a ten-game schedule. Strong on the defense, but noticeably weak on the offense, the team scored but five goals in the entire season. Two of these were penalty shots. However, the majority of Lehigh's opponents was held down to two or three scores. The Penn game opened the season with honors going to the rival team by 5—0. Throughout the fray the Engineers were forced to make a defensive stand, making only two or three shots at the Penn goal.

The following week, the Princeton Tigers defeated Lehigh 4—1. Although the Brown and White squad attempted a rally in the second half, its efforts to overcome the Nassau booters proved unfruitful. The Bethlehem team took many shots at Princeton's net, with but one finding its mark. Stevens and Syracuse next polished off Lehigh 3—0 and 1—0, in order. The former team was

far more experienced than the home team. Lehigh used seven Sophomore players. As for Syracuse, they were evidently overrated this year, because Lehigh had no apparent difficulty in restricting them to one tally.

Attempting to avenge a 4—0 reverse at the hands of the Army during the preceding season, the Engineers were unsuccessful again this year against the Cadets. The final score was 4—1, and although this indicates an easy victory for the future generals, Lehigh gave them no set-up. Haverford pushed through the Brown and White team 6—0, for the worst defeat of the year. Not once did Lehigh seriously threaten the rivals' goal, and that strong defense which was so successful against Syracuse folded up under the speedy attack of the Haverford booters.

The lone victory of the Lehigh team was scored over Cornell, last year's champions. Staging a rally in the third period, the home team was successful in scoring the winning point of the game, which ended 1—0. On the following day, the squad lost to a powerful Navy team, 3—0. Evidently tired by the Cornell game, Lehigh was unable to put up a very strong fight. Next, owing to injuries, the Brown and White was an easy mark for the Swarthmore lads, who encountered no trouble in winning 5—0. The season closed with a 3—2 defeat by Lafayette. With the score 2—1 in favor of Lehigh, late in the third period the Leopards pulled ahead to take the game.

The Brown and White cross-country squad had a fair enough season this year when it split even with two wins and two losses. The schedule opened without the services of four of last year's stars. Bill Smith, Dud Healy, and Palmer Langdon had been graduated, and Bill Clark was unable to compete this season.

The first meet was lost to Penn State by a 40—15 score, the ultimate in cross-country scoring. There was a seven-way tie for first, all men from the Nittany squad. These men traversed the 5.1-mile course in 29:03 minutes. Ed Hildebrand followed in 29:45, and the remaining Lehigh men finished in times varying from 30:14 to 33:03. Captain Ed Broughal of the Brown and White had covered more than half of the course when he was stricken with a severe stitch. Finishing the route, he was rushed to St. Luke's Hospital, as appendicitis was feared. After an examination he was told that such was not the case, but that he would be lost to the squad for the remainder of the season.

The following week-end the Lehigh squad defeated Johns Hopkins 16—39. First place was a tie between four Lehigh men, Ed Hildebrand, Ed Hurst, Bruce Sigley, and Fred Tomkins. Fifth, sixth, and seventh places were taken by the Blue and Gold harriers, while Dick Parsons came in eighth. In winning this meet, the Lehigh team smashed the Hopkins' course record by 15 seconds.

Two weeks later the varsity received its second defeat, this time at the hands of Lafayette, on the over-water course of the Saucon Valley Country Club. The final score was 28—27. Lafayette's Walt Williamson and Ed Hildebrand each broke the course record set by Harvey of Penn State in 1934. Williamson finished first in 27:44, and Hildebrand was on his heels in 28:11. Lehigh's Ed Hurst took third place with a time of 28:13. L. B. Sigley, who had placed very well in the trials, was unable to take part in this meet because of an injured foot. Coach Kanaly stated that this loss hampered the Brown and White harriers considerably. Immediately preceding the meet Ed Hildebrand was elected to lead the runners, replacing Broughal as captain.

The team brought its season to a close by handing Rutgers a 23—32 defeat. First place was taken by the Rutgers captain, while Hurst of Lehigh was only 20 seconds behind. Third, fourth and fifth places were taken by means of a triple-tie between Captain Hildebrand, Bruce Sigley, and F. C. Tomkins.

With four victories and nine defeats to its credit, the baseball team did not do quite so well as it might have last year. Due to inclement weather, the season was a bit delayed in beginning. The first three games scheduled, Williams, Princeton, and Drexel, were rained out.

The season finally got under way in the middle of April with Lehigh scoring a 13-7 victory over Haverford. Herb Imbt pitched the entire game, allowing only six hits, and striking out nine men. In the sixth, thirteen men stepped up to the plate to bring home nine runs on four hits, three walks, and four Haverford errors. In its next game, the Brown and White was defeated 7-5 by Ursinus. In the ninth, with the score at 7-1, it looked as though Lehigh would rally when McKaig slapped the first pitch for a homer. The next three batters were struck out, however, by Trumbore, a Ursinus relief hurler.

Army gave Lehigh its second defeat, by a count of 7-1. In the seventh inning, the lucky one, the Cadets staged a three-run rally to smash a 4-4 deadlock, when a long triple cleared the loaded bases. During Houseparty week-end, with the boys a bit nervous, Villanova handed the Brown and White a smarting 19-5 trimming. Lehigh tagged the foe for twelve hits, but they were too well spaced. The following week the team apparently broke its losing tendencies with a 9-7 victory over Rutgers and an 13-14 slugfest over Swarthmore. Frank Lucard pitched the entire Rutgers fray, and pulled a Merriwell in the Swarthmore game when he asked to pitch in the eighth, with the sacks filled and no outs. He proceeded to set down the next three batters hitless and scoreless.

Possibly a bit overconfident, the team next came out on the short end of a 9-8 score in its second game with Villanova. In the ninth Lehigh scored a three-run rally which fell just short. The Engineers got off to a fast start in the first Lafayette game, as Joe Oller, first man up, smacked the lone homer of the game. Savercohl, Lafayette relief pitcher, allowed five walks in the ninth inning to hand the game to Lehigh, 8-7. And at this point the team entered upon a losing streak from which it never recovered. The Dickinson Red Devils managed to nick Lou Upton for two counters in the ninth, to beat the Brown and White 9-8. The season closed with two victories for the Mules, both by a 10-9 score, and two wins for our other neighbors, the Marquis, 8-2 and 5-0.

Gerlach: Dietz: Hoppock: Austin

F. Mercur, Coach

The Fifth Annual Fall Tennis Tournament, open for all Lehigh undergraduates, was started at the opening of college, and completed Friday, October 11th. Herbert Hilton, '38, defeated Captain John Dietz, '36, in a very fine five set match: 1-6, 6-1, 3-6, 2-6, 6-2. The semi-finalists were Dietz, who defeated Grant Stetson, '39, 6-4, 6-3, 7-9, 6-3; and Hilton, who defeated Dave Hoppock, '36, 6-3, 6-2, 6-2. Fifty-six contestants were entered.

The Spring season with fifteen scheduled matches had an unusual record, with 12 victories and 3 defeats. The successful season was due largely to having four seasoned lettermen on the team, including Captain Dietz, Hoppock, Gerlach, and Austin. Coach Mercur had an extremely hard task in selecting the remaining two places in the singles, because of the unusually large squad. Alfred Glading, '37, Charles Zell, '38, and Jerome Levy, '38, were finally picked for most of the matches, though honorable mention should be made of William Gottlieb, '38, Dick Lake, '38, and George Behan, '38.

In beating Muhlenberg, Gettysburg, Colgate, Dickinson, Bucknell, Lafayette, Haverford, Rutgers, the Alumni, Swarthmore, Temple, and Johns Hopkins, the team should be highly complimented. The only defeats were at the hands of Army, Duke, and Penn. The Duke and Penn teams outplayed Lehigh, and deserved their victories, both having had remarkable seasons.

A very entertaining day, and one which should be kept up each year, was the match with the Alumni, whom we defeated, 3-1. Had Julius Seligson, '30, been able to return, the outcome might have been very different.

M. E. Kanaly, Coach

The track squad was considerably weakened last year by the graduation of such stars as Ham Reidy, Bob Jackson, and John Piper. But in spite of this loss, the team made a good showing.

The squad opened its season during the spring recess in a meet with Swarthmore, from which the team returned victorious by a margin of 22 points, the score being 74—52. The seven firsts won by Lehigh in the 220, the 440, the mile, the high-jump, the broad-jump, pole-vault, and javelin were responsible for the win. The following week the team took part in the Penn Relays. Although the showing was not so good as it might have been, Lehigh placed in two events. Ralph Heller, clearing the bar at 12' 6", grabbed a fourth in the pole-vault against such competitors as Keith Brown, of Yale. The varsity relay placed third behind Bucknell and Rutgers thus losing possession of the Rodman Wanamaker championship cup for this mile event.

Haverford had no apparent difficulty in upsetting the Engineers, 77—49. The former possessed a strong, undefeated team, composed mainly of veterans. Scoring heavily in the field events, the opponents nabbed ten firsts, and Lehigh's weakness in the hurdles became quite obvious, through the loss of Jackson. Captain Healy finished in the van in the 440, while Ralph Heller came in first in the pole event, with a leap of 11' 6". The Brown and White had to put up a hard battle to defeat Lafayette in the next meet, by the score of 66—60. Although the Marquis took eight firsts, the home-team rallied with eleven second places, thus bringing up its score sufficiently. Walt Crockett won two firsts in the 110, and the furlong distances, and Heller repeated in the pole-vault, and tied for first in the high-jump. Also among Lehigh's winners were Hildebrand, in the mile, and Tom Garihan in the javelin.

In the last dual meet of the season, Lehigh, winning three firsts and seven seconds, was taken over by Rutgers to the tune of 85—41. Again Walt Crockett nailed down the quarter-mile event, Milt Enstine took the broad-jump, while Heller, Charles Ritter, and Luke Travis made a clean sweep of the pole-vault, all tying for first. The final week-end of the season found Lehigh participating in the M. A. S. C. A. A. meet at Haverford, and finishing fifth in the team total, although Ralph Heller easily retained his vault title, and Crockett won the quarter-mile title.

Although apparently off to a bad start, the varsity swimming team pulled itself together in time to win four of the last five meets, bringing the aggregate to four won and three lost during the season. In addition to making this schedule one of Lehigh's most successful, the mermen managed to crack three records this year.

The season opened with the Brown and White losing to Penn by a score of 57-18. The second meet was also lost, this time to the powerful Princetonians, the score being 66-9. The team was noticeably weakened in these meets by the absence of Frank Washabaugh, and the crippled condition of Captain Karl Jacobi who was suffering from an injured knee. Although Jacobi managed to take a first in his specialty, the breast-stroke, in the Penn encounter, a week later he lost to Hough of Princeton, who set a new Tiger pool record of 2:31.

Lehigh won its first meet when it downed Johns Hopkins 48-27, by scoring five firsts and eight second places.

Although Hopkins, up to this point, had been undefeated with Washabaugh at the distance swims, and Adam in good form, the Brown and White had no trouble in sinking the surgeons.

Next, the Lehigh merman suffered a 62-13 defeat at the hands of the everstrong Rutgers team. George Adam, a newcomer to the varsity, won the only first for Lehigh when he grabbed the 50 yard dash in 24.7, remarkable time. Undaunted by the recent defeat, the varsity turned the tables on the University of Delaware to the tune of 57-13. The Brown team not only won seven firsts out of eight events, but also maneuvered into six runner-up places. In this meet, Washabaugh clipped almost four seconds off the old time in the 220 Free-style to set an unofficial Lehigh record for the event. Two days later, the natators gained top honors in the Lafayette meet, winning by a tally of 49-20. Stan Ellison's record of 1935 fell before George Adam, swimming the 100 free. The time set was 56.5, and Lehigh prevailed in six of the eight events on the evening's card.

The final dual meet of the year resulted in a 47-27 victory over the Swarthmore varsity in the latter's waters. Washabaugh and Adam each took two firsts to tie for the scoring honors, as seven of the events were won by Lehigh. Parsons and Shoemaker swept the dives and Captain Jacobi set the third record for the season when he navigated the 200 yard breast-stroke in 2:38.8.

Captain . . . WILLIAM SHEPPARD, '38

TEAM MEMBERS

WILLIAM SHEPPARD, '38 . . . WILLIAM AHRENHOLZ, '37 . . . HENRY BEIDLER, '37 . . . EDWARD MOUNT, '37 . . . WILLIAM AYERS, '38 . . . ALLAN CRANE, '38 . . . WALTER WYNN, '38 . . . JOHN DALLEN, '39 . . . ROBERT KIRKPATRICK, '39 . . . EDWARD MANNING, '39 . . . DOUGLAS PRIDEAUX, '39 . . . CARL STEIG, '39 . . . DONALD TAG, '39.

Severely weakened by the graduation of six varsity sharpshooters, the 1936-37 rifle team began its season under a serious handicap. Another blow came when Phil Hooper, All-American marksman from the previous year, left school. Despite these apparent losses the Brown and White riflemen fared well, winning three shoulder matches and losing only to Navy. A very strong Freshman team from last year supplied four of the first five shooters on the varsity. Captain Bill Sheppard, a junior, and John Dallen, a sophomore, lent most of the color to the meets by turning in some very commendable scores. Sheppard is the Lehigh candidate for All-American honors this season.

The squad had little trouble in turning back Lafayette and P. M. C. in the opening shoulder-to-shoulder meets. The early success was soon ended however, for in the following match the Naval Academy handed the nimrods their lone defeat of the season. The Middies, who rank as probably the best team in the country, easily outscored Lehigh on the Annapolis range, 1,384-1,328. The team ended the schedule by nosing out Drexel by a 10 point margin. It was in this meet that Dallen scored a high for the season, firing a 92 from the standing position.

The Rifle club's Frosh team also had a successful year. When they beat the Lafayette Yearlings by 165 points, they equalled the Varsity's score in downing the same school. The Freshmen were led by Edward Uhl, who set a new Frosh record by firing a 231.

2nd Row: Ellstrom; Meseroll; Hoppock; Buffam; Reed; Hardeastle
1st Row: Carpenter; Mathias; Captain Deale

Golf Team

Owing to a generous appropriation from Arcadia, the Lehigh Golf team was able to complete a schedule of six matches, of which three were victories for the Brown and White, one resulted in a deadlock, and the other two were lost.

In the early spring, when the weather was cold and blustery, the golfers played host to a six-man team from Swarthmore. Ken Mathias' victory, after his match had gone two extra holes, gave Lehigh a 5-4 win over the Scarlet. The success of the Lehigh team continued as the Rutgers team met defeat on the Saueon Valley course, by a 4-2 score. On the following weekend the linksmen took a Southern swing, meeting Delaware and Johns Hopkins. Lehigh lost to the men from Dover 6-3, but came back to hand Hopkins a 25½-11½ drubbing the next day. The Nassau rather than the Intercollegiate scoring system was used in the Hopkins match.

Lehigh's other defeat was suffered at the hands of Lafayette. Captain Hicks was the only man to win his match as his teammates bowed, 4-2. The last match of the season gave the golfers their single stalemate when they tied Rutgers, 3-3. Deale and Hoppock scored Lehigh's three points by winning their matches and the best ball. At the end of the season Mathias was chosen to lead the golf team in the 1937 campaign, and Meseroll was elected manager.

Players who were participants in the various matches included: Edward J. Hicks, '36; John M. Jester, '36; Allan B. Carpenter, '37; Donald W. Deale, '37; H. Stanley Ford, '37; Winston K. Mathias, '37; George O. Ellstrom, '38; John S. Hoppock, '38; Malcolm C. Reed, '38.

The Athletic Department

The Division of Athletics and Physical Education was created by the Board of Trustees in the Fall of 1932 to take over the activities formerly carried on by the Department of Physical Education, and the Board in Control of Athletics.

The Division is divided into two departments: the Department of Intercollegiate Athletics, and the Department of Physical Education and Intramural Athletics.

The Department of Intercollegiate Athletics has control, as the name indicates, of all intercollegiate sport. It carries on as varsity sports football, soccer, cross country, wrestling, basketball, swimming, baseball, track, and tennis, and also maintains freshman teams in all these sports except cross country.

It is the aim of the Department to secure adequate coaches, to encourage fine athletic material to come to Lehigh, to give those men wishing to compete in athletics the proper type of competition, and to furnish to the non-competing part of the student body the right type of athletic contests in which it will be interested.

The Department of Physical Education and Intramural Athletics carries on the required Physical Education work, which is largely on an elective basis, and also organizes and administers as broad a program in competitive intramural athletics as is possible with Lehigh's indoor and outdoor playing space.

LEHIGH UNIVERSITY

Lehigh University is non-sectarian and has adhered to high standards in "the education of youth" from the beginning. Its alumni have been markedly successful in nearly all walks of life, and particularly in the industrial world. Lehigh is fortunate in the picturesque beauty of its situation on the "breast of old South Mountain" and in its central location with respect to centers of population (50 miles from Philadelphia, 90 miles from New York) and of industry (steel, cement, coal, silk and manufactures). Its graduates, therefore, are advantageously circumstanced in finding positions. Living expenses at Lehigh are reasonable, and with two other colleges in the city, Bethlehem affords a good educational environment.

COLLEGE OF ARTS AND SCIENCE

The College of Arts and Science, while maintaining courses in languages and the humanities which constitute the traditional cultural arts college, at the same time, offers optional groupings which lead to vocations, such as

Actuarial Practice
Bacteriological Investigations and Controls
Economic Geology
Education
Government Service

Journalism
Pre-Medicine
Pre-Law
Optics
Personnel Psychology

COLLEGE OF BUSINESS ADMINISTRATION

The developments of the past century have made the business organization and the economic structures of the country of paramount importance. The College of Business Administration at Lehigh has attained wide recognition for its teachings and writings in this field. The undergraduate courses offered in this college lead to careers in such fields as

Mercantile Establishments
Banking
Investment Banking
Accounting

Public Utilities
Business Statistics
Investment Houses
Marketing

COLLEGE OF ENGINEERING

The laboratories and other facilities for engineering education provide for thoroughly scientific professional training in the various branches of engineering and technology. Separate curricula are offered in

Chemistry
Chemical Engineering
Civil Engineering
Electrical Engineering
Industrial Engineering

Mechanical Engineering
Metallurgical Engineering
Mining Engineering
Physics and Engineering Physics
Sanitary Engineering

GRADUATE SCHOOL

Graduate study leading to the master's degree is offered in most departments of the University, and for the Ph.D. in chemistry, geology, history, mathematics, mechanical engineering, metallurgical engineering, physics, and structural engineering.
